Philip Roth and the Body Joshua Lander, 2024-11-14 To what extent can the leaky porous bodies in Philip Roth's fiction be read as symbols of resistance against anti-Semitism white supremacy and racism Philip Roth and the Body questions the symbolic functionality of the corporeal in Roth's main works of fiction particularly as sites of gender and racial identification for Roth's protagonists In his recurrent employment of the abject Roth throws into doubt the body as a coherent stable entity undermining his male characters' determinations of gendered and racial otherness through his porously unstable bodies Joshua Lander draws on the work of Zygmunt Bauman and his theory of the conceptual Jew to argue that Roth's fiction is yoked together by a shared interest in how anti-Semitic stereotypes of Jewish difference centered around the body pervasively inform American Jewish identities The book also contends that Roth resists American white nationalism by transforming the body's ejaculations excretions secretions and expulsions into symbols of difference that he repeatedly ties to Jewishness At the same time this study highlights how Roth's novels through his focus on Jewish men risk the reification of America's sexist social structures as they intersect with the very racism Roth seeks to undermine Philip Roth and the Body's examination of how bodies in Roth's fiction are entities troubled within his prose renews conversations about whose bodies matter both in Roth studies and in the context of America's racial and social politics

Khader, 2011-11-01 Thinking with Irigaray takes up Irigaray s challenge to think beyond the androcentric one subject culture identifying much that is useful and illuminative in Irigaray s work while also questioning some of her assumptions and claims Some contributors reject outright her prescriptions for changing our culture others suggest that her prescriptions are inconsistent with the basic ethical concerns of her project and still others attempt to identify blind spots in her work By confronting and challenging the mechanisms of masculine domination Irigaray has identified and applying these insights to a wide range of practical and contemporary concerns including popular media representations of women s sexuality feminist practice in the arts political resistance and yoga the contributors demonstrate the unique potential of Irigaray s thought within feminist philosophy and gender studies **Sarah**

Kofman's Corpus , 2008 Draws connections between the life and writings of philosopher Sarah Kofman **Heidegger and the Global Age** Antonio Cerella, Louiza Odysseos, 2017-10-18 Globalization is one of the most contested and abused concepts of our time Whether one interprets it as a collective illusion or as the final stage of capitalism as uncontrollable multitude or as a radical opening of new spaces of freedom the global age represents the conceptual and existential background of our being in the world But what lies behind this process What mode of human existence is brought about by the age of technology and global mobilization And is it possible to attempt a unitary interpretation of this age that presents itself as both total and pluralistic This volume rethinks these epochal questions in light of Martin Heidegger s complex hermeneutics proposing at the same time that such questions enable the interrogation of some of its most fundamental aspects the metanarrative of Seinsgeschichte as withdrawal of Being the structure of human existence within the frame of technology the relation between humanism and nihilism as well as politics and technology the changing character of subjectivity in the age of the world picture the mythopoeic force of art and the uprooting of human beings As this volume shows interrogating Heidegger s thought has significant potential for both International Political Theory and also the analysis of specific concepts and dynamics in contemporary international studies such as the changing character of spatiality temporality and subjectivity **Textual Layering** Apostolos Lampropoulos, Maria Margaroni, Christakis

Chatzichristou, 2017-02-27 Textual Layering Contact Historicity Critique sets out to rethink our relation to textual tradition

against the background of several contemporary developments including the emergence of digital culture the increasing spectacularization of psychic as well as social life the renegotiation of historical thinking and the precarious position of the theoretical humanities within academia To this end the volume re invests the concept of layering a concept currently used in a wide range of fields including metaphor studies and linguistics cybernetics the social sciences art and architecture Drawing on existing definitions of layering the chapters in this book return to and re appraise some of the most crucial concerns in the post 1960s theoretical scene that is concerns over the strained interplay between writing and the body textuality and history critique difference and the feminine memory trace and the immemorial The aim of the diverse often polemical analyses carried out in this volume is to reactivate the critical force of textual tradition today through a renewed appreciation of its historical embeddedness its libidinal sources as well as its complex economy of separation and contact diachronicity and synchronicity re layering and de layering This collection will be of interest to scholars of continental philosophy literary theory gender studies architecture film and visual culture studies psychoanalysis postmodernism post colonial studies and political and social theory Intermedialities Henk Oosterling, Ewa Plonowska Ziarek, 2012-07-10 Bringing together an international and interdisciplinary group of scholars *Intermedialities* Philosophy Arts Politics is a comprehensive collection devoted to the new field of research called intermedialities The concept of intermedialities stresses the necessity of situating philosophical and political debates on social relations in the divergent contexts of media theories avant garde artistic practices continental philosophy feminism and political theory The intermedial approach to social relations does not focus on the shared identity but instead on the epistemological ethical and political status of inter being in between At stake here are the political analyses of new modes of being in common that transcend national boundaries the critique of the new forms of domination that accompany them and the search for new emancipatory possibilities Opening a new approach to social relations intermedialities investigates not only engagements between already constituted positions but even more the interval antagonism and differences that form and decenter these positions Consequently in opposition to the resurgence of cultural and ethnic particularisms and to the leveling of difference produced by globalization the political and ethical analysis of the in between enables a conception of community based on difference exposure and interaction with others rather than on an identification with a shared identity Investigations of in betweenness both as medium specific and between heterogeneous sites of inquiry range here from philosophical conceptuality to artistic practices from the political circulation of money and power to the operation of new technologies They inevitably invoke the crucial role of embodiment in creative thought and collective acting As a mediating instance between the psyche and society matter and spirit nature and culture and biology and technology the body is another interval forming and informed by socio linguistic relations As these come
