Raiding The Icebox Reflections On Twentieth Century Culture:

Raiding the Icebox Peter Wollen, 2008-08-17 Raiding the Icebox is a kaleidoscopic review of the avant garde and radical subcultures of the twentieth century and explains how the most powerful artistic statements of the era redrew the line between high and low art Beginning with an analysis of the role of Diaghilev and the Russian Ballet Wollen argues that modernism has always had a hidden suppressed side which cannot easily be absorbed into the master narrative of modernity Wollen reviews the hopes fears and expectations of artists and critics such as the Bauhaus movement as fascinated by Henry Ford s assembly line as they were by the Hollywood dream factory concluding with Guy Debord s caustic dystopian vision of an all consuming Society of the Spectacle Finally Wollen chronicles the emergence of a subversive sensibility as he explores some of the unexpected new cultural forms which non Western artists are taking as modernism enters into crisis at the beginning of a new century reversing the rules of the game and raiding the icebox of the West **Italian Style** Eugenia

Paulicelli, 2016-09-22 Since its beginning and during periods of great transformations movie going for both men and women was akin to going to a fashion parade Before the explosion of digital technology and its enchanted world access to fashion was only accessible on the big screen Fashion and style became reachable for the masses through cinema And with the genre of the fashion film this continues today Focusing on a number of crucial films and directors from the silent era to the present this study will offer for the first time an in depth exploration of the interaction between fashion and Italian cinema The study however will privilege the golden age of Italian cinema especially the crucial decades of the 1950s and 1960s during which through the marriage of fashion and film Italian fashion and style were launched globally Through the lens of fashion the study will revisit the films of some of Italy s most important film makers such as Antonioni Fellini Visconti and others and films as old as Mario Oxilia s silent Rapsodia Satanica 1917 to Luca Guadagnino s I am Love 2009 **The Oxford**

Handbook of Science Fiction Rob Latham, 2014 The Oxford Handbook of Science Fiction attempts to descry the historical and cultural contours of SF in the wake of technoculture studies Rather than treating the genre as an isolated aesthetic formation it examines SF s many lines of cross pollination with technocultural realities since its inception in the nineteenth century showing how SF s unique history and subcultural identity has been constructed in ongoing dialogue with popular discourses of science and technology The volume consists of four broadly themed sections each divided into eleven chapters Section I Science Fiction as Genre considers the internal history of SF literature examining its characteristic aesthetic and ideological modalities its animating social and commercial institutions and its relationship to other fantastic genres Section II Science Fiction as Medium presents a more diverse and ramified understanding of what constitutes the field as a mode of artistic and pop cultural expression canvassing extra literary manifestations of SF ranging from film and television to videogames and hypertext to music and theme parks Section III Science Fiction as Culture examines the genre in relation to cultural issues and contexts that have influenced it and been influenced by it in turn the goal being to see how SF has helped

to constitute and define important sub cultural groupings social movements and historical developments during the nineteenth twentieth and twenty first centuries Finally Section IV Science Fiction as Worldview explores SF as a mode of thought and its intersection with other philosophies and large scale perspectives on the world from the Enlightenment to the present day

Strangers at Home Rita Keresztesi, 2005-01-01 *Strangers at Home* reframes the way we conceive of the modernist literature that appeared in the period between the two world wars This provocative work shows that a body of texts written by ethnic writers during this period poses a challenge to conventional notions of America and American modernism By engaging with modernist literary studies from the perspectives of minority discourse postcolonial studies and postmodern theory Rita Keresztesi questions the validity of modernism's claim to the neutrality of culture She argues that literary modernism grew out of a prejudiced racially biased and often xenophobic historical context that necessitated a politically conservative and narrow definition of modernism in America With the changing racial ethnic and cultural makeup of the nation during the interwar era literary modernism also changed its form and content Contesting traditional notions of literary modernism Keresztesi examines American modernism from an ethnic perspective in the works of Harlem Renaissance immigrant and Native American writers She discusses such authors as Countee Cullen Nella Larsen Zora Neale Hurston Anzia Yezierska Henry Roth Josephina Niggli Mourning Dove D Arcy McNickle and John Joseph Mathews among others *Strangers at Home* makes a persuasive argument for expanding our understanding of the writers themselves as well as the concept of modernism as it is currently defined

