Reformed Faith And Economics:

Reformed Faith and Economics Robert L. Stivers, 1989 Churches in the Reformed tradition have historically sought to bring the gospel of Jesus Christ into dialogue with social institutions on ethical issues These papers on economic justice seek to bring this dialogue into the late 20th century by relating the Bible and Reformed theology to contemporary problems These thirteen essays share a distinctly Reformed Presbyterian perspective and stress the contributions of John Calvin and a long line of Reformed witnesses on contemporary issues Sections include Introduction Reformed Faith and Economic Justice Part I Biblical Perspectives Part II The Reformed Tradition on Economic Justice Part III Contemporary Policy Issues Part IV Church Responses Co published with the Presbyterian Church USA Economic Shalom John Bolt, 2013-11-01 This Reformed Christian primer on work and faith champions the glory of God in all of life's endeavors by tracing four key themes of economics in Christian confession and commitment and examining markers for human flourishing in the real world of economics commerce and markets With scholarly passion and pastoral wisdom tempered by the insight of economists John Bolt presents a winsome case for how God uses the market economy to meet human needs Written to raise questions and invite further discussion Bolt offers a robust Reformed perspective on stewardship property capital and morality From this he explores a variety of issues including the human need for liberty the challenge of consumerism concerns about fairness and justice and evangelicalism's mixed history in applying Christian compassion in politics and economics What stands in the way of the human quest for improvement How does the reality of sin affect the degree to which we can achieve economic shalom today And despite every good intention how do we avoid the horrific track record of failed utopias that have spilled oceans of blood and created mountains of misery Read learn and respond as Bolt leads a rousing Reformed discussion of faith work and economics *The Oxford Handbook of Christianity and Economics* Paul Oslington, 2014 The new interdisciplinary field of Christianity and economics deals with the important and difficult questions that cluster at the boundary of these disciplines drawing on contemporary theory and empirical findings in both fields with roots in older discourses This landmark volume surveys the field and advances the discussion It deploys historical economic and theological analysis to search for answers *Anabaptist/Mennonite Faith and Economics* Calvin Wall Redekop, Victor A. Krahm, Samuel J. Steiner, 1994 The continuing conflict between the Anabaptist Mennonite community and the expanding industrial culture of the modern world has not been investigated This book addresses the issues which fuel that conflict focusing on the implications of subordinating an economic system to the theological framework of a Christian society Contributors Gregory Baum Lawrence J Burkholder Leo Driedger Kevin Enns Rempel Norm Ewert Jim Halteman Leland Harder Al Hecht Jim Lichti Jacob A Leowen John Peters Cal Redekop Walter Regehr T D Regehr Jean Seguy Robert Siemens Arnold Snyder Willis Sommer Mary Sprunger and Laura Weaver Co published with the Institute of Anabaptist and Mennonite Studies *Economics, Ethics and Religion* R. Wilson, 1997-02-24 There is a revival of interest by economists in ethical issues and beliefs and by moral philosophers and

theologians in economics This book is intended to make a contribution to this cross fertilisation of ideas Rodney Wilson has undertaken an extensive survey of Jewish Christian and Muslim views on economics and reviewed the rapidly expanding business ethics literature from a religious perspective The juxtaposition of the work of theologians and moral philosophers with that of economists results in some interesting comparisons *The Market Economy and Christian Ethics* Peter H. Sedgwick, 1999-10-07 Peter Sedgwick explores the relation of a theology of justice to that of human identity in the context of the market economy and engages with critics of capitalism and the market He examines three aspects of the market economy first how does it shape personal identity through consumption and the experience of paid employment in relation to the work ethic Second what impact does the global economy have on local cultures Finally as manufacturing changes out of all recognition through the impact of technology and global competition what is the effect in terms of poverty Drawing on the response of the Catholic Church both in the United States and in papal encyclicals to the market economy from 1985 1991 Sedgwick argues that its involvement deserves to be better known Moreover he recommends that the Churches remain part of the debate in reforming and humanizing the market economy **Religious Ethics in the Market Economy** Karl G. Jechoutek, 2018-04-03 This book aims to go beyond merely confrontational or complementary treatments of the relationship between market participation and business ethics Reviewing the attitudes towards the market embedded in religious ethics and scholars it explores the symbiotic relationship between the economy ethics and morals Moving the discussion beyond a static and traditional economy envisaged by scripture it explores the impact of an evolving and globalised economy based on the value systems of moral philosophy and religious ethics The Author aims to expand the conventional view of business ethics encouraging readers to interpret markets and morality as intertwined concepts and use them to inform further research *Peasants, Prophets, and Political Economy* Marvin L. Chaney, 2017-10-12 Contents 1 Ancient Palestinian Peasant Movements and the Formation of Premonarchic Israel 2 Joshua 3 Coveting Your Neighbor's House in Social Context 4 Systemic Study of the Israelite Monarchy 5 Debt Easement in Israelite History and Tradition 6 The Political Economy of Peasant Poverty 7 Bitter Bounty The Dynamics of Political Economy Critiqued by the Eighth Century Prophets 8 Whose Sour Grapes The Addressees of Isaiah 5 1 7 9 Accusing Whom of What Hosea's Rhetoric of Promiscuity 10 Producing Peasant Poverty Debt Instruments in Amos 2 6b 8 13 16 11 Micah Models Matter Political Economy and Micah 6 9 15 12 Review of Roland Boer The Sacred Economy Christianity and Ecological Theology E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa Theories of Social and Economic Justice André Johannes Van der Walt, 2005-08-01 The bulk of the contributions in this publication originated in a research project initiated by the

