Wood explores the entanglements of race settler colonialism and the emergence of state and regional identity in the American West during the nineteenth and twentieth centuries By producing conditions of social cultural and economic precarity that undermined Black Montanans networks of kinship community and financial security the state of Montana in its capacity as a settler colony worked to exclude the Black community that began to form inside its borders after Reconstruction Black Montana depicts the history of Montana s Black community from 1877 until the 1930s a period in

western American history that represents a significant moment and unique geography in the life of the U S settler colonial project
