Radicals Against Race:

Understanding Radicalism Ernest J. Zarra III, 2023-07-25 Understanding Radicalism How It Affects What's Happening in Education and Students Overall examines and explores the ever-growing trend to use education outside groups and social media as agencies of indoctrination and moral suasion to capture the imaginations thus prompting students to question their own racial and gender identities

Radical childhoods Jessica Gerrard, 2016-05-16 At a time when education appears to be simply reproducing social class relations *Radical childhoods* offers a timely consideration of how children's and young people's education can confront and challenge social inequality Presenting detailed analysis of archival material and oral testimony the book examines the experiences of students and educators in two schooling initiatives that were connected to two of the most significant social movements in Britain Socialist Sunday Schools est 1892 and Black Saturday Supplementary Schools est 1967 Analysing across time the author explores the ways in which these two very different schooling movements incorporated large numbers of women challenged class and race inequality and attempted to create spaces of emancipatory education independent to the state It argues that despite appearing to be on the margins of the public sphere these schools were important if contested and complex sites of political struggle

Cape Radicals Crain Soudien, 2019-06-03 The history of a radical group of intellectuals who founded the New Era Fellowship which shaped human rights precedents and social justice policy in South Africa In 1937 a group of young Capetonians socialist intellectuals from the Workers Party of South Africa embarked on a project they called the New Era Fellowship NEF In doing so they sought to disrupt and challenge not only prevailing political narratives but the very premises class and race on which they were based In different forums public debates lectures study circles and cultural events the seeds of radical thinking were planted nurtured and brought to full flower Taking a position of non collaboration and non racialism the NEF played a vital role in challenging society's responses to events ranging from the problem of taking up arms during the Second World War for an empire intent on stripping people of colour of their human rights to the Hertzog Bills which foreshadowed apartheid in all its ruthless effectiveness In subsequent narratives of liberation their significance has been overlooked even disparaged and has never been fully understood and acknowledged By shining a contemporary light on the NEF and locating its contribution in current sociological and political discourse educationist Crain Soudien shows how its members were at the forefront of redefining the debate about social difference in a racially divided society

Radicals on the Road Judy Tzu-Chun Wu, 2013-04-12 Traveling to Hanoi during the U S war in Vietnam was a long and dangerous undertaking Even though a neutral commission operated the flights the possibility of being shot down by bombers in the air and anti-aircraft guns on the ground was very real American travelers recalled landing in blackout conditions without lights even for the runway and upon their arrival seeking refuge immediately in bomb shelters Despite these dangers they felt compelled to journey to a land at war with their own country believing that these efforts could change the political imaginaries of other members of the American citizenry

and even alter U S policies in Southeast Asia In *Radicals on the Road* Judy Tzu Chun Wu tells the story of international journeys made by significant yet underrecognized historical figures such as African American leaders Robert Browne Eldridge Cleaver and Elaine Brown Asian American radicals Alex Hing and Pat Sumi Chicana activist Betita Martinez as well as women's peace and liberation advocates Cora Weiss and Charlotte Bunch These men and women of varying ages races sexual identities class backgrounds and religious faiths held diverse political views Nevertheless they all believed that the U S war in Vietnam was immoral and unjustified In times of military conflict heightened nationalism is the norm Powerful institutions like the government and the media work together to promote a culture of hyperpatriotism Some Americans though questioned their expected obligations and instead imagined themselves as internationalists as members of communities that transcended national boundaries Their Asian political collaborators who included Buddhist monk Thich Nhat Hanh Foreign Minister of the Provisional Revolutionary Government Nguyen Thi Binh and the Vietnam Women's Union cultivated relationships with U S travelers These partners from the East and the West worked together to foster what Wu describes as a politically radical orientalist sensibility By focusing on the travels of individuals who saw themselves as part of an international community of antiwar activists Wu analyzes how actual interactions among people from several nations inspired transnational identities and multiracial coalitions and challenged the political commitments and personal relationships of individual activists

people of rights and how the liberal state is implicated in the gratuitous violence of ISIL. The volume also offers a section on the rhetoric of exclusionary laws associated with intractable conflicts of the abortion conflict, the right to die controversy, and a Burkean perspective on violence in Bangladesh. Contributors suggest what can be done conceptually and politically to mitigate and end violations of those who are most vulnerable, banished, forgotten, damaged, and often silenced. Radicalism, Anti-Racism and Representation Alastair Bonnett, 2023-02-14. First published in 1993. Radicalism, Anti-Racism and Representation is a study set within a wider political context for the discussion of racial representation and anti-racism. The second half of the book is devoted to interview-based exploration of the ambiguities and political characteristics of race equality consciousness amongst public educators. It is shown that there is no one anti-racism. Different ideals and assumptions have been arrived at within different historical and geographical contexts. It is suggested that this intellectual plurality provides a resource for those wishing to rethink anti-racism in the light of its contemporary malaise. The study also explores and explains the development of self-critical, reflexive anti-racist and radical consciousness amongst educators. The book provides the first sociological study of anti-racism. Indeed, it is the first to provide a substantive critique of anti-racism from outside the New Right. It is also the first to look at this phenomenon geographically and to compare anti-racism in multiracial and white areas. This book will be of interest to students of human geography, sociology, history, ethnic studies, and race studies. Radical Sociologists and the Movement Martin J. Murray, Rhonda F. Levine, Martin Oppenheimer, 1991.

Radicals in the Barrio Justin Akers Chacón, 2018-06-26. *Radicals in the Barrio* uncovers a long and rich history of political radicalism within the Mexican and Chicano working class in the United States. Chacón clearly and sympathetically documents the ways that migratory workers carried with them radical political ideologies, new organizational models, and shared class experience as they crossed the border into southwestern barrios during the first three decades of the twentieth century. Justin Akers Chacón's previous work includes *No One is Illegal: Fighting Racism and State Violence on the U.S.-Mexico Border* with Mike Davis. **Critical Theories, Radical Pedagogies, and Global Conflicts** Gustavo Fischman, 2005. We are living in a time of resurgent global conflicts and imperialistic tensions, a time in which many children are being left behind by school systems that appear more concerned with developing accountability schemes and standardized models of testing than with defending the right of every child to have access to a good education. The efforts of countless teachers, activists, and families working and living in poor areas around the world are labeled as failures, entirely discredited on the basis of their expendability in relation to capital gains or simply ignored. In response to these oppressive and challenging conditions, this book's contributors, a group of committed educators and activists working in an ethos of solidarity across geopolitical and geographical borders, have advanced arguments and strategies that link educational transformation to the larger struggle to transform oppressive social relations. In a clear attempt to move beyond both nostalgia and romanticism, *Critical Theories, Radical Pedagogies, and Global Conflicts* draws from a range of viewpoints, conceptual and thematic, transnational and
