Radio Free Europe:

Broadcasting Freedom Arch Puddington, 2021-05-11 Among America's most unusual and successful weapons during the Cold War were Radio Free Europe and Radio Liberty. RFE/RL had its origins in a post-war America brimming with confidence and secure in its power. Unlike the Voice of America which conveyed a distinctly American perspective on global events, RFE/RL served as surrogate home radio services and a vital alternative to the controlled party-dominated domestic press in Eastern Europe. Over twenty stations featured programming tailored to individual countries. They reached millions of listeners ranging from industrial workers to dissident leaders such as Lech Walesa and Vaclav Havel. *Broadcasting Freedom* draws on rare archival material and offers a penetrating insider history of the radios that helped change the face of Europe. Arch Puddington reveals new information about the connections between RFE/RL and the CIA which provided covert funding for the stations during the critical start-up years in the early 1950s. He relates in detail the efforts of Soviet and Eastern Bloc officials to thwart the stations; their tactics ranged from jamming attempts, assassinations of radio journalists, the infiltration of spies onto the radios' staffs and the bombing of the radios' headquarters. Puddington addresses the controversies that engulfed the stations throughout the Cold War, most notably RFE broadcasts during the Hungarian Revolution that were described as inflammatory and irresponsible. He shows how RFE prevented the Communist authorities from establishing a monopoly on the dissemination of information in Poland and describes the crucial roles played by the stations as the Berlin Wall came down and the Soviet Union broke apart. *Broadcasting Freedom* is also a portrait of the Cold War in America. Puddington offers insights into the strategic thinking of the RFE/RL leadership and those in the highest circles of American government including CIA directors, secretaries of state and even presidents.

Radio Free Europe Robert T. Holt, What is radio Free Europe? Where does it broadcast? Who runs it? What are its purposes? Although thousands of Americans are familiar with Radio Free Europe, many have contributed to its support through the Crusade for Freedom campaigns; few know enough about it.

The Image Empire Erik Barnouw, 1970-11-15 During the 1950s, in a frontier atmosphere of enterprise and sharp struggle, an American television system took shape. But even as it did so, its pioneers pushed beyond American borders and became programmers to scores of other nations. In its first decade, United States television was already a world phenomenon. Since American radio had for some time had international ramifications, American images and sounds were radiating from transmitter towers throughout the globe. They were called entertainment or news or education but were always more. They were a reflection of a growing United States involvement in the lives of other nations, an involvement of imperial scope. The role of broadcasters in this American expansion and in the era that produced it is the subject matter of
