Gerald Benjamin

Radical Republicans And Reform In New York During Reconstruction:

The Radical Republicans and Reform in New York during Reconstruction James C. Mohr, 2019-06-30 New insights into the politics of the Reconstruction era are offered in this study. Contending that the North as well as the South underwent reconstruction after the Civil War, the author examines the kinds of legislation the Radical Republicans tried to enact when they gained control in New York. Reform is the central theme of the book; fire protection, public health, labor, education, and voting are some of the areas covered. White reaction to black suffrage, the author maintains, brought dissension to and meant defeat for a political coalition that had begun to launch a reform program with profound implications.

Reconstruction in the United States David Lincove, 2000-01-30 The only comprehensive bibliography on Reconstruction, this book provides the definitive guide to literature published from 1877 to 1998. In over 2,900 entries, the work covers a broad range of topics including politics, agriculture, labor, religion, education, race relations, law, family, gender studies, and local history. It encompasses the years of the Civil War through the conclusion of the 1876 election and the end of the federal government's official role in reforming the postwar South and protecting the rights of Black citizens. In detailed annotations, the book covers a range of literature from scholarly and popular studies to published memoirs, letters, and documents, as well as reference sources and teaching tools. The issues of Reconstruction—civil rights, states' rights, and federal-state relations, racism, nationalism, government aid to individuals—continue to be relevant today, and the literature on Reconstruction is large. This book provides a systematic and comprehensive bibliographic guide to that literature. It is organized by topics and geographical regions and states, thereby emphasizing the local diversity in the South. In addition to a variety of literature, it covers the relevant Supreme Court cases through 1883, provides full citations to federal acts and cases cited, and includes the texts of the 13th, 14th, and 15th Amendments to the Constitution. The book will be useful to scholars and students researching a wide range of topics in Southern history, constitutional history, and national politics in post-Civil War United States.

Religion and the Radical Republican Movement Victor B. Howard, 2021-03-17 A distinctive contribution on the influence of Christians on Union politics during the Civil War era. *Ohio History: Religion and the Radical Republican Movement, 1860-1870* is a study of the interplay of religion and politics during the Civil War era. More specifically, it examines the extent to which religion set the moral tone of the North during the period of 1860 through 1870. Howard focuses on the growing influence of the evangelical and liberal churches during the period. This influence was largely exerted through the agency of the radical Republicans, a faction that took an extreme position on war measures and on reconstruction after the war. This book examines the degree to which radicalism was inspired by moral motivation and the action that followed the moral commitment. The author's prodigious research and stacks of quotations convincingly display the northern church's commitment to black suffrage and to the era's important congressional legislation bearing on black rights and other central Reconstruction issues. Choice

The Oxford Handbook of New York State Government and Politics Gerald

Benjamin, 2012-09-20 The Oxford Handbook of New York State Government and Politics brings together top scholars and former and current state officials to explain how and why the state is governed the way that it is The book's thirty-one chapters assemble new scholarship in key areas of governance in New York document the state's record in comparison to other U S states and identify directions for future research

The Papers of Andrew Johnson Andrew Johnson, 1967 Is there life after the presidency That is the question with which Andrew Johnson wrestled after his return to Tennessee in March 1869 until his death in the summer of 1875 He answered that question with a resounding yes and revitalized his political ambitions For his six post presidential years Johnson relentlessly pursued a vindication of earlier setbacks and embarrassments He had hardly arrived back in Greenville before he began mapping his strategy to recapture public acclaim Johnson eschewed the opportunity to compete for the governor's chair and opted instead to set his sights on the prospects of going back to the nation's capital preferably as a U S senator Johnson engaged in three separate campaigns one in 1869 one in 1872 and the final one in 1874-75 In the first he sought election to the U S Senate At the very last minute the tide went against him in the legislature and Johnson thereby lost a wonderful opportunity to return to Washington only a few months after the end of his presidency In 1872 Tennessee stipulated that its new congressional seat would be an at large one This suited Johnson who favored a statewide rather than a district race When he could not secure the formal nomination of the state's Democratic party he boldly declared himself an independent candidate Although he knew full well that his actual chances of election over either a Republican or a Democratic rival were slim Johnson stayed in the fray Confederates exerted one the Democratic party and he succeeded The Republican contender emerged victorious much as Johnson had calculated and therefore in a somewhat perverse this strengthened Johnson's political clout for another day The day came in 1874 when he launched his campaign for the U S Senate Johnson labored mightily throughout the state in this cause by the time the legislature convened he was the major contender for the post But Democratic party successes in the gubernatorial and legislative elections had encouraged a number of other hopefuls Eventually the legislature staged fifty-five ballots before Johnson carried the day in late January 1875 As fate would have it President Grant summoned a special session of the U S Senate to meet in March enabling Johnson to claim his seat well ahead of the normal schedule The ex president strode confidently into the Senate chamber the scene of his impeachment embarrassment in 1868 and took the oath of office Many well-wishers as well as old foes greeted the battle-scarred political veteran whose vindication had been achieved at last After lingering in Washington after the close of the Senate session Johnson returned to Tennessee where he lived out the short remainder of his days With the exception of serious financial reverses and a nearly fatal battle with cholera in 1873 Johnson's sole focus had been his political rehabilitation Considering his return to the Senate albeit brief the argument could be made that he succeeded But considering the verdict of most historians it remains debatable whether he achieved his aims The Editor Paul H Bergeron is professor of history at the University of Tennessee Knoxville

