throws light on ideologies practices and sociocultural developments currently shaping language use in Japan by departing
from the more common investigation of language in private contexts and examining aspects of the language found in a range
of significant public spaces from the material an international airport the streets of Tokyo the JSL classroom in Japan and
courtrooms to the electronic television dramas local government web pages and cyberspace Through its study of the
language encountered in such settings the volume provides a deeper understanding of multifaceted aspects of linguistic
diversity both in terms of the use of languages other than Japanese and of issues relating to the Japanese language itself The

expressions and prosodic shifting This careful and detailed examination advances our understanding of the complex
