Reflections On The Failure Of Socialism:

Reflections on the Failure of Socialism Max Eastman, 1962 *Up from Communism* John P. Diggins, 1994 This study explains how the radical experience of a generation of writers influenced the cultural and political climate of post World War II USA and provided much of the conservative rationale for the early years of the Cold War The Eisenhower Years Michael S. Mayer, 2009 The 34th U S president to hold office Dwight D Eisenhower won America over with his irresistible I like Ike slogan Bringing to the presidency his prestige as a commanding general during World War II he worked incessantly during his two terms to ease the tensions of the cold war Pursuing the moderate policies of Modern Republicanism he left a legacy of a stronger and more powerful nation From his crucial role in support of Brown v Board of Education to the National Defense Education Act *The Eisenhower Years* provides a well balanced study of these politically charged years Biographical entries on key figures of the Eisenhower era such as Allen W Dulles Joseph R McCarthy and Rosa Parks combine with speeches such as the Military Industrial Complex speech the Open Skies proposal the disturbance at Little Rock address Eisenhower Doctrine and his speech after the Soviet launch of Sputnik to give an in depth look at the executive actions of this administration **The Cold War in the 1950s** Nicolas Lewkowicz, 2024-03-12 The book claims that the United States and the Soviet Union attained the mastery of the international order by projecting universalist values that responded to the particularist markers of the domestic order that was generated in the 1950s The geopolitical orientation adopted by the superpowers in the 1950s was shaped by the way in which their societies developed politically socially and economically in the 1950s The main argument of this book is that the quest for the mastery of the international order that informed superpower relations in the 1950s was guided by the need to respond to the local circumstances that emerged in the United States and the Soviet Union The particularist markers that arose in the 1950s led to the establishment of a geopolitical project underpinned by certain universalist values that could be applied in order to build the superpowers sphere of influence

Political Writings Simone de Beauvoir,2012-06-21 Political Writings offers an abundance of newly translated essays by Simone de Beauvoir that demonstrate a heretofore unknown side of her political philosophy The writings in this volume range from Beauvoir s surprising 1952 defense of the misogynistic eighteenth century pornographer the Marquis de Sade to a co written 1974 documentary film transcribed here for the first time which draws on Beauvoir s analysis of how socioeconomic privilege shapes the biological reality of aging The volume traces nearly three decades of Beauvoir s leftist political engagement from expos s of conditions in fascist Spain and Portugal in 1945 and hard hitting attacks on right wing French intellectuals in the 1950s to the 1962 defense of an Algerian freedom fighter Djamila Boupacha and a 1975 article arguing for what is now called the two state solution in Israel Together these texts prefigure Beauvoir s later feminist activism and provide a new interpretive context for reading her multi volume autobiography while also shedding new light on French intellectual history during the turbulent era of decolonization

America's Destiny: Choosing God's Will or Ours (A Historical & Latter-day Saint Perspective) Tad R. Callister,2023-07-10 America s Destiny sets forth compelling evidence of America s divine origin and destiny that it was a nation founded upon divine providence not coincidence as testified repeatedly by the Founding Fathers respected historians and statesmen This revised edition also adds numerous scriptures and statements from prophets of God attesting to this truth With that

perspective America's Destiny asks the question that should be on all of our minds What is the greatest challenge facing our nation today and how should we confront it in a way that pleases God The economy national security immigration gun control poverty racism crime national pandemics climate change While each of these is a valid concern and deserves attention none of them strikes at the heart of our greatest challenge namely finding a way to build stronger homes and bring about a return to family God and moral values To put our prime focus on challenges other than these is to strike at the leaves not the root of the problem It is now our choice and America's choice to place our trust in the wisdom of God or the wisdom of the world to be a nation under God or without God If we become a nation under God then we become eligible to receive the promise

Non-Design Anthony Fontenot, 2021-07-09 Anthony Fontenot s staggeringly ambitious book uncovers the surprisingly libertarian heart of the most influential British and American architectural and urbanist discourses of the postwar period expressed as a critique of central design and a support of spontaneous order Non Design illuminates the unexpected philosophical common ground between enemies of state support most prominently the economist Friedrich

Hayek and numerous notable postwar architects and urbanists like Robert Venturi Denise Scott Brown Reyner Banham and Jane Jacobs These thinkers espoused a distinctive concept of non design characterized by a rejection of conscious design and an embrace of various phenomenon that emerge without intention or deliberate human guidance This diffuse and complex body of theories discarded many of the cultural presuppositions of the time shunning the traditions of modern design in favor of the wisdom freedom and self organizing capacity of the market Fontenot reveals the little known commonalities between the aesthetic deregulation sought by ostensibly liberal thinkers and Hayek s more controversial conception of state power detailing what this unexplored affinity means for our conceptions of political liberalism Non Design thoroughly recasts conventional views of postwar architecture and urbanism as well as liberal and libertarian philosophies *Business Tides* , A.L.A.
