Knight,2022-02-10 This book examines New Zealand's constitution through the lens of constitutional realism. It looks at the practices, habits, conventions, and norms of constitutional life. It focuses on the structures, processes, and culture that govern the exercise of public power, a perspective that is necessary to explore and account for a lived rather than textual constitution. New Zealand's constitution is unique. One of three remaining unwritten democratic constitutions in the world, it is characterised by a charming set of anachronistic contrasts. Unwritten but much found in various written sources. Built on a network of Westminster constitutional conventions but generously tailored to local conditions. Proudly independent yet perhaps a purer Westminster model than its British parent. Flexible and vulnerable while oddly enduring. It looks to the centralised authority that comes with a strong executive, strict parliamentary sovereignty, and a unitary state. However, its populace insists on egalitarian values and representative democracy with elections fiercely conducted nowadays under a system of proportional representation. The interests of indigenous Māori are protected largely through democratic majority rule. A reputation for upholding the rule of law yet few institutional safeguards to ensure compliance. Nola Millar

Sarah Gaitanos,2006 One of the most important and influential figures in the history of New Zealand theater. Nola Millar was an indefatigable director and teacher and the founder of Toi Whakaari New Zealand's premier drama school. This biography explores the full story of her career, her important work as reference librarian at the Turnbull library, and the social contexts in which she worked, providing great insight into the history of theatre in New Zealand. **Historical & Political**

Dictionary of New Zealand Keith Jackson, Alan McRobie,2008 This new retitled and expanded New Zealand edition is a substantially revised edition of the Historical Dictionary of New Zealand published in the United States in 2005. It describes the many changes of the past decade while building on the solid foundations of the earlier editions that examined the country's long and lively history. It covers a wide range of topics from relations between the Pākehā and the Māori to the country's recent economic changes and environmental policies. The introduction provides a good starting point, and the chronology traces New Zealand's history from the earliest settlers to the present. The dictionary includes hundreds of entries on important people, places, events, and institutions, as well as significant political, economic, social, and cultural aspects, and a bibliography for further reading. *Women Out of Place* Brackette Williams,2013-12-02 These essays investigate the links between agency and race with regard to constructions of masculinity and femininity among radical groups resisting varied forms of political and economic domination. Building on the work of anthropologists, historians, sociologists, literary critics, and feminist philosophers of science, the essays in *Women Out of Place: The Gender of Agency and Race of Nationality* investigate the links between agency and race for what they reveal about constructions of masculinity and femininity and patterns of domesticity among groups seeking to resist varied forms of political and economic domination through a subnational ideology of racial and cultural redemption.
