contained in Buffy's book. My writing contains hundreds of new finding sentences. We know these as long standing wise sayings like He Who Lives by the Sword Will Die by the Sword. A few years after I met Buffy from the day when she told me that some wise Aliens had abducted her and her friends I ran into Buffy again. When I questioned her she said her report from those days was junk. She said You know how we were in those days. George Her report wasn't junk to me and I had to have it back. Buffy didn't even know where her original report book was. On this very occasion I made a vow to God and I started getting finding sentences immediately. These are transcribed all throughout my writing. God always wins. In ENOS we learn that humanity is a part of God and part of some advanced Alien life form intelligence that came to the earth about 200 000 years ago. I am talking about the giants we read about in our basic Christian Bible in Genesis. This situation of a foreign intelligence cannot last long and when it is over only a Godly being will remain that suits this earth perfectly for a very long time. This foreign intelligence is humanity. Enos is about God in the universe. Enos teaches us how to live freely for a million years. Enos is a new American style mindset. American lingo about the wisdom that all natural creatures have known through the eons. The Aliens themselves in Enos are an amazing perfectly natural life form that has survived a long time in evolution to become who they are now who they want to be. My book has to be known as a religion. This bold statement goes along with the process by which I have been able to write this book out at all. Enos is also an overly long diatribe of rhetorical writing that many will not like and some will be completely enthralled by. It can also be looked upon as being a book of poetry. Enos has about 50 poems in it a few long poems and many short ones and many passages that are poetic like The Aliens in my report say that this entire writing is a prolonged poem.

The Acquisition of Direct Object Scrambling and Clitic Placement
 Jeannette C. Schaeffer, 2000-01-01 This book offers a new contribution to the debate concerning the real time acquisition of grammar in First Language Acquisition Theory. It combines detailed and quantitative observations of object placement in Dutch and Italian child language with an analysis that makes use of the Modularity Hypothesis. Real time development is explained by the interaction between two different modules of language namely syntax and pragmatics. Children need to build up knowledge of how the world works which includes learning that in communicating with someone else one must realize that speaker and hearer knowledge are always independent. Since the syntactic feature referentiality can only be marked if this pragmatic distinction is made and assuming that certain types of object placement such as scrambling and clitic placement are motivated by referentiality it follows that the relevant syntactic mechanism is dependent on the prior acquisition of a pragmatic distinction.
