Reflecting Truth Japanese Photography In The Nineteenth Century:

Reflecting Truth Nicole Coolidge Rousmaniere, Mikiko Hirayama, 2004 This publication shows how scholarly investigation of Japanese photography in recent years has entered an important transitional stage moving beyond its focus on new discoveries and descriptions of collections to a more sophisticated investigation of photography in its historical and cultural contexts At one time marginalized as either a practical technique or amateur art form Japanese photography has now earned full recognition as a legitimate subject of scholarly inquiry It is now being examined in terms of its aesthetics technological development and its role in the development of a national identity in Japanese art during the country's transition to modernity as well as in contemporary society Contributors include Himeno Junichi on the early development of photography in Japan Sebastian Dobson focussing on the colourful figure of Felice Beato Luke Gartlan on Baron Raimond von Stillfried Ratenicz Allen Hockley on photographic albums produced by commercial studios in the 1880s and 1890s Kinoshita Naoyuki exploring the tradition of war portraiture in Japan Mikiko Hirayama describing the transition from the pioneering stages of photography in Japan to the modern era

Japanese Art - Transcultural

Perspectives Melanie Trede,Christine Guth,Mio Wakita,2024-12-02 The transcultural approach to Japanese art history embraced by the contributors to this volume centers on the dynamic aesthetic artistic and conceptual negotiations across cultural temporal and spatial boundaries It not only acknowledges material objects people and technologies as agents but also intangible practices such as knowledge and concepts as vital agencies of interaction in transcultural processes With its premise on connectivity trans territoriality networks and their transformative potential this research destabilizes categorical configurations such as center vs periphery and high vs low calling into question the classical canon of Japanese art history

Visual Counterculture in Japan Marco Bohr,2025-01-23 This book presents innovative analysis of emergent visual trends in Japan from the late 1960s to the present day Adopting a thematic approach this interdisciplinary text deconstructs the role that visual practices played in shaping a variety of countercultural discourses related to politics gender identity sexuality censorship ethics and disasters The book makes the case that visual practices do not merely function as a way to record counterculture but that such practices are in themselves contributing to dynamics of resistance By considering a wide range of artists photographers film makers and practitioners the book focuses on the way that visual culture transgresses subverts or in the very least questions assumed socio cultural boundaries in Japan In doing so the book foregrounds the crucial role that images play in our society today Images are no just depictions of political shifts as and when they do occur but they form part of this very shift in their own right The book also highlights the interconnectedness between various visual practices and how they fit into wider geopolitical considerations on a global scale

Photography for Everyone Kerry Ross, 2015-06-24 The Japanese passion for photography is almost a cliché but how did it begin Although Japanese art photography has been widely studied this book is the first to demonstrate how photography became an everyday activity Japan's enthusiasm for photography emerged alongside a retail and consumer revolution that marketed products and activities that fit into a modern tasteful middle class lifestyle Kerry Ross examines the magazines and merchandise promoted to ordinary Japanese people in the early twentieth century that allowed Japanese consumers to participate in that lifestyle and gave them a powerful tool to define its contours Each chapter discusses a different facet of this phenomenon from the revolution in retail camera shops to the blizzard of socially constructive how to manuals and to the vocabulary of popular aesthetics that developed from enthusiasts sharing photos Ross looks at the quotidian activities that went into the entire picture making process activities not typically understood as photographic in nature such as shopping for a camera reading photography magazines and even preserving one's pictures in albums These very activities promoted and sponsored by the industry embedded the camera in everyday life as both a consumer object and a technology for understanding modernity making it the irresistible enterprise that Eastman encountered in his first visit to Japan in 1920 when he remarked that the Japanese people were almost as addicted to the Kodak habit as ourselves

