Bachman,2024-10-11 In recent years the world has been shaken by numerous events that have caused and continue to cause massive human suffering from the COVID 19 pandemic to intrastate and interstate armed conflicts Moreover climate change continues to plow ahead contributing to growing tensions population movements and resource scarcity Meanwhile the methods by which groups and group life are threatened and the means by which violence is incited and perpetrated continue to evolve Such divergent crises even when they overlap or intersect confound definition and label This book seeks not to answer the question What is genocide but rather What is genocide studies When Raphael Lemkin coined the term genocide in 1944 he could not have foreseen what the world would look like today Now is the time to think about current manifestations of genocide and those likely to emerge in the future **Re-entry** Paul Preuss,1981 Through the space time hyperfold of a double black hole Holder will journey backward through time into one of a billion other possible realities By reliving his youth on a primitive planet he hopes to change the shape of his destiny Pursued by a beautiful assassin and used by an old woman whose secret experiments have achieved the unthinkable Holder will defy probability and save a universe on the edge of destruction Back cover **Organization and Decision** Niklas Luhmann,2018-11-08 Translated into English for the first time Luhmann s modern classic Organization and Decision explores how organizations work how they should be designed steered and controlled and how they order and structure society Luhmann argues that organization is order yet indeterminate In this book he shows how this paradox enables organizations to embed themselves within society without losing autonomy In developing his autopoietic perspective on organizations Luhmann applies his general theory of social systems by conceptualizing organizations as selfreproducing systems of decision communications His innovative and interdisciplinary approach to the material spanning organization studies management and sociology is integral to any study of organizations This new translation edited by one of the world s leading experts on Luhmann enables researchers and graduate students across the English speaking world to access Luhmann s ideas more readily **Heads Or Tails** Jochen Hörisch,2000 Examines the role of money in modern German literature Using examples from Goethe Gotthelf Holderlin and others to demonstrate the intersecting worlds of literature and finance the author argues that money like literature has no intrinsic value but is at the same time a necessity **The Pandemic and the People of God** Arbuckle, Gerald A.,2021-10-20 Draws from anthropology and theology to provide an analysis of the role of the church in responding to the COVID 19 pandemic **Global Perspectives on Desistance** Joanna Shapland,Stephen Farrall,Anthony Bottoms,2016-03-31 In recent years attention has switched from how adolescents are attracted into crime to how adults reduce their offending and then stop the process of desistance There are now around a dozen major longitudinal and in depth studies around the world which have followed or are following offenders over their life course charting their offending

history and their social and economic circumstances The book is the first to offer a global perspective on desistance and brings together international leading experts in the field from countries including the UK Ireland the Netherlands Scandinavia Spain the USA and Australia to set out what we know about desistance and to advance our theoretical understanding Drawing on leading studies this book sets the academic agenda for future work on desistance and examines the implications and potential positive effects of this research on desistance processes among current offenders Global Perspectives on Desistance is divided into three sections Agency structure and desistance from crime Life phases and desistance Criminal justice and state interventions Comprehensive and forward thinking this book is ideal for students studying criminology probation and social work social policy sociology and psychology It is also essential reading for academic criminologists sociologists and policy makers and practitioners working in corrections and reform **Project**

Welcome the Wretched César Cuauhtémoc García Hernández,2024-01-30 A powerful argument for separating immigration enforcement from the criminal legal system by one of the nation s foremost crimmigration experts In the fevered battles over immigration Democrats and Republicans alike agree on this that migrants who have committed a crime have no place in this country But targeting migrants because they have committed a crime is a short sighted appeal to nativist fear To predicate a migrant s right to stay in the country on whether they are law abiding and therefore deserving or criminal and undeserving does little to improve public safety and has an especially devastating impact on low income migrants of color While C sar Cuauht moc Garc a Hern ndez s first book Migrating to Prison focuses on the explosion of migrant detention centers over the past decades Welcome the Wretched tackles head on what happens when a deeply flawed and racist criminal legal system and immigration system converge to senselessly cruel effect Drawing on everything from history to legal analyses and philosophy Garc a Hern ndez counters the fundamental assumption that criminal activity has a rightful place in immigration matters arguing that instead of using the criminal legal system to identify people to deport the United States should place a reimagined sense of citizenship and solidarity at the center of immigration policy **Fragrance From**
