## **Rediscoveries II:**

*Rediscoveries II* David Madden, Peggy Bach, 1988

**Rediscoveries and Reformulations** Hayward R. Alker, 1996-05-30

This book provides a distinctive and rich conception of methodology within international studies. From a rereading of the works of leading Western thinkers about international studies, Hayward Alker rediscovers a neo-Classical conception of international relations which is both humanistic and scientific. He draws on the work of classical authors such as Aristotle and Thucydides, modern writers like Machiavelli, Vico, Marx, Weber, Deutsch, and Bull, and post-modern writers like Havel, Connolly, and Toulmin. The central challenge addressed is how to integrate positivist or falsificationist research styles within humanistic or interpretive ones. The author argues that appropriate philosophically informed reformulations of conventional statistical and game theoretic analyses are possible and describes a number of humanistic methodologies for international relations including argumentation analysis, narrative modeling, computational models of political understanding, and reconstructive analysis.

*A Primer of the Novel* David Madden, Charles Bane, Sean M. Flory, 2006-06-22. When the first edition of David Madden's *A Primer of the Novel: For Readers and Writers* was published more than twenty-five years ago, there were no other books of its kind available. Since then, many authors and editors have produced works that attempt the same comprehensive coverage of the genre. However, these works tend to be either written solely for writers or solely for readers. More often than not, those written for readers tend to be aimed at advanced students or critics of the novel. In this revised edition, David Madden, Charles Bane, and Sean Flory have produced an updated work that is intended for a general readership, including writers, teachers, and students who are just being introduced to the genre. This unique handbook provides a definition and history of the novel, a description of early narratives, and a discussion of critical approaches to this literary form. *A Primer of the Novel* also identifies terms, definitions, commentary, and examples in the form of quotations for almost 50 types of novels and 15 artistic techniques. A chronology of narrative in general and of the novel in particular from 850 B.C. to the present is also included, along with indexes to authors, titles, novel types, and techniques, as well as a selective bibliography of criticism. Although all novel types present in the first edition are still represented, many have become more clearly defined. This revised edition also cites several types of novels that did not appear in the first edition, such as the graphic novel and the novel of Magical Realism. As well as keeping all of the original examples from representative texts, the authors have added new examples of more recent works. While this book was conceived for a general audience, it will be a valuable resource for students, teachers, and libraries. It may be used in any English literature courses at any level, including graduate, and is suited for creative writing courses as well. With its clear and immediately accessible features, this handbo

Genres Rediscovered Anna Maria Wasyl, 2011. A reader of the epyllion by Dracontius, the elegy by Maximianus, and the epigram by Luxorius should not expect that these works and these new embodiments of the old genres will be wholly

identical with their archetypes Were it so it would mean that we read but second rate versifiers indeed We may expect rather that thanks to the reading of Dracontius's epyllion Maximianus's elegy and Luxorius's epigram our understanding of these very genres may become fuller and deeper than if it was narrowed only to the study of the classical phase of the Roman literature Therefore I have decided to employ in the title of my book the expression genres rediscovered I have found it fair to emphasize that the poets whose works have been studied here merit appreciation for their creativity and indeed courage in reusing and reinterpreting the classical and truly classic literary heritage In addition I have found it similarly fair to stress that for the students of Latin literature the borderline between the classical and the post classical is and should be flexible It is not my intention of course to imply that aesthetic and poetological differences should be ignored or blurred Quite the reverse these differences are profound and multidimensional and as such must be properly understood and explained The main issue is the fact that studies of Latin literature or rather of literature in general and especially generic studies require a proper i.e. diachronic perspective A description of a certain genre based merely on its most important or generally known representative representatives will always risk becoming incomplete and limited In genology one must be utterly prudent in defining the main and the marginal the relevant and the negligible In this sense an insight into a few genres practiced by some classical and classic Roman poets from the perspective of their post classical followers may be also for a genologist an intriguing rediscovery

**Old Masters Worldwide** Susanna Avery-Quash, Barbara Pezzini, 2020-10-15 As a result of the Napoleonic wars vast numbers of Old Master paintings were released on to the market from public and private collections across continental Europe The knock on effect was the growth of the market for Old Masters from the 1790s up to the early 1930s when the Great Depression put an end to its expansion This book explores the global movement of Old Master paintings and investigates some of the changes in the art market that took place as a result of this new interest Arguably the most important phenomenon was the diminishing of the traditional figure of the art agent and the rise of more visible increasingly professional dealerships firms such as Colnaghi and Agnew's in Britain Goupil in France and Knoedler in the USA came into existence Old Masters Worldwide explores the ways in which the pioneering practices of such businesses contributed to shape a changing market