The Notorious Mrs. Clem

Wendy Gamber,2016-09-01 Was Nancy Clem a respectable Indianapolis housewife or a cold blooded double murderess In September 1868 the remains of Jacob and Nancy Jane Young were found lying near the banks of Indiana s White River It was a gruesome scene Part of Jacob s face had been blown off apparently by the shotgun that lay a few feet away Spiders and black beetles crawled over his wound Smoke rose from his wife s smoldering body which was so badly burned that her intestines were exposed the flesh on her thighs gone and the bones partially reduced to powder Suspicion for both deaths turned to Nancy Clem a housewife who was also one of Mr Young s former business partners In The Notorious Mrs Clem Wendy Gamber chronicles the life and times of this charming and persuasive Gilded Age confidence woman who became famous not only as an accused murderess but also as an itinerant peddler of patent medicine and the supposed originator of the Ponzi scheme Clem s story is a shocking tale of friendship and betrayal crime and punishment courtroom drama and partisan politicking get rich quick schemes and shady business deals It also raises fascinating questions about women s place in an evolving urban economy As they argued over Clem s guilt or innocence lawyers jurors and ordinary citizens pondered competing ideas about gender money and marriage Was Clem on trial because she allegedly murdered her business partner Or was she on trial because she engaged in business Along the way Gamber introduces a host of equally compelling characters from prosecuting attorney and future U S president Benjamin Harrison to folksy defense lawyer John Hanna daring detective Peter Wilkins pioneering lady news writer Laura Ream and female remedy manufacturer Michael Slavin Based on extensive sources including newspapers trial documents and local histories this gripping account of a seemingly typical woman who achieved extraordinary notoriety will appeal to true crime lovers and historians alike *Abortion in America* James C. Mohr,1979-09-20 Chronicles the incidence of abortion in nineteenth and twentieth century America and the causes and processes of the profound social change which resulted by 1900 in the nearly universal legal proscription of abortion **Abe Lincoln's Secret War Against The North** John Chodes,2015-04-01 Abraham Lincoln an American icon was feared and hated during his presidency as a brutal dictator His severe attacks on New York Maryland Indiana and Missouri show that he was turning the United States into a permanently militarized nation Lincoln was reviled not only by Southerners and by his political rivals the Democrats but also to a surprising degree by the rank and file of his own Republican Party He won the war and so he is remembered as Honest Abe and the Great Emancipator But through this investigation of three Northern states that opposed Abraham Lincoln s policies and even one state that had fervently supported him the true picture becomes more clear Why is this story important for today Because many of the negatives in 21st century American society the centralization of power in Washington political indifference to the popular will the continual expansion of the military industrial complex can all be traced to their starting point Abraham Lincoln s presidency The Radical wing of Lincoln s Republican Party was a precursor of the 20th and 21st century totalitarian regimes These Radicals believed in and fulfilled their goal of one party rule This goal was not shaped by four years of brutalizing war but

was inherent in their ideology from the beginning

Local Government and the States: Autonomy, Politics and Policy
David R. Berman, 2015-06-03 This book offers an overview of the legal political and broad intergovernmental environment in which relations between local and state units of government take place the historical roots of the conflict among them and an analysis of contemporary problems concerning local authority local revenues state interventions and takeovers and the restructuring of local governments The author pays special attention to local governmental autonomy and the goals and activities of local officials as they seek to secure resources fend off regulations and interventions and fight for survival as independent units He looks at the intergovernmental struggle from the bottom up but in the process examines a variety of political activities at the state level and the development and effects of several state policies Berman finds considerable reason to be concerned about the viability and future of meaningful local government

The Market Revolution in America
Melvin Stokes, Melvyn Stokes, Stephen Conway, 1996 The last decade has seen a major shift in the way nineteenth century American history is interpreted and increasing attention is being paid to the market revolution occurring between 1815 and the Civil War This collection of twelve essays by preeminent scholars in nineteenth century history aims to respond to Charles Sellers's *The Market Revolution* reflecting upon the historiographic accomplishments initiated by his work while at the same time advancing the argument across a range of fields

Bay Cities and Water Politics Sarah S. Elkind, 1998 Combining insights from urban western and environmental history Elkind examines the ways that people's reactions to their natural surroundings drive both demand for improved public services and political reform She traces public works development in the Gilded Age and Progressive Era to explain how these programs united each city with its suburban neighbors creating new political entities and allowing Boston and Oakland to appropriate rural resources and thus overcome the environmental limits to their continued growth and prosperity She also shows how when the power of regionalism is turned to urban development environmental and social costs are sometimes overlooked

