Redesigning the Welfare State in New Zealand Jonathan Boston, Paul Dalziel, Susan St. John, 1999 Compensation education housing social welfare employment assistance and superannuation **Policy change, public attitudes and social citizenship** Humpage, Louise, 2014-11-05 Neoliberal reforms have seen a radical shift in government thinking about social citizenship rights around the world But have they had a similarly significant impact on public support for these rights This unique book traces public views on social citizenship across three decades through attitudinal data from New Zealand the United Kingdom and Australia It argues that support for some aspects of social citizenship diminished more significantly under some political regimes than others and that limited public resistance following the financial crisis of 2008 2009 further suggests the public rolled over and accepted these neoliberal values Yet attitudinal variances across different policy areas challenge the idea of an omnipotent neoliberalism providing food for thought for academics students and advocates wishing to galvanise support for social citizenship in the 21st century **French Welfare State Reform** James Angresano, 2011 This book explores an important emergent issue what types of reforms are required to enable welfare states to preserve sustainability For the purpose of this study a sustainable welfare state is one that can remain the guarantor against social

risks and adverse economic trends for all segments of their respective societies and satisfy sound fiscal criteria such as the Maastricht requirement for all members of the EMU that their fiscal budget deficit does not exceed 3% of the GDP without imposing considerable financial burdens on future generations

Transforming the Welfare State

Jonathan Boston, 2020-02-04 Eighty years ago New Zealand's welfare state was envied by many social reformers around the world. Today it stands in need of urgent repair and renewal. One of our leading public policy thinkers asks: What might the contours of a revitalised social contract for New Zealand look like? Packed full of analysis, Jonathan Boston's latest BWB Text directs us towards nothing less than a new political settlement. Wide-ranging reform of the welfare state is needed, Boston argues, if we are to address the challenges presented by economic, social and technological upheaval. This quest is made all the more demanding and pressing by alarming ecological crises and the need for the good society to place intergenerational responsibilities at its heart.

Radical Welfare State Retrenchment P. Starke, 2007-12-07 This book confronts one of the most fiercely contested issues in current political debates: how is welfare state retrenchment possible in modern democracies despite the welfare state's continuing popular appeal? Starke offers an international comparative analysis of welfare state retrenchment and an in-depth examination of its radical deployments.

Ideology and the Politics of (in)exclusion

Linda P. Ware, 2005 *Ideology and the Politics of In/Exclusion* provides an international analysis of the politics of research and practice in special education. The contributors to this volume establish purposeful connections to the micropolitics of disability identification and the macropolitics of social structure and describe various geographic locales; recount multiple historical contexts; rely upon differing sources of evidence; and as a consequence relate a more complex and richly layered analysis of educational inclusion. *Ideology and the Politics of In/Exclusion* breaks away from the prevailing discourse on educational inclusion as that which occurs in a vacuum, separate from social inclusion, by providing a close analysis of the narrow frameworks, historic influence and research tensions that underwrite current special education practice.

Effective Crime Reduction Strategies

James F. Albrecht, Dilip K. Das, 2011-02-22 The International Police Executive Symposium (IPES) www.ipes.info coordinates annual international conferences to evaluate critical issues in policing and recommend practical solutions to law enforcement executives deployed across the globe. Drawn from the 2005 proceedings hosted by the Czech Republic in Prague, *Effective Crime Reduction Strategies*

Ideational Leadership in German Welfare State Reform Sabina Stiller, 2010 The author of this study argues that key politicians and their policy ideas through ideational leadership have played an important role in the passing of structural reforms in the change-resistant German welfare state.

Global Dimensions of Public Administration and Governance Jos Raadschelders, Eran Vigoda-Gadot, 2015-01-21 A comparative interdisciplinary examination of the mechanisms behind public administration. *Global Dimensions of Public Administration and Governance* is a comprehensive comparative text on the structure and function of governments around the world. Written by two of the field's leading public administration scholars, this book provides an interdisciplinary perspective and a global

historical and theoretical examination of the management and governance of the modern state. Readers learn how territory, bureaucracy and political systems influence policy and reform in over thirty countries and how these mechanisms affect the everyday lives of citizens. This comparative approach features rich examples of how policy is shaped by culture and how modern policy principles are filtered to fit a country's needs and expectations. Chapters conclude with comparative analyses that help readers better understand the role and position of government in the contemporary world both in democratic societies and less than democratic environments. Governance doesn't happen in a vacuum. Those responsible for policy regulation and reform take cues from history, current events and visions for the future to inform thinking on matters that can potentially affect a large number of everyday lives. This book illustrates the thought process providing the necessary insight these important decisions require. Understand the relationship between structure and function of government. Learn how policy is culture dependent. Examine the political and societal contexts of reform. Discover the myriad forms of modern bureaucracy. The various social sciences provide valuable information and perspectives for those involved in public administration. Those perspectives converge here to form a thorough, well rounded examination of the success and failure possible and the mechanisms through which they take place. Global Dimensions of Public Administration and Governance provides a detailed, wide ranging look at how modern governments operate, how they got this far and where they're headed for the future.

Indigenous Spiritualities at Work Chellie Spiller, Rachel Wolfgramm, 2015-06-01 Are you intrigued by ancient wisdom traditions? Do you ever wonder if they have any relevance in today's world? How do Indigenous ways of being and doing balance wealth creation and well being? How might Indigenous peoples define success? What are Indigenous spiritualities? How are spiritualities manifested in Indigenous organizations today? These questions have intrigued us for many years. As a consequence, we invited scholars from around the world to contribute to a ground breaking book, Indigenous spiritualities at work, transforming the spirit of business enterprise to explore these questions from different worldviews. A key focus of this book is how Indigenous spiritual approaches revitalize identities and relationships within the workplace. However, the notion of workplace is not narrow as it includes communities of engagement and practice in ecologies of creativity and enterprise in the broadest sense. This enables Indigenous spiritualities at work to be explored from diverse perspectives, disciplines, cultures and sectors. In particular, the authentic voices of authors in this book enrich our understandings, offers points of enlightenment and amplifies spiritual traditions of Indigenous peoples in a way that honours traditions of the past, present and future. The contributions build bridges between scholarly work and practice. They include empirical studies of spiritualities, mindfulness, presence and authenticity. A diverse range of research methodologies, impact studies and examples of development programs are offered alongside artistic works, photographic essays, stories and poetry.
