The World Shipbuilding Industry Daniel Todd, 2019-08-13 This book first published in 1985 presents a comprehensive overview of the world shipbuilding industry It contrasts the conditions which

foster its development in newly industrialised countries such as Japan South Korea and Brazil with the problems leading to its decline in Western Europe and North America The book discusses the supply and demand factors peculiar to shipbuilding and notes the inherent instability of the industry due to the conditions placed upon it by the economic environment Reactions to this instability are examined from the point of view of both shipbuilding enterprises and governments The book concludes by assessing current trends and discussing likely future developments It is shown that much will depend on shipping costs industrial organisation and the level of state support

Norwegian Shipping in the 20th Century Stig Tenold,2018-11-21 This book is open access under a CC BY NC ND 4 0 license This book belongs to the Maritime Business and Economic History strand of the Palgrave Studies in Maritime Economics book series This open access book discusses how Norwegian shipping companies played a crucial role in global shipping markets in the 20th century at times transporting more than ten per cent of world seaborne trade Chapters explore how Norway managed to remain competitive despite being a high labour cost country in an industry with global competition Among the features that are emphasised are market developments business strategies and political decisions The Norwegian experience was shaped by the main breaking points in 20th century world history such as the two world wars and by long term trends such as globalization and liberalization The shipping companies introduced technological and organizational innovations to build or maintain a competitive advantage in a rapidly changing world The growing importance of offshore petroleum exploration in the North Sea from the 1970s was both a threat and an opportunity to the shipping companies By adapting both business strategies and the political regime to the new circumstances the Norwegian shipping sector managed to maintain a leading position internationally

Reeds 21st Century Ship Management John W Dickie,2014-04-17 The first modern title to cover the varied and complex world of ship management in the 21st century Ship management has constantly had to evolve to take into account the advancements in technology as well as the demands of the shipping industry Having internet access and email on board ship has meant that the ship manager has to possess certain sets of skills to function effectively in the post including computer literacy The emergence of large multi national ship management companies has also changed how business is conducted and this in turn means that the ship manager and tiers of management within the organization have had to evolve to cope with the demands of working with a multi national workforce Furthermore since the mid 1980s there has been an ever expanding raft of legislation that is more restrictive for companies to meet and a shrinking of profit margins has seen a shift in how companies are required to operate to survive This book addresses the demands of 21st century ship management with the focus of the book as much on the people who manage ships as on the theory and practice of ship management

[The Function of Protection & Indemnity Marine Insurance in Relation to Ship Owner'S Liability for Cargo Claims](#) Joseph Tshilomb JK, LL.M;MSc,2016-03-04 In the early days of shipping and international maritime trade many more casualties occurred at sea Ever since ship owners liability for cargo claims has been increasing both in number and in cost in spite of the huge technical

development in international maritime transport In order to make it easier for ship owners to operate safely and efficiently the Protection and Indemnity appeared around 1870 as mutual marine insurance Besides Hull Machinery and Cargo Insurance offered on the international commercial market in insurance Protection and Indemnity Insurance known under the acronym P I is a ship owners insurance cover for legal liabilities to third parties This cover is generally achieved by entering the ship in a mutual insurance club Nowadays the mutuality is performed by an underwriter who endeavors to see that each owner carries his fair share of the risk The members of P I clubs are ship owners charterers or ship management companies At present a major function of the Protection and Indemnity insurance is to cover the ship owner for legal and contractual liability for loss of cargo or damage to cargo if there has been a breach of the carriage contract This liability is called Third party liability The ship owner will handover the cargo claim to his P I Club In order to clarify this liability Article 3 Paragraph 2 of the Hague Visby rules stipulates Subject to the provisions of Article 4 the carrier shall properly and carefully load handle stow carry keep care for and discharge the goods carried Therefore the focus in this research study is placed on the function of Protection and Indemnity insurance covering the ship owners liability for damage to cargo or loss of cargo