The Old Bridge of Mostar and Increasing Respect for Cultural Property in Armed Conflict Jadranka Petrovic, 2012-11-08 Although it is precious to all humanity

including future generations cultural property is targeted wilfully during armed conflict In the litany of other war crimes the wilful destruction of cultural property is pushed from centre stage The deliberate destruction of the Old Bridge of Mostar is emblematic of tragedies wrought on priceless cultural objects internationally Drawing on the relevant rules of international humanitarian law and the jurisprudence of the International Criminal Tribunal for the former Yugoslavia this book analyses the normative implications of the deliberate targeting and destruction of the Old Bridge and also examines enforcement efforts in order to identify issues relating to international legal protection of cultural property arising from this incident A

Macdonald,C. Singer,2015-03-22 This book examines the connections evident between the simultaneous emergence of British modernism and middlebrow literary culture from 1880 to the 1930s The essays illustrate the mutual influences of modernist and middlebrow authors critics publishers and magazines **Cubism and Its Histories** David Cottington,2004 Cubism was the most influential artistic movement that emerged in the twentieth century Yet just what cubism was or stood for at the time of its emergence is still in dispute while the explanations offered for its importance for twentieth century art and its legacy for the present are bewildering in their variety This fascinating book offers a way beyond this confusion a narrative of its beginnings consolidation and dissemination that takes into account not only what the style

and the movement signified at the time of its emergence but also the principal writings through which cubism's significance for modernism has been established. Visually stunning with over 100 illustrations, this is an essential work for all students and teachers of modern art history. The Experimental Group Matthew Jesse Jackson, 2010-07-15 Matthew Jesse Jackson's writing and quality of mind put him in the forefront of the next wave in modern art studies. Thomas E. Crow, Institute of Fine Arts.

The Beach Beneath the Street McKenzie Wark, 2015-04-03 Over fifty years after the Situationist International appeared, its legacy continues to inspire activists, artists, and theorists around the world. Such a legend has accrued to this movement that the story of the SI now demands to be told in a contemporary voice capable of putting it into the context of twenty-first century struggles. McKenzie Wark delves into the Situationists' unacknowledged diversity, revealing a world as rich in practice as it is in theory. Tracing the group's development from the bohemian Paris of the 50s to the explosive days of May 68, Wark's take on the Situationists is biographically and historically rich, presenting the group as an ensemble creation rather than the brainchild and dominion of its most famous member, Guy Debord. Roaming through Europe and the lives of those who made up the movement, including Constant, Asger Jorn, Michèle Bernstein, Alex Trocchi, and Jacqueline de Jong, Wark uncovers an international movement riven with conflicting passions. Accessible to those who have only just discovered the Situationists and filled with new insights, *The Beach Beneath the Street* rereads the group's history in the light of our contemporary experience of communications, architecture, and everyday life. The Situationists tried to escape the world of twentieth-century spectacle and failed in the attempt. Wark argues that they may still help us to escape the twenty-first century while we still can.

The Turbulence of Migration Nikos Papastergiadis, 2018-03-08 This important book traces the impact of the movement of people, ideas, and capital across the globe.

Hollywood Goes Shopping David Desser, Garth Jowett, 2000 Aggressive product placement and retail tie-ins are as much a part of moviemaking today as high-concept scripts and computer-generated special effects, but this phenomenon is hardly recent. Since the silent era, Hollywood studios have proved remarkably adept at advertising both their own products and a bewildering variety of consumer commodities, successfully promoting the idea of consumption itself. *Hollywood Goes Shopping* brings together leading film studies scholars to explore the complex and sometimes contradictory relationship between American cinema and consumer culture, providing an innovative reading of both film history and the evolution of consumerism in the twentieth century.
