Losing It All To Sprawl How Progress Ate My Cracker Landscape:

Losing It All to Sprawl Bill Belleville, 2006-03-27 *Losing It All to Sprawl* is the poignant chronicle of award winning nature writer Bill Belleville and how he came to understand and love his historic Cracker farmhouse and relic neighborhood in central Florida even as it was all wiped out from under him Belleville's narrative is eloquent informed and impassioned a saga in which tractors and backhoes trample through the woods next to his home in order to build the backbone of Florida sprawl the mall As heavy machinery encircles Belleville and his community the noise growing louder and closer displacing everything Belleville has called home for the past fifteen years he tells a story that is much older 10 000 years older The story stretches back to the Timucua and the Mayaca living in harmony with Florida's environment the conquistadors who expected much from but also feared this land of flowers the turn of the century tourists modernizing and climatizing the state the original Cracker families who lived in Belleville's farmhouse In stark contrast to this millennia long transformation is the whiplash of unbridled growth and development that threatens the nearby wilderness of the Wekiva River system consuming Belleville's home and ultimately his very sense of place In Florida one of the nation's fastest growing states and where local and state governments encourage growth balancing use with preservation is an uphill battle Sprawl spreads into the countryside consuming not just natural lands but Old Florida neighborhoods and their unique history In *Losing It All to Sprawl* Belleville accounts for the impacts social political natural personal that a community in the crosshairs of unsustainable growth ultimately must bear but he also offers Floridians and anyone facing the blight of urban confusion the hope that can be found in the rediscovery and appreciation of the natural landscape [The Tropic of Cracker Al](#)
