## **Regarding Children A New Respect For Childhood And Families:**

**Regarding Children** Herbert Anderson, Susan B. W. Johnson, 1994-01-01 Discusses child rearing identifies children's needs and outlines the support church and society should provide *The Child in American Evangelicalism and the Problem of Affluence* David A. Sims, 2009-06-01 This work presents an evangelical theology of the child nurtured in the context of American evangelicalism and affluence. It employs an eclectic theological critical method to produce a theological anthropology of the affluent American evangelical child (AAEC) through interdisciplinary evangelical engagement of American history, sociology, and economics. Sims articulates how affluence constitutes a significant impediment to the evangelical nurture of the AAEC in the discipline and instruction of the Lord. Thus the problem he addresses is nurture in evangelical affluence conceived as a theological anthropological problem. Nurture in the cultural matrices of the evangelical affluence generated by technological consumer capitalism in the U.S. impedes spiritual and moral formation of the AAEC for discipleship in the way of the cross. This impediment risks disciplinary formation of the AAEC for capitalist culture, cultivates delusional belief that life consists in an abundance of possessions, and hinders the practice of evangelical liberation of the poor on humanity's underside. The result is the AAEC's spiritual/moral lack in late modernity. Chapter 1 introduces the problem of the AAEC. Chapters 2 and 3 provide a diachronic lens for the theological anthropology of the AAEC through critical assessment of the theological anthropologies of the child in Jonathan Edwards, Horace Bushnell, and Lawrence Richards. Chapters 4 and 5 constitute the synchronic perspective of the AAEC. Chapter 4 presents an evangelical sociology of the AAEC drawing upon William Corsaro's theory of interpretive reproductions, and chapter 5 constructs an evangelical theology of the AAEC through critical interaction with John Schneider's moral theology of affluence. Chapter 6, "Whither the AAEC," concludes with a recapitulation of the work and a forecast of possible futures for the AAEC in the twenty-first century. *Children and Childhood in American Religions* Don S. Browning, Bonnie J. Miller-McLemore, 2009-02-16 Whether First Communion or bar mitzvah, religious traditions play a central role in the lives of many American children. In this collection of essays, leading scholars reveal for the first time how various religions interpret, reconstruct, and mediate their traditions to help guide children and their parents in navigating the opportunities and challenges of American life. The book examines ten religions among other topics: How the Catholic Church confronts the tension between its teachings about children and actual practice; The Oglala Lakota's struggle to preserve their spiritual tradition; The impact of modernity on Hinduism. Only by discussing the unique challenges faced by all religions and their followers can we take the first step toward a greater understanding for all of us. **Theologies of Childhood and the Children of Africa** Jan Grobbelaar, Gert Breed, Alfred Brunsdon, Marcia J.
