The Power of Words Glen Peterson, 2011-11-01 This book is a social and political history of the struggle for literacy in rural China from 1949 until 1994 It aims to show how China's revolutionary leaders conceived and promoted literacy in the countryside and how villagers made use of the literacy education and schools they were offered Rather than focusing narrowly on educational issues alone

Peterson examines the larger significance of P R C literacy efforts by situating the literacy movement within the broad context of major themes and issues in the social and political history of post 1949 China Following the recent trend toward regional and local history this book focuses on the linguistically diverse socially complex and politically awkward southeastern coastal province of Guangdong As well Peterson conducted interviews with local officials and teachers in several Guangdong counties in 1988 and 1989 **Sex, Culture, and Modernity in China** Frank Dikötter,1995-01-01 With the disintegration of Confucian cosmology after the fall of the imperial system in China medical science was introduced as an epistemological foundation for social order The construction of sexuality as a dangerous drive which was thought to form the very core of the individual led to the emergence of a wide range of identities like the menstruating girl the hysterical housewife the masturbating adolescent and the syphilitic husband The naturalization of desire also introduced a tension between the sexual responsibilities of the individual and the coercive intervention of civil society in the name of the collective health of future generations Although new categories of analysis such as population race sex woman and youth were introduced to early Republican China from abroad their reception and adaptation were founded on cultural reorientations which may have taken place as long before as the 17th and 18th centuries Instead of describing the rise of normative naturalism as a derivative discourse from the West this book recognizes that the roots of modernizing representations may have had to be sought in a rich and diverse past in China itself The author s analysis is based on medical and lay texts such as handbooks marriage guides and introductions to physiology and sexual hygiene The epilogue demonstrates how the sexual identities invented early this century are still in place in China today **Historical Dictionary of Modern China**

(1800-1949) James Z. Gao,2009-06-16 The Historical Dictionary of Modern China 1800 1949 offers a concise but comprehensive examination of the political military economic social and cultural development of modern China Instead of focusing merely on the political elites of China this reference covers a variety of significant persons including women and ethnic minorities new historical concepts cultural and educational institutions and economic activities Drawing on newly available records including a large mass of governmental and family archives the narratives presented reveal new facts offer a new interpretation in accordance with China s modernization process during the late Qing period and a revisionist perspective on the Republican history The chronology records not only political and military events but also other experiences of the Chinese people The bibliography gives prominence to current literature on China s drive towards modernization and appendixes provide the reader with detailed information on China s cultural and economic transformation

Creating a Chinese Harbin James H. Carter,2019-06-30 James H Carter outlines the birth of Chinese nationalism in an unlikely setting the international city of Harbin Planned and built by Russian railway engineers the city rose quickly from the Manchurian plain changing from a small fishing village to a modern city in less than a generation Russian Chinese Korean Polish Jewish French and British residents filled this multiethnic city on the Sungari River The Chinese took over Harbin after

the October Revolution and ruled it from 1918 until the Japanese founded the puppet state of Manchukuo in 1932 In his account of the radical changes that this unique city experienced over a brief span of time Carter examines the majority Chinese population and its developing Chinese identity in an urban area of fifty languages Originally Carter argues its nascent nationalism defined itself against the foreign presence in the city while using foreign resources to modernize the area Early versions of Chinese nationalism embraced both nation and state By the late 1920s the two strands had separated to such an extent that Chinese police fired on Chinese student protesters This division eased the way for Japanese occupation the Chinese state structure proved a fruitful source of administrative collaboration for the area s new rulers in the 1930s

The Measure of Civilization Ian Morris,2013-01-27 A groundbreaking look at Western and Eastern social development from the end of the ice age to today In the past thirty years there have been fierce debates over how civilizations develop and why the West became so powerful The Measure of Civilization presents a brand new way of investigating these questions and provides new tools for assessing the long term growth of societies Using a groundbreaking numerical index of social development that compares societies in different times and places award winning author Ian Morris sets forth a sweeping examination of Eastern and Western development across 15 000 years since the end of the last ice age He offers surprising conclusions about when and why the West came to dominate the world and fresh perspectives for thinking about the twenty first century Adapting the United Nations approach for measuring human development Morris s index breaks social development into four traits energy capture per capita organization information technology and war making capacity and he uses archaeological historical and current government data to quantify patterns Morris reveals that for 90 percent of the time since the last ice age the world s most advanced region has been at the western end of Eurasia but contrary to what many historians once believed there were roughly 1 200 years from about 550 to 1750 CE when an East Asian region was more advanced Only in the late eighteenth century CE when northwest Europeans tapped into the energy trapped in fossil fuels did the West leap ahead Resolving some of the biggest debates in global history The Measure of Civilization puts forth innovative tools for determining past present and future economic and social trends Guilty of Indigence Janet Y.

Chen,2012-01-24 In the early twentieth century a time of political fragmentation and social upheaval in China poverty became the focus of an anguished national conversation about the future of the country Investigating the lives of the urban poor in China during this critical era Guilty of Indigence examines the solutions implemented by a nation attempting to deal with society s most fundamental problem Interweaving analysis of shifting social viewpoints the evolution of poor relief institutions and the lived experiences of the urban poor Janet Chen explores the development of Chinese attitudes toward urban poverty and of policies intended for its alleviation Chen concentrates on Beijing and Shanghai two of China s most important cities and she considers how various interventions carried a lasting influence The advent of the workhouse the denigration of the nonworking poor as social parasites efforts to police homelessness and vagrancy all had significant impact

on the lives of people struggling to survive Chen provides a crucially needed historical lens for understanding how beliefs about poverty intersected with shattering historical events producing new welfare policies and institutions for the benefit of some but to the detriment of others Drawing on vast archival material Guilty of Indigence deepens the historical perspective on poverty in China and reveals critical lessons about a still pervasive social issue