Stellenbosch Institute for Advanced Study STIAS in 2002 The book is based on the idea that the attainment of greater social and economic justice specifically in the South African context is strongly influenced by the implications and the coherence of various theories of social and economic justice *The Sacred Economy of Ancient Israel* Roland Boer,2015-04-20 The Sacred Economy of Ancient Israel offers a new reconstruction of the economic context of the Bible and of ancient Israel It argues that the key to ancient economies is with those who worked on the land rather than in intermittent and relatively weak kingdoms and empires Drawing on sophisticated economic theory especially the Regulation School and textual and archaeological resources Roland Boer makes it clear that economic crisis was the norm and that economics is always socially determined He examines three economic layers the building blocks five institutional forms periods of relative stability three regimes and the overarching mode of production Ultimately the most resilient of all the regimes was subsistence survival for which the regular collapse of kingdoms and empires was a blessing rather than a curse Students will come away with a clear understanding of the dynamics of the economy of ancient Israel Boer's volume should become a new benchmark for future studies **Vision and Prophecy** ,1991 **Essays in Public Theology** Dirkie Smit,2007-04-01 What is the role of the church in society What role did the church play in South Africa during apartheid in the struggle against apartheid and during the period of transformation The essays collected and published in this volume deal with questions such as these They are all occasional pieces They were written over two decades and reflect the times in which they originated always intended for specific audiences always addressing issues of the particular moment **Economics and Empire in the Ancient Near East** Matthew J. M. Coomber,2023-02-28 Over the past few decades biblical economics has developed into an important subfield of biblical studies Through examining the economic realities that lay behind Hebrew biblical texts and archaeological findings biblical economics has led to greater understandings of the cultures and experiences of ancient Hebrew communities the legal and religious texts they produced and of how those texts may or may not relate to the experiences of communities who continue to receive them today Economics and Empire in the Ancient Near East has brought together ten scholars of biblical economics and one economic anthropologist to create a repository of what is understood about the economic realities of Southwest Asia in the late second and first millennia BCE In addition to furthering the research and teaching interests of biblical scholars this volume has also been created for the benefit of economic historians anthropologists and sociologists **Religion and Economics: Normative Social Theory** J.M. Dean,A. M. C. Waterman,1999 To follow up the 1994 Economics and Religion Are They Distinct which explored how the two systems of thought could be harmonized within normative social theory a number of case studies were conducted and the reports and sent as a group to a second group of authors These commentators composed interpretive essays to address whether the attempts to combine into a normative social theory the putative insights of theology with the putative scientific knowledge supplied by economics are intellectually defensible and or actually fruitful The volume contains both the case studies and the

Free Trade and Faithful Globalization Amy Reynolds,2015 Through an analysis of Christian communities in the United States Canada and Costa Rica this book analyzes how religious groups talk about the politics surrounding economic life Amy Reynolds examines how these Christian organizations speak about trade and the economy as moral and value laden spaces deserving ethical reflection and requiring political action She reveals the ways in which religious communities have asked people to engage in new approaches to thinking about the market and how they have worked to create alternative networks and policies governing economic and social life

Social Movements and World-System Transformation Jackie Smith,MICHAEL GOODHART,Patrick Manning,John Markoff,2016-10-26 At a particularly urgent world historical moment this volume brings together some of the leading researchers of social movements and global social change and other emerging scholars and practitioners to advance new thinking about social movements and global transformation Social movements around the world today are responding to crisis by defying both political and epistemological borders offering alternatives to the global capitalist order that are imperceptible through the modernist lens Informed by a world historical perspective contributors explain today s struggles as building upon the experiences of the past while also coming together globally in ways that are inspiring innovation and consolidating new thinking about what a fundamentally different more equitable just

and sustainable world order might look like This collection offers new insights into contemporary movements for global justice challenging readers to appreciate how modernist thinking both colors our own observations and complicates the work of activists seeking to resolve inequities and contradictions that are deeply embedded in Western cultural traditions and institutions Contributors consider today's movements in the longue dur e that is they ask how Occupy Wall Street the Arab Spring and other contemporary struggles for liberation reflect build upon or diverge from anti colonial and other emancipatory struggles of the past Critical to this volume is its exploration of how divisions over gender equity and diversity of national cultures and class have impacted what are increasingly intersectional global movements The contributions of feminist and indigenous movements come to the fore in this collective exploration of what the movements of yesterday and today can contribute to our ongoing effort to understand the dynamics of global transformation in order to help advance a more equitable just and ecologically sustainable world
