Towards Rethinking Politics, Policy and Polity in the Anthropocene Hans Günter Brauch, 2025-02-24 Humankind faces two anthropogenic threats to its survival that are closely linked The first is the end of the Holocene and the start of the Anthropocene which was marked by the test of a nuclear bomb on 16 July 1945 In the prevailing peace and security narrative nuclear weapons and the other country bloc or alliance pose a perceived threat to humankind s survival In the Anthropocene narrative we are the threat through our way of life and the burning of fossil fuels The start of the Anthropocene coincides with a change in the international order with the setting up of the UN and the Bretton Woods Institutions Three stages of this order are distinguished the Cold War bipolarity the post Cold War era unipolarity and the end of the rule based global liberal order multipolarity on 24 February 2022 In this book ten multidisciplinary perspectives discuss complexity Anthropocene geopolitics peace and security discourses and the debate on the Anthropocene planetary boundaries complex crises and integrative geography in the Anthropocene governance and politics and the Patriacene and gender Both existential threats for humankind are illustrated by cover photos of the first nuclear weapons test on 16 July 1945 and by Category 5 Hurricane Otis an extreme weather event impacting on Acapulco in Mexico on 25 October 2023 The Anthropocene as a new epoch of Earth history coincides in 1945 with a change in the international order In the security and peace narrative the other and nuclear weapons pose an existential threat in the Anthropocene narrative This dual existential change requires a rethinking of politics policy and polity In the social sciences the Anthropocene is being discussed from multidisciplinary perspectives geography political science and peace security and gender studies This is an open access publication Redefining Politics Adrian Leftwich, 2009-10 The book provides a clear framework for analyzing politics in all human groups from families to multinational companies and from villages to modern nation states Throughout it is concerned to extend the range of politics beyond its usual institutional focus to stress its interdisciplinary requirements and to expand the conception of politics in societies Divided We Stand Michiel Schwarz, Michael Thompson, 1990 This book provides a down to earth account of the virtues and failures of environmental risk assessment The assessment process involves politics technology and issues of social choice an unstructured grouping that often presents contradictory and confusing standpoints the virtues of science and the scientific method are extolled on the one hand and condemned on the other no viable solutions are offered and there is no real understanding of the issues being discussed This chaotic situation is analyzed using cultural theory to offer a powerful and groundbreaking account of such topics as technological decision making politics energy engineering and technology as a whole *Politics and the Concept of the Political* James Wiley, 2016-05-26 A recent trend in contemporary western political theory is to criticize it for implicitly trying to conquer displace or moralize politics James Wiley s book takes the next step from criticizing contemporary political theory to showing what a more politics centered political theory would look like by exploring the meaning and value of politics in the writings of Max Weber Carl Schmitt Paul Ricoeur Hannah Arendt Sheldon Wolin Claude Lefort and Ernesto Laclau and Chantal Mouffe These political theorists all use the concept of

the political to explain the value of politics and defend it from its detractors They represent state centered republic centered and society centered conceptions of politics as well as realist authoritarian idealist republican populist and radical democratic traditions of political thought This book compares these theorists and traditions of the political in order to defend politics from its critics and to contribute to the development of a politics centered political theory Politics and the Concept of the Political will be a useful resource to general audiences as well as to specialists in political theory **After Politics** Glen Newey,2000-12-18 Why do political philosophers why away from politics After Politics The Rejection of Politics in Contemporary Liberal Philosophy offers a challenging and original critique of liberalism the dominant political philosophy of our time tackling key issues like state legitimacy value pluralism neutrality the nature of politics public reasons and morality in politics Analyzing major liberal theorists like Rawls Habermas Rorty Barry Gray Raz Larmore Ackerman and others Glen Newey argues that liberalism by passes politics because it ignores or misunderstands human motivation and elevates academic system building over political realities of conflict and power *Rethinking Home Economics* Sarah J.

Stage,Virginia B. Vincenti,2018-07-05 Until recently historians tended to dismiss home economics as little more than a conspiracy to keep women in the kitchen This landmark volume initiates collaboration among home economists family and consumer science professionals and women s historians What knits the essays together is a willingness to revisit the subject of home economics with neither indictment nor apology The volume includes significant new work that places home economics in the twentieth century within the context of the development of women s professions Rethinking Home Economics documents the evolution of a profession from the home economics movement launched by Ellen Richards in the early twentieth century to the modern field renamed Family and Consumer Sciences in 1994 The essays in this volume show the range of activities pursued under the rubric of home economics from dietetics and parenting teaching and cooperative extension work to test kitchen and product development Exploration of the ways in which gender race and class influenced women s options in colleges and universities hospitals business and industry as well as government has provided a greater understanding of the obstacles women encountered and the strategies they used to gain legitimacy as the field developed

Entertainment and Politics in Contemporary China Jingsi Christina Wu,2017-08-04 This book advances research about

China by providing an updated narrative of its entertainment life in the beginning of China's twenty first century. As the rest of the world continues to pay keen attention to developments in China's politics, economy and culture, the book provides insights on fascinating new developments in contemporary Chinese popular culture including its reality television, family dramas centered around younger generations' life struggles and social media. Furthermore, *Entertainment and Politics in Contemporary China* is the first book to apply the theoretical innovation of an aesthetic public sphere in examining closely the linkages between China's political life and activities in the country's culture sphere. Since concepts of public sphere and democracy largely took root from the West, Wu argues that this case study of China promises valuable insights about entertainment's role in the formation of citizenship and building of a civil society which remains a site of great contention in Western theories and empirical efforts.

Rethinking Democracy Rajni Kothari, 2005. *Rethinking Democracy* is an insightful and reflective monograph on democracy in general and Indian democracy in particular. In this work, Rajni Kothari revisits the core arguments he has laid down in his various writings in the past four decades: *Politics in India*, *State Against Democracy*, *Communalism in India* etc. While revisiting his writings, Kothari reflects, interrogates and even contests some of his earlier formulations on democracy, state and civil society, developing a new paradigm on the basis of his intellectual experience and activist experience. Kothari makes a powerful critique of prevailing democratic theory and practice in a changing global as well as Indian context and concludes that democracy has failed to achieve its objective of human emancipation and survives merely as a dream. However, this disillusionment with democracy does not deter him from searching for an alternative model of a decentralized participatory and emancipatory democracy.

Politics of the Past David Cowan, 2024-04-11. The

inter war period 1918 1939 is still remembered as a period of mass deprivation the hungry thirties But how did this impression emerge Thousands of conversations about life in the inter war period between parents and children around the dinner table among workmates at the pub shaped these understandings In turn these fed into popular politics Stories about the embryonic welfare system in the early twentieth century informed how people felt towards the National Health Service memories of the Great Depression shaped arguments about state intervention in the economy Challenging accounts of widespread political disengagement in the twentieth century Politics of the Past shows how re telling family stories about the inter war period offered ordinary people an accessible way of engaging in politics Drawing on six local case studies across Scotland and England this book explains how stories about the inter war working class experience in industrial areas came to appear commonplace nationwide

From Statism To Pluralism Paul Hirst, Birkbeck College Paul Hirst Professor of Social Theory, 2013-02-01 Modern societies currently lack positive alternative visions of the future Many writers have claimed that the only option is a return to free market capitalism in which success and survival depend on being as competitive as possible whether as a nation firm or individual Paul Hirst argues that there are viable alternative futures and widely applicable models that can be used to structure change Hirst's distinctive approach to political theory reasons from real political problems rather than confining itself to abstract concepts Presenting an innovative political position this collection of essays represents an attempt to re state a practical third way between the discredited ideals of state socialism and laissez faire capitalism
