Alaska, 2020-11 In *Russian Colonization of Alaska* Baranov's Era 1799-1818 Andrei Val'terovich Grin'v examines the sociohistorical origins of the former Russian colonies in Alaska or Russian America. The formation of the Russian American Company and the concentration in the hands of Aleksandr Baranov of all the power in south and southeast Alaska's Russian settlements marked a new stage in the history of Russian America. Expanding and strengthening Russian possessions in the New World as much as possible Baranov acted in favor of his country before himself in accordance with the principle people for the empire and not the empire for the people. *Russian Colonization of Alaska* is the first comprehensive study to analyze the origin and evolution of Russian colonization based on research into political economy history and ethnography. Grin'v's study elaborates the social political spiritual ideological personal and psychological aspects of Russian America accounting for the idiosyncrasies of the natural environment competition from other North American empires and challenges from Alaska Natives and individual colonial diplomats. Rather than being simply a continuation of Russians colonization of Siberia the colonization of Alaska was instead part of overarching Russian and global history.

Russian Colonization of Alaska Andrei Val'terovich Grin'ev, 2020-11 The first thorough examination of the origin and evolution of the Russian state and Russians subsequent colonization of Siberia and North America.

With brief biographies interjected that spark human interest and provide perspective to what was taking place *The Creation of the American States* shares a better understanding of how the North American continent was transformed from a wilderness into a powerful nation state by state.

History of Alaska , Volume I Jonathan M. Nielson, Ph.D., 2018-02-01 As a unique distant geographical region of the United States Alaska has evolved from military insignificance to high strategic priority in the 142 years since its purchase from Russia in 1867. The reasons for this dramatic shift derive from a correlation of geography foreign policy domestic politics and military technology. Historically the role of the armed forces in Alaska has been large and diverse. Alaska was one of the two principal territorial purchases made by the United States between 1803 and 1867 adding nearly 1.5 million square miles to America's national domain. Smaller by the size of Texas than Jefferson's Louisiana Purchase Alaska unlike all of the territories and states carved out of the former languished in obscurity and isolation and was administered as a colonial dependency by the military and other branches of the federal government its official territorial status and government notwithstanding. While sharing many common aspects of frontier settlement and

Western history with territories such as Montana the Dakotas Wyoming and Colorado Alaska presented special challenges peculiar to a non contiguous arctic and sub Arctic environment separated from the United States by a foreign power Indeed only the defeated South under Reconstruction experienced the same degree of military occupation and martial law Alaska also has the unique distinction in the American experience of belonging to Imperial Russia before it became of interest to American expansionists Still others found Alaska tempting and pursued their own designs North of 53 The Spanish British Canadians and even the French plied Alaska s waters and made their claims to Alyeska the Great Land And it is with these clashing imperial ambitions that this three volume history begins The Alaska Almanac Nancy Gates,2006-11 If you want to know Alaska inside and out there is no better reference than THE ALASKA ALMANAC Updated annually with facts and figures on geography history economics sports cultures and people of the Last Frontier this information packed volume is a must have for Alaskans and visitors alike Celebrating its thirtieth birthday this year this handy little guide is chock full of Alaskana from the beautiful to the bizarre As always the wit and wisdom of Mr Whitekeys continues to delight readers with his wacky but true Alaska factoids Did you know Arctic researchers on the northern tundra have reported up to 9 000 mosquito bites per minute There are 166 000 moose in Alaska Each one produces approximately 400 moose nuggets per day Alaskans are the second highest per capita consumers of SPAM in the nation Gold nuggets about Alaska The Associated Press **Russia's Hawaiian Adventure, 1815-1817** Richard A. Buxton,2013-06-01 Harold Innis is widely understood as the proponent of the Laurentian school of historiography which mapped Canadian development along an East West axis Harold Innis and the North turns the axis North South by examining Innis s intense and abiding interest in the North and providing new perspectives on this seminal figure in Canadian political economy and communication studies This collection reveals that Innis s advocacy of the North was closely bound up with his vision of northern Canada as the site of a second industrial revolution based on mining hydro electric power pulp and paper and

enabled by new forms of transportation Long preoccupied with Canada's coming of age as a balanced and integrated industrial nation state Innis grappled with the same issues about the North in the Canadian nation that we are dealing with today Chapters explore the breadth of Innis's northern activities including his early studies of the fur trade his biography of eighteenth century explorer and cartographer Peter Pond his review essays on the North for the Canadian Historical Review his leadership of the Rockefeller sponsored Arctic Survey and his trip to the Soviet Union Harold Innis and the North crafts a new narrative about the nature and scope of Innis's intellectual project and provides a unique appreciation of his multifaceted professional identity Contributors include Sergei Arkhipov North Ossetian State University and NGO Vladikavkaz Institute of Economics Jeffrey Brison Queens George Colpitts Calgary Matthew Evenden UBC Barry Gough Churchill College Cambridge and Kings College London Paul Heyer Wilfrid Laurier Jim Mochoruk North Dakota Liza Piper Alberta Shirley Roburn Concordia Peter van Wyck Concordia Jeff Webb Memorial *We Shall Be Masters* Chris Miller, 2021-06-08

Generations of Russians have pursued wealth and power in the East colonizing Pacific regions and spreading political influence into Asia Why have these efforts largely failed Chris Miller argues that Russian citizens and leaders concentrated in the European borderlands have always struggled to maintain faith and interest in eastward expansion **Imperial Russia and the Struggle for Latin American Independence, 1808-1828** Russell H. Bartley, 2014-10-03 This study the first of its kind in English examines Russian responses to the independence movement in Latin America during the early nineteenth century From a strictly presentist perspective the investigation of this subject contributes to the historiography of colonialism and of Latin America's relations with the major world powers In addition it rounds out the story of foreign interests in the emancipation of Spanish and Portuguese America while at the same time shedding new light on the history of Russian overseas expansion The study probes the major determinants of Russian responses to the struggle for independence of colonial Latin America and evaluates from a European perspective the actual impact of tsarist policy on the course of those historic events Drawing on a wide range of printed materials and on hitherto unused manuscript sources from the archives and libraries of Spain Portugal Brazil and the USSR it isolates Russian New World objectives during the first decades of the nineteenth century and relates those objectives to the formulation of tsarist policy toward the insurgent Iberian colonies
