fictional images British writers of the Romantic period defined and constructed Italy as a land that naturally invites inscription and description In their works Italy is a cultural geography so heavily overwritten with discourse that it becomes the natural recipient of further fictional transformations If critics have frequently attended to this figurative complex and its related Italophilia what seems to have been left relatively unexplored is the fact that these representations were paralleled and sustained by intense scholarly activities This volume specifically addresses Romantic period scholarship about Italian literature history and culture under the interconnected rubrics of translating reviewing and rewriting The essays in this book consider this rich field of scholarly activity in order to redraw its contours and examine its connections with the fictional images of Italy and the general fascination with this land and its civilization that are a crucial component of British culture between the eighteenth and nineteenth centuries

The Englishwoman's Domestic Magazine, 1866 The British Journal of Nursing with which is Incorporated the Nursing Record ..., 1897

Punch Mark Lemon, Henry Mayhew, Tom Taylor, Shirley Brooks, Francis Cowley Burnand, Owen Seaman, 1891

The Englishwoman's domestic magazine. [Imperf. With] Supplemental fashions & needlework [afterw.] Patterns, fashions & needlework [and] Designs for fashions and needlework [Continued as The Illustrated household journal and English- woman's domestic magazine]., *The English Woman in History* Doris Stenton, 2022-03-29 First published in 1957 The English Woman in History displays the place women have held and the influence they have exerted within the changing pattern of English society Ever since the days of Queen Elizabeth I the position of women in English society has been a matter of general debate In the seventeenth century many men produced books in praise of women following the example of Thomas Heywood Most of these books were devoted to the praises of individual women but their authors generally produced arguments against subjection of all women to the unthinking dominance of men While married women were still legally subject to their husbands and no women were allowed to take part

in public affairs it was impossible to write objectively about women's place in the world. The women who at the end of the seventeenth century began to write were generally fired by a sense of injustice and men tended to write condescendingly of charm and beauty which interested them more than intelligence and wit. Now that women are bearing public responsibilities with success it is possible for historians to look back dispassionately over the centuries and trace the stages by which this position has been won. It is a survey of this nature which Lady Stenton has attempted in this book. This is a must read for students and scholars of women's history, gender studies and women's movement. **British National Forestry** David Ernest Hutchins, 1901

Women and Children First Robin Miskolcze, 2007-12-01

At a crucial time in American history narratives of women in command or imperiled at sea contributed to the construction of a national rhetoric. Robin Miskolcze makes her case by way of careful readings of images of women at sea before the Civil War in her book *Women and Children First*. Though the sea has traditionally been interpreted as the province of men, women have gone to sea as mothers, wives, figureheads and slaves. In fact, in the nineteenth century, women at sea contributed to the formation of an ethics of survival that helped to define American ideals. This study examines often for the first time images of women at sea in antebellum narratives ranging from novels and sermons to newspaper accounts and lithographs. Anglo-American women in antebellum sea narratives are often portrayed as models of American ideals derived from women's seemingly innate Christian self-sacrifice. Miskolcze argues that these ideals in conjunction with the maritime directive of women and children first during sea disasters in turn defined a new masculine individualism, one that was morally minded, rooted in Christian principles and dedicated to preserving virtue. Further, Miskolcze contends that without the antebellum sea narratives portraying the Christian self-sacrifice of women, the abolitionist cause would have suffered. African American women appealed to the directive of women and children first to make manifest their own womanhood and by extension their own humanity.