The Chaos and Cosmos of Kurosawa Tokiko Laura Nenzi, 2015-02-28 The Chaos and Cosmos of Kurosawa Tokiko is the story of a self-described base born nobody who tried to change the course of Japanese history Kurosawa Tokiko 1806-1890 a commoner from rural Mito domain was a poet teacher oracle and political activist In 1859 she embraced the xenophobic loyalist faction known for the motto revere the emperor expel the barbarians and traveled to Kyoto to denounce the shogun's policies before the emperor She was arrested taken to Edo's infamous Tenmach prison and sentenced to banishment In her later years having crossed the Tokugawa Meiji divide Tokiko became an elementary school teacher and experienced firsthand the modernizing policies of the new government After her death she was honored with court rank for her devotion to the loyalist cause Tokiko's story reflects not only some of the key moments in Japan's transition to the modern era but also some of its lesser known aspects thereby providing us with a fresh narrative of the late Tokugawa crisis the collapse of the shogunate

and the rise of the Meiji state The peculiar combination of no nonsense single mindedness and visionary flights of imagination evinced in her numerous diaries and poetry collections nuances our understanding of activism and political consciousness among rural nonelites by blurring the lines between the rational and the irrational focus and folly Tokiko s use of prognostication and her appeals to cosmic forces point to the creative paths some women constructed to take part in political debates and epitomize the resourcefulness required to preserve one s identity in the face of changing times In the early twentieth century Tokiko was reimagined in the popular press and her story was rewritten to offset fears about female autonomy and to boost local and national agendas These distorted and romanticized renditions offer compelling examples of the politicization of the past and of the extent to which present anxieties shape historical memory That Tokiko was unimportant and her loyalist mission a failure is irrelevant What is significant is that through her life story we are able to discern the ordinary individual in the midst of history By putting an extra in the spotlight The Chaos and Cosmos of Kurosawa Tokiko offers a new script for the drama that unfolded on the stage of late Tokugawa and early Meiji history **Archiv 57/58 , Japan , Breaking with Convention in Italian Art** Julia C. Fischer,2017-08-21 Popularized by the hit television show the phrase breaking bad is defined in urban slang as someone who challenges convention defies authority or rejects moral and social norms Running from 2008 to 2013 on AMC Breaking Bad featured one of the most unforgettable characters in television history Walter White a high school chemistry teacher husband and father who is diagnosed with terminal cancer For five seasons fans watched as Walter White tried to secure financial security for his family by using his chemistry skills to manufacture drugs Throughout the series run Walter White was the epitome of the phrase breaking bad as he broke the law and continually rejected the social mores that he had dutifully followed until his cancer diagnosis Taking its cue from Walter White this volume explores the various ways in which artists patrons and art historians throughout history have broken bad by defying authority challenging convention or rejecting the norm For example artists also sometimes break away from tradition by using unconventional iconography as is the case in Chapter Two which investigates how Etruscan tomb reliefs show mourning rather than celebration The book also includes a chapter in which an art historian breaks bad by challenging the conventional interpretation and date of an object thus eschewing tradition and defying authority In this case Chapter Three disputes the largely accepted Hellenistic date and interpretation of the Tazza Farnese and instead asserts that the cameo must be Roman Spanning the art of ancient Etruria to the twentieth century the eight chapters here explore the theme of breaking bad from a variety of time periods and artistic media from Etruscan mirrors and Roman cameos to Baroque portraits and Italian Pop Art Scholars approach the topic of breaking bad from a number of perspectives including examining the artist patronage reception propaganda iconography methodology and use *Challenging Past and Present* Ellen P. Conant,2006-02-28 The complex and coherent development of Japanese art during the course of the nineteenth century was inadvertently disrupted by a political event the Meiji Restoration of 1868 Scholars of both the preceding Edo

1615 1868 and the succeeding Meiji 1868 1912 eras have shunned the decades bordering this arbitrary divide thus creating an art historical void that the former view as a period of waning technical and creative inventiveness and the latter as one threatened by Meiji reforms and indiscriminate westernization and modernization Challenging Past and Present to the contrary demonstrates that the period 1840 1890 as seen progressively rather than retrospectively experienced a dramatic transformation in the visual arts which in turn made possible the creative achievements of the twentieth century The first group of chapters takes as its theme the diverse cultural currents of the transitional period particularly as they applied to art The second section deals with the inconsistent yet determinedly pragmatic courses pursued by artists entrepreneurs and patrons to achieve a secure footing in the uncertain terrain of early Meiji Further chapters look at how painters and sculptors sought to absorb and integrate foreign influences and reinterpret their own stylistic mediums **Diverse Voices in**

