Reformation And Revolt In The Low Countries:

Reformation and Revolt in the Low Countries A. C. Duke, 1990-01-01 The Revolt of the Netherlands has long been familiar to English speaking readers but the Reformation there has remained largely uncovered This book explores how the Reformation in the Low Countries developed along very different lines from German Lutheranism Conflicting interests and beliefs as well as the war and political struggle shaped the final religious outcome **Reformation in the Low Countries,**

1500-1620 Christine Kooi, 2022-06-09 This accessible general history places the Reformation in the Low Countries within its broader political and religious context **From Revolt to Riches** Theo Hermans, Reinier Salverda, Ulrich Tiedau, 2017-03-28

This collection investigates the culture and history of the Low Countries in the sixteenth and seventeenth centuries from both international and interdisciplinary perspectives The period was one of extraordinary upheaval and change as the combined impact of Renaissance Reformation and Revolt resulted in the radically new conditions political economic and intellectual of the Dutch Republic in its Golden Age While many aspects of this rich and nuanced era have been studied before the emphasis of this volume is on a series of interactions and interrelations between communities and their varying but often cognate languages between different but overlapping spheres of human activity between culture and history The chapters are written by historians linguists bibliographers art historians and literary scholars based in the Netherlands Belgium Great Britain and the United States In continually crossing disciplinary linguistic and national boundaries while keeping the culture and history of the Low Countries in the Renaissance and Golden Age in focus this book opens up new and often surprising perspectives on a region all the more intriguing for the very complexity of its entanglements **From Revolt to Riches** Theo

Hermans, R. Salverda, 2016 **From Revolt to Riches** Theo Hermans, R. Salverda, 2016 **Dissident Identities in the Early Modern Low Countries** A. C. Dutch Revolt and Catholic Exile in Reformation Europe Geert H. Janssen, 2014-09-08 The Dutch Revolt of the sixteenth century sparked one of the largest refugee crises of Reformation Europe This book explores the flight exile and eventual return of Catholic men and women during the war By mapping the Catholic diaspora across Europe Geert H Janssen explains how exile worked as a catalyst of religious radicalisation and transformed the world views networks and identities of the refugees Like their Protestant counterparts the displaced Catholic communities became the mobilising forces behind a

militant International Catholicism The Catholic exile experience thus facilitated the permanent separation of the northern and southern Netherlands Drawing on diaries letters and evidence from material culture this book offers a penetrating picture of the lives of early modern refugees and their agency in the Counter Reformation **Revolt in the Netherlands** Anton van der Lem,2019-03-15 In 1568 the Seventeen Provinces in the Netherlands rebelled against the absolutist rule of the king of Spain A confederation of duchies counties and lordships the Provinces demanded the right of self determination the freedom of conscience and religion and the right to be represented in government Their long struggle for liberty and the subsequent rise of the Dutch Republic was a decisive episode in world history and an important step on the path to the Universal Declaration of Human Rights And yet it is a period in history we rarely discuss In his compelling retelling of the conflict Anton van der Lem explores the main issues at stake on both sides of the struggle and why it took eighty years to achieve peace He recounts in vivid detail the roles of the key protagonists the decisive battles and the war's major turning points from the Spanish governor's Council of Blood to the Twelve Years Truce while all the time unraveling the shifting political religious and military alliances that would entangle the foreign powers of France Italy and England Featuring striking rarely seen illustrations this is a timely and balanced account of one of the most historically important conflicts of the early modern period **The Jews and the Reformation** Kenneth Austin,2020-07-14 The first comprehensive account of Protestant and Catholic attitudes toward Jews and Judaism in the European Reformation In this rich wide ranging and meticulously researched account Kenneth Austin examines the attitudes of various Christian groups in the Protestant and Catholic Reformations towards Jews the Hebrew language and Jewish learning Martin Luther's writings are notorious but Reformation attitudes were much more varied and nuanced than these might lead us to believe This book has much to tell us about the Reformation and its priorities and has important implications for how we think about religious pluralism more broadly *Reformations Compared* Henry A. Jefferies,Richard Rex,2024-03-21 Offers comparative perspectives and fresh insights into the unfolding of the Reformation across the whole of Europe *The Moment of Death in Early Modern Europe, c. 1450-1800* Benedikt Brunner,Martin Christ,2024-05-06 Both in our time and in the past death was one of the most important aspects of anyone's life The early modern period saw drastic changes in rites of death burials and commemoration One particularly fruitful avenue of research is not to focus on death in general but the moment of death specifically This volume investigates this transitional moment between life and death In many cases this was a death on a deathbed but it also included the scaffold battlefield or death in the streets Contributors Friedrich J Becher Benedikt Brunner Isabel Casteels Martin Christ Louise Deschryver Irene Dingel Micha l Green Vanessa Harding Sigrun Haude Vera Henkelmann Imke Lichterfeld Erik Seeman Elizabeth Tingle and Hillard von Thiessen **The Origins and Development of the Dutch Revolt** Graham Darby,2001 Bringing together the latest scholarship and research from leading experts in the field this study examines the Dutch revolt against Spanish rule in the sixteenth century [The Council of Trent: Reform and Controversy in](#)