Henry Fairfield Osborn Brian Regal, 2018-08-06 The discovery in the 1920s of a huge cache of fossils in the Gobi Desert fuelled a mania for dinosaurs that continues to the present But the original goal of the expedition was to search for the origins of man Henry Fairfield Osborn 1857-1935 director of the American Museum of Natural History stood at the forefront of the debate over human evolution and the expedition aimed to prove his theory of human origins Osborn rejected the idea of primate ancestry and constructed a non-Darwinian theory that the evolution of man was the long adventurous story of individuals and groups exerting personal will power and inborn characteristics to achieve both biological and spiritual success It is an idea that still echoes today Study of Osborn's thinking however has been obscured by the perception that racism influenced his theories Brian Regal paints a different and more textured picture in this book he shows that Osborn's views on race like his political ideas were motivated by his science itself grounded in religious doctrine His belief in the Central Asian origins of man his role as an activist for eugenic reform and immigration controls his support for Nordicism his place in the New versus Old biology

debate his role in the Christian Fundamentalist controversy the Scopes Monkey trial and finally his construction of the Dawn Man hypothesis all stemmed from his desire to support his human evolution theory and point the way to salvation This biography charts Osborn s intellectual development from its roots in the eclectic Christianity of his mother through his student days with Arnold Guyot James McCosh and T H Huxley to his mature work at the American Museum It examines his trials and tribulations friendships and conflicts and the world in which he lived all contributed to the construction of his theory It is the dramatic story of a man holding onto ideas that for him represented the very meaning of life itself The Reconstruction Presidents Brooks D. Simpson, 1998-07-28 During and after the Civil War four presidents faced the challenge of reuniting the nation and of providing justice for black Americans and of achieving a balance between those goals This first book to collectively examine the Reconstruction policies of Abraham Lincoln Andrew Johnson Ulysses S Grant and Rutherford B Hayes reveals how they confronted and responded to the complex issues presented during that contested era in American politics Brooks Simpson examines the policies of each administration in depth and evaluates them in terms of their political social and institutional contexts Simpson explains what was politically possible at a time when federal authority and presidential power were more limited than they are now He compares these four leaders handling of similar challenges such as the retention of political support and the need to build a Southern base for their policies in different ways and under different circumstances and he discusses both their use of executive power and the impact of their personal beliefs on their actions Although historians have disagreed on the extent to which these presidents were committed to helping blacks Simpson s sharply drawn assessments of presidential performance shows that previous scholars have overemphasized how the personal racial views of each man shaped his approach to Reconstruction Simpson counters much of the conventional wisdom about these leaders by persuasively demonstrating that considerable constraints to presidential power severely limited their efforts to achieve their ends The Reconstruction Presidents marks a return to understanding Reconstruction based upon national politics and offers an approach to presidential policy making that emphasizes the environment in which a president governs and the nature of the challenges facing him By showing that what these four leaders might have accomplished was limited by circumstances not easily altered it allows us to assess them in the context of their times and better understand an era too often measured by inappropriate standards Professionalizing Medicine John M. Harris Jr., 2019-03-28 This biography of James Edmund Reeves whose legislative accomplishments cemented American physicians control of the medical marketplace illuminates landmarks of American health care the troubled introduction of clinical epidemiology and development of botanic medicine and homeopathy the Civil War s stimulation of sanitary science and hospital medicine the rise of government involvement the revolution in laboratory medicine and the explosive growth of phony cures It recounts the human side of medicine as well including the management of untreatable diseases and the complex politics of medical practice and professional organizing Reeves life provides a reminder that while politics

economics and science drive the societal trajectory of modern health care moral decisions often determine its path

The American Civil War Peter J. Parish, 2020-12-06 Originally published in 1975 this assessment of the American Civil War is a broad treatment of the war as a major historical event set in the context of a detailed picture of two governments economies and societies at war It discusses many controversial topics the uncertainty and hesitation that surrounded the origins of the war for example its economic impact the Radicals and their relationship with Lincoln and reconstruction as a wartime issue It offers acute analysis of Lincoln s political skills and an evaluation of emancipation and Lincoln s approach to it the problems and performance of the opposition during the war international reactions an assessment of some of the leading generals like McClellan and Lee and the impact of the war on both Southern and Northern society Frederick Douglass William S. McFeely, 2017-06-13 A detailed finely written portrait of the imposing 19th century leader David Levering Lewis New York Times Book Review Born into but escaped from slavery Frederick Douglass orator journalist autobiographer revolutionary on behalf of a just America was a towering figure at once consummately charismatic and flawed His Narrative of the Life of Frederick Douglass 1845 galvanized the antislavery movement and is one of the truly seminal works of African American literature In this Lincoln Prize winning biography William S McFeely captures the many sides of Douglass his boyhood on the Chesapeake his self education his rebellion and rising expectations his marriage affairs and intense friendships his bitter defeat and transcendent courage and re creates the high drama of a turbulent era
