God Is Back John Micklethwait, Adrian Wooldridge, 2009-04-02 A landmark examination of the resurgence of faith around the globe The Editor in Chief of The Economist and its Lexington columnist show how the global rise of religion will dramatically impact our century in God Is Back Contrary to the popular assumption that modernism would lead to the rejection of faith American style evangelism has

sparked a global revival On the street and in the corridors of power the authors shine a bright light on a vast yet until now hidden world of religion Twenty first century faith is being fueled by a very American emphasis on competition and a customer driven attitude toward salvation Revealing how the religion boom is destabilizing politics and the global economy God Is Back concludes by showing how the same American ideas that created our unique religious style can be applied to channel the rising tide of faith away from volatility and violence **Books Out Loud** ,2007 MotorBoating ,1971-11