Photographic Albums Mary Trent, Kris Belden-Adams, 2022-07-29 Through a variety of case studies by global scholars from diverse academic fields this book explores photographic album practices of historically marginalized figures from a range of time periods geographic locations and socio cultural contexts Their albums stories span various racial ethnic gender and sexual identities nationalities religions and disabilities The vernacular albums featured in this volume present narratives that move beyond those reflected in our existing histories Essays examine the visual material and aural strategies that album makers have used to assert control over the presentation of their histories and identities and to direct what those narratives have to say a point of special relevance as these albums move out of private domestic space and into public archives institutions and digital formats This book does not consider photographic albums and scrapbooks as separate genres but as a continuum of modern creative practices of photographic and mass print collage aimed at self expression and narrative building that co evolved and were readily accessible The book will be of interest to scholars working in art history history of photography visual culture material culture media studies and cultural studies Constructing Japan Beate

Loeffler, 2025-09-25 The influence of Japanese art and culture on art in late 19th century Europe and America through collections of objects and knowledge transfer is already recognised However the research in this field often neglects architecture This study takes a new approach placing architecture at the centre Through in depth analysis of contemporary textual and visual sources Beate Loeffler shows how western actors from different backgrounds interpreted Japanese architecture as they experienced it either face to face or via texts and images It unveils a complex process of appropriation and rejection of claim to interpretive sovereignty and fascination with the foreign that led to both new knowledge and cultural clichés **Theatricality of the Closet** Michelle Liu Carriger, 2023-09-15 A richly illustrated exploration of fashion and its capacity for generating controversy and constructing social and individual identities Clothing matters This basic axiom is both common sense and in another way radical It is from this starting point that Michelle Liu Carriger elucidates the interconnected ways in which gender sexuality class and race are created by the everyday act of getting dressed

Theatricality of the Closet Fashion Performance and Subjectivity between Victorian Britain and Meiji Japan examines fashion and clothing controversies of the nineteenth century drawing on performance theory to reveal how the apparently superficial or frivolous deeply affects the creation of identity By interrogating a set of seemingly disparate examples from the same period but widely distant settings Victorian Britain and Meiji era Japan Carriger disentangles how small local ordinary practices became enmeshed in a global fabric of cultural and material surfaces following the opening of trade between these nations in 1850 This richly illustrated book presents an array of media from conservative newspapers and tabloids to ukiyo e and early photography that locate dress as a site where the individual and the social are interwoven whether in the 1860s and 1870s or the twenty first century **The Journal of Korean Studies, Volume 21, Number 2 (Fall 2016)** Donald Baker, Tracy L. Stober, Robert Oppenheim, 2016-12-08 The University of Washington Korea Studies Program in collaboration with Rowman Littlefield Publishers is proud to publish the Journal of Korean Studies **The Journey of "A Good Type"** David Odo, 2015-08-03 When Japan opened its doors to the West in the 1860s delicately hand tinted photographic prints of Japanese people and landscapes were among its earliest and most popular exports David Odo studies the collection of Japanese photographs at Harvard's Peabody Museum and the ways they were produced acquired and circulated in the nineteenth century **East Asia Beyond the History Wars** Tessa Morris-Suzuki, 2013 East Asia is now the world's economic powerhouse but ghosts of history continue to trouble relations between the key countries of the region particularly between Japan China and the two Koreas Unhappy legacies of Japan's military expansion in pre war Asia prompt on going calls for apologies while conflicts over ownership of cultural heritage cause friction between China and Korea and no peace treaty has ever been signed to conclude the Korean War For over a decade the region's governments and non government groups have sought to confront the ghosts of the past by developing paths to reconciliation Focusing particularly on popular culture and grassroots action East Asia beyond the History Wars explores these East Asian approaches to historical reconciliation This book examines how Korean historians from North and South exchange ideas about national history how Chinese film makers reframe their views of the war with Japan and how Japanese social activists develop grassroots reconciliation projects with counterparts from Korea and elsewhere As the volume's studies of museums monuments and memorials show East Asian public images of modern history are changing but change is fragile and uncertain This unfinished story of East Asia's search for historical reconciliation has important implications for the study of popular memory worldwide Presenting a fresh perspective on reconciliation which draws on both history and cultural studies this book will be welcomed by students and scholars working in the fields of Asian history Asian culture and society as well as those interested in war and memory studies more generally