Europe and Beyond (1545-1700) Wim François, Violet Soen, Christopher B. Brown, Günter Frank, Bruce Gordon, Barbara Mahlmann-Bauer, Tarald Rasmussen, Zsombor Tóth, Günther Wassilowsky, Siegrid Westphal, 2018-09-10 Exactly 450 years after the solemn closure of the Council of Trent on 4 December 1563 scholars from diverse regional disciplinary and confessional backgrounds convened in Leuven to reflect upon the impact of this Council not only in Europe but also beyond. Their conclusions are to be found in these three impressive volumes. Bridging different generations of scholarship the authors reassess in a first volume Tridentine views on the Bible, theology and liturgy as well as their reception by Protestants deconstructing many myths surviving in scholarship and society alike. They also deal with the mechanisms Rome developed to hold a grip on the Council's implementation. The second volume analyzes the changes in local ecclesiastical life initiated by bishops' orders and congregations and the political strife and confessionalisation accompanying this reform process. The third and final volume examines the afterlife of Trent in arts and music as well as in the global impact of Trent through missions.

Shaping the Stranger Churches Silke Muylaert, 2020-10-20 In *Shaping the Stranger Churches: Migrants in England and the Troubles in the Netherlands 1547-1585* Silke Muylaert explores the struggles confronting the Netherlandish churches in England when they engaged with or disengaged from the Reformation and the Revolt back in their homeland. The churches were conflicted over the limits of religious zeal and over political loyalty. How far could Reformers go to promote their faith without committing sin? How much loyalty did they owe to Philip II and William of Orange? While previous narratives ascribe a certain radicalism to the foreign churches, Muylaert uncovers the difficulties confronting expatriate churches to provide support for Reformed churches or organise resistance against authorities back home. *A Miracle Mirrored* C. A. Davids, Jan Lucassen, 1995 A 1996 comparative study of the Netherlands from the late sixteenth to the mid nineteenth century.

Between the Middle Ages and Modernity Charles H. Parker, Jerry H. Bentley, 2007 This groundbreaking book examines the complex relationships between individuals and communities in the profound transitions of the early modern period. Taking a global and comparative approach to historical issues the distinguished contributors show that individual and communal *The Oxford Handbook of the Protestant Reformations* Ulinka Rublack, 2017 This Handbook takes a broad overview of the Protestant Reformations seeing them as movements which stretched far beyond their European beginnings. Written by a team of international scholars of history and theology the contributions offer up to date perspectives on Reformation ideas and the lasting historical impact of Protestantism. *Dissident Identities in the Early Modern Low Countries* Alastair Duke, Andrew Spicer, 2016-12-05 Alastair Duke has long been recognized as one of the leading scholars of the early modern Netherlands known internationally for his important work on the impact of religious change on political events which was the focus of his *Reformation and Revolt in the Low Countries* 1990. Bringing together an updated selection of his previously published essays together with one entirely new chapter and two that appear in English here for the first time this volume explores the emergence of new political and religious identities in the early modern Netherlands. Firstly it

analyses the emergence of a common identity amongst the amorphous collection of states in north western Europe that were united first under the rule of the Valois Dukes of Burgundy and later the Habsburg princes and traces the fortunes of this notion during the political and religious conflicts that divided the Low Countries during the second half of the sixteenth century A second group of essays considers the emergence of dissidence and opposition to the regime and explores how this was expressed and disseminated through popular culture Finally the volume shows how in the age of confessionalisation and civil war challenging issues of identity presented themselves to both dissenting groups and individuals Taken together these essays demonstrate how these dissident identities shaped and contributed to the development of the Netherlands during the early modern period The Monument's End Marisa Anne Bass, 2024-10-15 An examination of monument making in the Dutch Republic during the early modern period during which this form first manifested and flourished
