Reframing Public Policy Discursive Politics And Deliberative Practices:

Reframing Public Policy Frank Fischer, 2003 In recent years a set of radical new approaches to public policy has been developing. These approaches drawing on discursive analysis and participatory deliberative practices have come to challenge the dominant technocratic empiricist models in policy analysis. In his major new book Frank Fischer brings together this new work for the first time and critically examines it. In an accessible way he describes the theoretical, methodological and political requirements and implications of the new post empiricist approach to public policy. The volume includes a discussion of the social construction of policy problems, the role of interpretation and narrative analysis in policy inquiry, the dialectics of policy argumentation and the uses of participatory policy analysis. The book will be required reading for anyone studying, researching or formulating public policy.

Reframing Public Policy Frank Fischer, 2003 The Oxford Handbook of Public Policy Michael Moran, Martin Rein, Robert E. Goodin, 2008-06-13 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science. Each volume focuses on a particular part of the discipline with volumes on Public Policy, Political Theory, Political Economy, Contextual Political Analysis, Comparative Politics, International Relations, Law and Politics, Political Behavior, Political Institutions and Political Methodology. The project as a whole is under the General Editorship of Robert E. Goodin with each volume being edited by a distinguished international group of specialists in their respective fields. The books set out not just to report on the discipline but to shape it. The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines. Public policy is the business end of political science. It is where theory meets practice in the pursuit of the public good. Political scientists approach public policy in myriad ways. Some approach the policy process descriptively asking how the need for public intervention comes to be perceived, a policy response formulated, enacted, implemented and all too often subverted, perverted, altered or abandoned. Others approach public policy more prescriptively offering politically informed suggestions for how normatively valued goals can and should be pursued either through particular policies or through alternative processes for making policy. Some offer their advice from the Olympian heights of detached academic observers, others as engaged scholars cum advocates while still others seek to instill more reflective attitudes among policy practitioners themselves toward their own practices. The Oxford Handbook of Public Policy mines all these traditions using an innovative structure that responds to the very latest scholarship. Its chapters touch upon institutional and historical sources and analytical methods, how policy is made, how it is evaluated and how it is constrained. In these ways the Handbook shows how the combined wisdom of political science as a whole can be brought to bear on political attempts to improve the human condition.

Feminist Strategies in International Governance Gülay Caglar, Elisabeth Prügl, Susanne Zwingel, 2013-01-03 The struggle for women's rights and to overcome gender oppression has long engaged the efforts of inter governmental and non governmental organizations. *Feminist Strategies in International Governance*

provides a new introduction to the contemporary forms of this struggle It brings together the voices of academics and practitioners to reflect in particular on the effectiveness of human rights strategies and gender mainstreaming It covers three international issue areas in which feminists currently seek change women s human rights and violence against women the participation of women in peace making and their protection during conflict and the gendered effects of development economic and financial governance The book combines a critical reflection on the current state of feminist politics with an introduction to urgent issues on the contemporary international agenda In addition the book draws on innovative conceptualizations from constructivism in international relations legal anthropology and discourse theory to provide new framings of current feminist struggles Offering an accessible guide to the engendering of international governance and examining the challenges for international feminist politics in the future this work will be of great interest to students and scholars of international organizations gender politics and global governance

The Ashgate Research Companion to Planning Theory Patsy Healey, 2016-11-03 At a time of potentially radical changes in the ways in which humans interact with their environments through financial environmental and or social crises the raison d'être of spatial planning faces significant conceptual and empirical challenges This Companion presents a multidimensional collection of critical narratives of conceptual challenges for spatial planning The authors draw on various disciplinary traditions and theoretical frames to explore different ways of conceptualising spatial planning and the challenges it faces Through problematising planning itself the values which underpin planning and theory practice relations contributions make visible the limits of established planning theories and illustrate how by thinking about new issues or about issues in new ways spatial planning might be advanced both theoretically and practically There cannot be definitive answers to the conceptual challenges posed but the authors in this collection provoke critical questions and debates over important issues for spatial planning and its future A key question is not so much what planning theory is but what might planning theory do in times of uncertainty and complexity An underlying rationale is that planning theory and practice are intrinsically connected The Companion is presented in three linked parts issues which arise from an interactive understanding of the relations between planning ideas and the political institutional contexts in which such ideas are put to work key concepts in current theorising from mainly poststructuralist perspectives and what discussion on complexity may offer planning theory and practice

Emotional States Eleanor Jupp, Jessica Pykett, Fiona M. Smith, 2016-10-14 What is the political allure value and currency of emotions within contemporary cultures of governance What does it mean to govern more humanely Since the emergence of an emotional turn in human geography over the last decade the notion that our emotions matter in understanding an array

of social practices spatial formations and aspects of everyday life is no longer seen as controversial This book brings recent developments in emotional geography into dialogue with social policy concerns and contemporary issues of governance It sets the intellectual scene for research into the geographical dimensions of the emotionalized states of the citizen policy maker and public service worker and highlights new research on the emotional forms of governance which now characterise public life An international range of empirical field studies are used to examine issues of regulation modification governance and potential manipulation of emotional affects professional and personal identities and political technologies Contributors provide analysis of the role of emotional entanglements in policy strategy policy implementation service delivery citizenship and participation as well as considering the emotional nature of the research process itself It will be of interest to researchers and students within social policy human geography politics and related disciplines

How Government Experts Self-Sabotage Christiane Gerblinger, 2022-12-08 After official policy advice to governments is publicly released governments are often accused of ignoring or rejecting their experts Commonly represented as politicisation this depiction is superficial Digging deeper is there something about the official advice itself that makes it easy to ignore Instead of lamenting a demise of expertise Christiane Gerblinger asks does the expert advice of policy officials feature characteristics that invite its government audience to overlook or misread it To answer this question Gerblinger critically examines official policy advice and finds the language of the rebuffed government experts reluctant to disclose what they know so as to accommodate political circumstances She argues that this language evades stable meaning and diminishes the democratic right of citizens to scrutinise the work of government

Art and the City Jason Luger, Julie Ren, 2017-05-18 Artistic practices have long been disturbing the relationships between art and space They have challenged the boundaries of performer spectator of public private introduced intervention and installation ephemerality and performance and constantly sought out new modes of distressing expectations about what is construed as art But when we expand the world in which we look at art how does this change our understanding of critical artistic practice This book presents a global perspective on the relationship between art and the city International and leading scholars and artists themselves present critical theory and practice of contemporary art as a politicised force It extends thinking on contemporary arts practices in the urban and political context of protest and social resilience and offers the prism of a critical artscape in which to view the urgent interaction of arts and the urban politic The global appeal of the book is established through the general topic as well as the specific chapters which are geographically socially politically and professionally varied Contributing authors come from many different institutional and anti institutional perspectives from across the world This will be valuable reading for those interested in cultural geography urban geography and urban culture as well as contemporary art theorists practitioners and policymakers
