Reflections on Naturalism José Ignacio Galparsoro,Alberto Cordero,2013-09-04 To naturalists there is no such thing as complete justification for any claim and so requiring complete warrant for naturalist proposals is an unreasonable request The proper guideline for naturalist proposals seems thus clear develop it using the methods of science if this leads to a fruitful stance then explicate and reassess The resulting offer will exhibit virtuous circularity if its explanatory feedback loop involves critical reassessment as the explanations it encompasses play out So viewed naturalism is a philosophical perspective that seeks to unite in a virtuous circle the natural sciences and non foundationalist broadly based empiricism Other common lines of antinaturalist complaint are that naturalization efforts seem fruitful only in some areas also that several endeavors outside the sciences serve as sources of knowledge into human life and the human condition especially in areas where science does not reach terribly far as yet It seems hard not to grant some truth to many allegories from literature art and some religions Naturalism has room for knowledge gathered outside science provided the imported claims satisfy also by naturalistic methods Naturalism and the debate about its scope and limits thrive on discrepancy We hope that collectively the selected essays that follow will give a fair view of the vitality and tribulations of naturalism as a variegated contemporary philosophical perspective **Becoming a Subject** Marcia Cavell,2006-02-23 Marcia Cavell draws on philosophy psychoanalysis and the sciences of the mind in a fascinating and original investigation of human subjectivity A

subject is a creature we may say who recognizes herself as an I taking in the world from her own subjective perspective who is an agent doing things for reasons sometimes self reflective and able to assume responsibility for herself and some of her actions The idea of a subject points then toward an ideal It asks for the conditions under which a human infant becomes a subject and for the sorts of things like self deception and massive anxiety that get in the way What sorts of questions are these Certainly philosophical They burrow into central issues in moral philosophy freedom of the will the self self knowledge the relations between reason and passion between autonomy and self knowledge issues that form roughly the second half of the book They lead also into metaphysics and epistemology Is subjectivity incompatible with objectivity Are subjects not also objects in the real world As such how are they to be treated Would it be possible in theory for a creature to become a subject in the absence of relationships with other subjects But the questions are also practical In particular they are at the heart of psychoanalysis both as a theory of the mind and as a therapy which aims at maximizing the ideals of autonomy and self knowledge implicit in the very idea of a subject One of the guiding premises of *Becoming a Subject* is that philosophical investigation into the specifically human way of being in the world cannot separate itself from investigations of a more empirical sort Cavell brings together for the first time reflections in philosophy findings in neuroscience studies in infant development psychoanalytic theory and clinical vignettes from her own psychoanalytic practice

Reflections on Philosophy Leemon B. McHenry, Takashi Yagisawa, 2003 *Reflections on Philosophy* presents original essays written specifically for introductory students by analytical philosophers which explore important topics and issues in philosophy The essays convey some of the most important concepts and arguments in eleven key topics including logic metaphysics free will and determinism epistemology ethics political philosophy philosophy of religion philosophy of mind and more The goal of each chapter is to teach philosophy by doing philosophy actively engaging students in the process of philosophical thought as they navigate through a brief but carefully designed chain of reasoning to reach a specific philosophical thesis Thought provoking challenging yet accessible to the novice each of these essays introduces students to both important issues in philosophy and the methods and logic of philosophers

Reflections and Perspectives Elmer Daniel Klemke, 1974

The Philosophical I George Yancy, 2002-11-19 Philosophy is shaped by life and life is shaped by philosophy This is reflected in The Philosophical I a collection of 16 autobiographical essays by prominent philosophers Candid and philosophically insightful these personal narratives critically call into question the belief that philosophy should be kept separate from the personal experience of philosophers Each contributor traces the fundamental influences both philosophical and otherwise that have shaped his or her identity In this postmodern world the self is often viewed as irreparably fragmented and fractured but the reflections in this volume point to a self that is a continuous though dynamic storyline What shines through in each of these essays is that philosophy is a profoundly personal adventure

Reflections on Philosophy and Religion Alan Donagan, 1999 This book contains the collected papers of Alan Donagan on topics in the philosophy of religion Donagan was respected as a leading figure in American moral philosophy His untimely death in 1991 prevented him from collecting his philosophical reflections on religion particularly Christianity and its relation to ethics and other concerns This collection therefore constitutes the fullest expression of Donagan's thought on Christianity

and ethics in which it is possible to discern the outlines of a coherent overarching theory Editor Anthony Perovich has supplied a useful introduction which brings Donagan s work into focus and brings out the unifying themes in the essays

The Philosophy of History John William Miller, 1983-02-17 The Philosophy of History with Reflections and Aphorisms consists of essays and some notes written by John William Miller between 1943 and 1974 Criticizing all attempts to interpret history on premises not themselves historical Miller holds that to view history philosophically is to consider it as a constitutional mode of experience a way of organization no less fundamental than physics or logic
