Reel Terror The Stories That Inspired The Great Horror Movies:

Best New Horror 4 Stephen Jones, Ramsey Campbell, 2013-11-28 Best New Horror has established itself as the world's most admired annual collection showcasing the very best in contemporary horror fiction. For this latest bloodcurdling feast of terror, the multi-award-winning editors have chosen such modern masterpieces as the first book publication of a new ghost story by Clive Barker, Peter Straub's stunning novella set in a fear-haunted Vietnam, John Lennon's alternate history by Ian R. MacLeod, and Kim Newman's acclaimed novella about Victorian vampires. Plus razor-sharp stories on the cutting edge of horror by some of the greatest contemporary masters of fear, including Peter Atkins, Poppy Z. Brite, John Brunner, Christopher Fowler, Thomas Ligotti, M. John Harrison, Lisa Tuttle, Karl Edward Wagner, Kate Wilhelm, Douglas E. Winter, and many more.

Darkness, both literal and psychological, holds its own unique fascination. Despite our fears, or perhaps because of them, readers have always been drawn to tales of death, terror, madness, and the supernatural, and no more so than today when a wildly imaginative new generation of dark dreamers is carrying on in the tradition of Poe and Lovecraft and King, crafting exquisitely disturbing literary nightmares that gaze without flinching into the abyss and linger in the mind long after. Multiple award-winning editor Ellen Datlow knows the darkest corners of fiction and poetry better than most. Once again, she has braved the haunted landscape of modern horror to seek out the most chilling new works by both legendary masters of the genre and fresh young talents. Here are twisted hungers and obsessions, human and otherwise, along with an unsettling variety of spine-tingling fears and fantasies. The cutting edge of horror has never cut deeper than in this comprehensive showcase of the very best the field has to offer. Enter at your own risk. **Missing Reels** Harry Waldman, 2007-10-18. During the first half of this century, motion pictures were often considered disposable once their circulations were over. The recycling of used film and the use of components for war efforts contributed to the loss of many movies, as did the unstable nature of the nitrate film itself. The loss of extant works has created gaps in the national cinematic history of the United States and most European countries. Eighty percent of all Western-made films produced before World War I are considered lost, while 15 percent of the films made from
