Rainbow Rights Patricia Cain, 2018-02-20 This book describes the substantive state of the law with regard to lesbian and gay rights It begins with some background information to put the modern fight for lesbian and gay rights in its proper historical context then categorizes lesbian and gay rights claims into three areas individual rights in private contexts individual rights in public contexts and couple or family rights thought of as private but pushing into the public sphere that add up to a single principle the right to be human in a modern society Arguing against the popular misconception that the Lesbian and Gay Rights Movement began with Stonewall in 1969 Patricia Cain shows that the first gay rights organization in the United States was formed in 1924 in Chicago From the Mattachine Society in Los Angeles and the Daughters of Bilitis in San Francisco to the formation of the Society for Individual Rights SIR in 1964 the book examines the ways that these early organizations although different from today's gay rights groups served as important contributions to the modern fight for lesbian and gay legal rights The author looks at how the most important cases of the 1950s and 1960s the political battles over keeping gay and lesbian bars open and the fight by government employees to keep their jobs during the governmental purge of suspected homosexuals along with suspected communists during the McCarthy era have helped to shape the state of the law today By exploring the background key cases and important issues yet to be resolved *Rainbow Rights* translates the legal claims and arguments into accessible language and concepts which will be of interest not only to lawyers and law students but also to

persons not trained in the law **The Heart Has Its Reasons** Michael Cart, Christine A. Jenkins, 2006-03-30 Society does not make it easy for young people regardless of their sexual orientation to find accurate nonjudgmental information about homosexuality. It makes it even more difficult for young homosexuals to find positive role models in fiction either written or published expressly for them or if published for adults relevant to them and their lives. *The Heart Has Its Reasons* examines these issues and critically evaluates the body of literature published for young adults that offers homosexual themes and characters. Cart and Jenkins chart the evolution of the field of YA literature having GLBTQ gay lesbian bisexual transgendered and or queer questioning content. They identify titles that are remarkable either for their excellence or failures, noting the stereotypic wrongheaded and outdated books as well as the accurate thoughtful and tactful titles. Useful criteria for evaluating books with GLBTQ content are provided. Books and resources of all types are reviewed based on a model that uses the category descriptors of Homosexual Visibility, Gay Assimilation and Queer Consciousness Community. An annotated bibliography and a number of author title lists of books discussed in the text arranged by subject round out this valuable reference for teachers, librarians, parents and young adults.

Stars, Cars and Crystal Meth Jack Sutherland, 2016-03-15 Jack Sutherland the narrator and protagonist of this memoir has you might say led a charmed life in the face of seeming damnation. A confirmed alcoholic in his early teens by his twenties he was PA and bodyguard to the Hollywood stars, most notably Michael Stipe, Ru Paul and Mickey Rourke. His work took him to exotic destinations around the world and bizarre encounters and requests. It also led him back to a smorgasbord of lethal addictions: alcohol, marijuana, ecstasy and perhaps most damaging of all, crystal meth and the crazed chem sex that characterises its use. On the shores of death's coastline a nine stone skeleton in a frame that once boasted the shape and tone of a bodybuilder, Jack is saved. By his father, one of the literary world's most esteemed personalities, John Sutherland. A son's memoir told through the prism and prose of a father will surely take its place among the classics of contemporary addiction and recovery stories like *A Portrait of an Addict as a Young Man* and *Another Bullshit Night in Suck City*. *Stars, Cars, Crystal Meth* lifts the lid on the shadow world of the Hollywood PA with grim but ultimately inspiring honesty.

Adolescence in America Jacqueline V. Lerner Ph.D., Richard M. Lerner, Jordan Finkelstein, 2001-06-04 An authoritative broad and practical survey of the social, psychological and physical development of American teenagers. In *Adolescence in America*, more than 100 leading experts from the fields of biology, medicine, behavioral and social science, law, education and the humanities piece together the puzzle of adolescence. In readable, accessible language, they analyze the explosion of research that has reshaped the study of adolescence in the last 30 years and explain how today's leading scientists and practitioners view the challenges of this developmental period. Best of all, they show parents how to apply the latest scientific knowledge such as the 40 developmental assets that predict a child's behavior to their own family situation.

Educational Policies and Youth in the 21st Century Sharon L. Nichols, 2016-07-01 As our student population diversifies rapidly there is a critical need to better understand how national regional and or local policies impact youth in school settings In many cases educational policies constructed with the goal of helping youth often have the unintended consequence of inhibiting youth s potential This is especially the case when it comes to youth from historically underrepresented groups Over and over educational legislation aimed at improving life for youth has had the negative effect of eroding opportunities for our most vulnerable and often times less visible youth The authors of this book examine the schooling experiences of Hispanic African American Indigenous poor and LGBT youth groups as a way to spotlight the marginalizing and shortsighted effects of national education language immigration and school reform policies Leading authors from across the country highlight how educational policies impact youth s development and socialization in school contexts In most cases policies are constructed by adults implemented by adults but are rarely informed by the needs and opinions of youth Not only are youth not consulted but also policymakers often neglect what we know about the psychological emotional and educational health of youth Therefore both the short and long term impact of these policies have but limited effects on improving students school performance or personal health issues such as depression or suicide In highlighting the demographic and cultural shifts of the 21st century this book provides a compelling case for policymakers and their constituents to become more sensitive to the diverse needs of our changing student population and to advocate for policies that better serve them

Sudden Strangers Aaron Fricke, Walter Fricke, 2016-06-14 This is a story about Walter Fricke and Aaron Fricke father and son heterosexual and gay respectively on all counts It has taken six years to complete this book During that time there were periods when it was worked on steadily and times when the material was abandoned as hopeless The book changed as our father son relationship changed and each transformation of the book reflected the transformations in our relationship It is neither the same book nor the same relationship that we started with six years ago This was a book that had to be lived not simply written The final product is the story of an evolving father son relationship a story of two people with different ways of looking at the world and of the hurdles we needed to overcome to respect each other

Lesbian & Gay Youth Caitlin Ryan, Donna Futterman, 1998 Provides guidelines for the care and counseling of lesbian gay bisexual and transgendered youth and features a review of information and research on lesbian and gay health identity development and peer and family issues

Homoplot Esther Saxey, 2008 Homoplot analyses the lesbian gay and bisexual coming out story in fiction and autobiography from the late 1960s to the present day These stories are recognised as an invaluable record of lesbian gay or bisexual life However this book illuminates their equally vital role as active tools in the arduous project of creating gay lesbian and bisexual identities constructing the identities they seem to describe Homoplot shows how a popular twist of the plot or a single common character trait can be a powerful intervention into sexual politics Approaching these texts with the tools of queer criticism the book celebrates their success but also

illuminates their chief problem how the need to create concrete sexual identities has often narrowed the range of queer experiences represented Despite the ongoing popularity of coming out stories this is the first book length study of the genre Homoplot surveys hundreds of examples including in depth readings of authors such as Jeanette Winterson Dorothy Allison Rita Mae Brown Oscar Moore Paul Monette and Aaron Fricke and provides an incisive account of the genre s defining features The book is essential reading for anyone considering queer literature or lesbian gay and bisexual identity in the twentieth century and beyond Researchers and students considering life history and autobiography will also benefit from its analysis of feminist and queer politics
