Munroe, 2019-09-03 AN INSTANT 1 NEW YORK TIMES BESTSELLER How To will make you laugh as you learn With How To you can't help but appreciate the glorious complexity of our universe and the amazing breadth of humanity's effort to comprehend it If you want some lightweight edification you won't go wrong with How To CNET How To has science and jokes in it so 10/10 can recommend Simone Giertz The world's most entertaining and useless self help guide from the brilliant mind behind the wildly popular webcomic xkcd the bestsellers What If and Thing Explainer and What If 2 coming September 13 2022 For any task you might want to do there's a right way a wrong way and a way so monumentally complex excessive and inadvisable that no one would ever try it How To is a guide to the third kind of approach It's full of highly

impractical advice for everything from landing a plane to digging a hole Bestselling author and cartoonist Randall Munroe explains how to predict the weather by analyzing the pixels of your Facebook photos He teaches you how to tell if you're a baby boomer or a 90's kid by measuring the radioactivity of your teeth He offers tips for taking a selfie with a telescope crossing a river by boiling it and powering your house by destroying the fabric of space time And if you want to get rid of the book once you're done with it he walks you through your options for proper disposal including dissolving it in the ocean converting it to a vapor using tectonic plates to subduct it into the Earth's mantle or launching it into the Sun By exploring the most complicated ways to do simple tasks Munroe doesn't just make things difficult for himself and his readers As he did so brilliantly in *What If* Munroe invites us to explore the most absurd reaches of the possible Full of clever infographics and fun illustrations *How To* is a delightfully mind bending way to better understand the science and technology underlying the things we do every day

*Sandals of the Basketmaker and Pueblo Peoples* Lynn Shuler Teague, Dorothy K. Washburn, 2013-07 The decorated sandals worn by prehistoric southwesterners with their complex fiber structures and designs have been dissected described and interpreted for a century Nevertheless these artifacts remain mysterious in many respects Teague and Washburn examine these sandals as sources of information on the history of the people known as the Basketmakers The unique sandals of early southwestern farmers appear in Basketmaker II and reach their greatest elaboration with the complex fabric structures and colorbanded designs of Basketmaker III The appearance of this footwear coincides with the transition to fully sedentary maize agriculture The authors address the origins of these sandals and what they may reveal about population movements onto and around the Colorado Plateau and about the cosmology of early