**Lost Legion Rediscovered** Donald O'Reilly, 2014-07-19 In AD383 according to Bishop Eucherius of Lyon flooding caused part of the bank of the River Rhone to collapse revealing a massed grave of thousands of bodies Eucherius identified these as a legion recruited for the Roman army from the Christians of the Theban district in Egypt whom he claimed had been massacred nearly a century previously near the modern village of St Maurice en Valais in southwestern Switzerland for refusing to obey orders they considered immoral This incident asserted by Eucherius as matter of fact is unrecorded elsewhere Even the existence of this Theban legion is unclear

**Seneca the Elder and His Rediscovered ›Historiae ab initio bellorum civilium‹** Maria Chiara Scappaticcio,2020-06-08 The refreshed insights into early imperial Roman historiography this book offers are linked to a recent discovery In the spring of 2014 the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM ERC StG 2014 n 636983 in response to Tiziano Dorandi s recollections of a series of unpublished notes on Latin texts on papyrus Among these was an in progress edition of the Latin rolls from Herculaneum together with Marichal s intuition that one of them had to be ascribed to a certain Annaeus Seneca PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work Working on the Latin P Herc 1067 led to confirm Marichal s intuitions and to go beyond it P Herc 1067 is the only extant direct witness to Seneca the Elder s *Historiae* Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant The present volume is made up of two complementary sections each of which contains seven contributions They are in close dialogue with each other as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism These two sections

express the two different but interlinked axes along which the contributions were developed On one side the focus is on the starting point of the debate namely the discovery of the papyrus roll transmitting the *Historiae* of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work On the other side there is a broader view on early imperial Roman historiography to which the new perspectives opened by the rediscovery of Seneca the Elder's *Historiae* greatly contribute *The Rediscovery of Antiquity* Jane Fejfer, Tobias Fischer-Hansen, Annette Rathje, 2003 Classical Archaeologists art historians and artists consider the Role of the Artist in the rediscovery of the past *India Rediscovered* Mahesh Vikram Singh, 2006 India Rediscovered in not just another title India always needed to be rediscovered for the future making of the nation It needed to be rediscovered in the context of interplay of its inherent spirit and changing material conditions althrough the past It needed to be rediscovered in the cycles of rise and fall revival and rejuvenation of all its civilizational and cultural ethos It needed to be rediscovered for a better understanding of the causes of a number of misgivings and misconceptions with a view to find a more positive and rational path of its rebuilding and finally it needed to be rediscovered to listen to the call of the age Salient Features The book falls in the line of some exceptional writings on India's past to its present in a surveying manner and style Analyses the direction of Indian history on the basis of the inter relationship of spirit and matter with regard to general will of the people Evaluates the progress of civilization and culture state and society in India in terms of maximum and total efficiency during different eras of Indian history which is altogether a new vision of looking at India's past Very well studded with references and an exhaustive theme index at the end for the benefit of readers and researchers with a view to open new vistas of research in the field and hence a big contribution to the knowledge *The Revelation Rediscovered* John Caldwell Calhoun Clarke, 1904 *The Man Who Rediscovered God* Martin Luther, 2021-01-08 Martin Luther The Man Who Rediscovered God Complete Works by Martin Luther Theological Works Sermons Hymns The Ninety five Theses The Bondage of the Will A Treatise on Christian Liberty Prayers Hymns Letters and many more Martin Luther's theology is based on the Bible and not on dogmas Referring to Paul's Epistle to the Romans he claims that salvation is given through God's grace and not through deeds It was adopted by Lutheran Churches and also by the other Reformed Churches in principle Martin Luther was German theologian professor pastor and church reformer Luther began the Protestant Reformation with the publication of his Ninety Five Theses on October 31 1517 In this publication he attacked the Church's sale of indulgences He advocated a theology that rested on God's gracious activity in Jesus Christ rather than in human works Nearly all Protestants trace their history back to Luther in one way or another Luther's relationship to philosophy is complex and should not be judged only by his famous statement that reason is the devil's whore Eisenstein Rediscovered Ian Christie, Professor Richard Taylor, Richard Taylor, 2005-06-28 Offers important new perspectives for reinterpreting Russian culture of the Soviet period presenting an unparalleled diversity of views and methodologies together with two newly discovered texts by Eisenstein **XXIII DAE High Energy Physics Symposium**
