

## MIRROR POEMS

- Love After Love

The time will come  
when, with elation

- A Hint At What Is Beautiful?

Beautiful is the 'thank you'  
Wrapped with gratitude,

- Mirror, Mirror

A young spring-tender girl  
combed her joyous hair

- Beauty Xxv

And a poet said, 'Speak to us of Beauty.'  
Where shall you seek beauty...

- Insomnia

The moon in the bureau mirror  
looks out a million miles

- Fair Play

Mirror mirror on the wall  
Could you please return our ball

- A Lady Who Thinks She Is Thirty

Unwillingly Miranda wakes,  
Feels the sun with terror,

- A Song Of Eternity In Time

Once, at night, in the manor wood  
My Love and I long silent stood,

Acosta-Hughes,2024-06-04 A central much studied feature of the poetry of 3rd cent BCE Alexandria is the artistic treatment of the cultural past the reception of earlier Greek poetry and artwork in the artistic creations of a new Greco Egyptian world

deracinated both geographically and temporally from the heroes and models of Archaic and Classical Greece Benjamin Acosta Hughes has devoted a 30 year professional scholarly career to the study of this reception one of both imitation and variation which took place concurrently with the massive collection and categorization of earlier Greek literature in the work of the scholars gathered under royal patronage at the Ptolemaic court in Alexandria a truly revolutionary new effort of cultural memorialization The poets of this period among them Callimachus Theocritus Apollonius and Posidippus vied in their efforts to compose works that at once celebrated their poetic heritage and at the same time marked their own poetry as original artistic creation and as critical commentary upon their earlier models This collection will be of interest not only for readers of Archaic and Hellenistic poetry but also for readers interested in the later reception of the Alexandrians at Rome

Exemplary Spenser Jane Grogan, 2016-12-05 Exemplary Spenser analyses the didactic poetics of *The Faerie Queene* renewing attention to its avowed attempt to fashion a gentleman or noble person in vertuous and gentle discipline and examining how Spenser mobilises his pedagogic concerns through the reading experience of the poem Grogan's investigation shows how Spenser transacts the public life of the nation heuristically prompting a reflective reading experience that compels engagement with other readers other texts and other political communities Negotiating between competing pedagogical traditions she shows how Spenser's epic challenges the more conservative prevailing impulses of humanist pedagogy to espouse a radical didacticism capable of inventing a more active and responsible reader To this end Grogan examines a wide variety of Spenser's techniques and sources including Philip Sidney's *Defence of Poesy* and the powerful visually couched epistemological paradigms of early modern culture ekphrasis among them Importantly Grogan examines how Spenser's didactic poetics was crucially shaped by readings of the Greek historian Xenophon's *Cyropaedia* a text and influence previously overlooked by critics Grogan concludes by reading the last book of *The Faerie Queene* the Legend of Courtesy as an attempt to reconcile his own didactic sources and poetics with the more recent tastes of his contemporaries for a courtesy theory less concerned with vertuous and gentle discipline Returning to the early modern reading experience Grogan shows the sophisticated intertextual dexterity that goes into reading Spenser where Spenserian pedagogy lies not simply in the textual body of the poem but also in the act of reading it

*The Symbolist Roots of Modern Art* Michelle Facos, 2017-07-05 With the words A new manifestation of art was expected necessary inevitable Jean Mor announced the advent of the Symbolist movement in 1886 When Symbolist artists began experimenting in order to invent new visual languages appropriate for representing modern life in all its complexity they set the stage for innovation in twentieth century art Rejecting what they perceived as the superficial descriptive quality of Impressionism Naturalism and Realism Symbolist artists delved beneath the surface to express feelings ideas scientific processes and universal truths By privileging intangible concepts over perceived realities and by asserting their creative autonomy Symbolist artists broke with the past and paved the way for the heterogeneity and penchant for risk taking that characterizes modern art The essays collected here which

consider artists from France to Russia and Finland to Greece argue persuasively that Symbolist approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild experimentation but rather an inspirational point of departure for twentieth century developments

**Infidel Poetics** Daniel Tiffany,2024-05-31 Poetry has long been regarded as the least accessible of literary genres But how much does the obscurity that confounds readers of a poem differ from say the slang that seduces listeners of hip hop Infidel Poetics examines not only the shared incomprehensibilities of poetry and slang but poetry s genetic relation to the spectacle of underground culture Charting connections between vernacular poetry lyric obscurity and types of social relations networks of darkened streets in preindustrial cities the historical underworld of taverns and clubs the subcultures of the avant garde Daniel Tiffany shows that obscurity in poetry has functioned for hundreds of years as a medium of alternative societies For example he discovers in the submerged tradition of canting poetry and its eccentric genres thieves carols drinking songs beggars chants a genealogy of modern nightlife but also

a visible underworld of social and verbal substance a demimonde for sale Ranging from Anglo Saxon riddles to Emily Dickinson from the icy logos of Parmenides to the monadology of Leibniz from Mother Goose to Mallarm Infidel Poetics offers an exhilarating account of the subversive power of obscurity in word substance and deed *A Common Strangeness* Jacob Edmond,2012-06-01 Why is our world still understood through binary oppositions East and West local and global common and strange that ought to have crumbled with the Berlin Wall What might literary responses to the events that ushered in our era of globalization tell us about the rhetorical and historical underpinnings of these dichotomies In *A Common Strangeness* Jacob Edmond exemplifies a new multilingual and multilateral approach to literary and cultural studies He begins with the entrance of China into multinational capitalism and the appearance of the Parisian fl neur in the writings of a Chinese poet exiled in Auckland New Zealand Moving among poetic examples in Russian Chinese and English he then traces a series of encounters shaped by economic and geopolitical events from the Cultural Revolution perestroika and the June 4 massacre to the collapse of the Soviet Union September 11 and the invasion of Iraq In these encounters Edmond tracks a shared concern with strangeness through which poets contested old binary oppositions as they reemerged in new post Cold War forms
