Legends of Vietnam Nghia M. Vo, 2014-01-10 Legends are a mirror of the culture that creates them a revealing lens through which to observe society religion history and traditions This volume explores Vietnamese legends from 1321 to today tales of gods spirits ghosts giants extraordinary individuals heroes common people and animals It explains the mores thought processes and religions that formed the genesis of Vietnamese legends traces the development of legends through time and space and highlights the historical and social differences between northern and southern legends Over time this work shows Vietnamese legends have evolved from a 14th century means of government propaganda to become a form of news entertainment and thought for the masses *Vietnam War Refugees in Guam* Nghia M. Vo, 2022-04-06 More than 130 000 South Vietnamese fled their homeland at the end of the Vietnam War Tens of thousands landed on the island of Guam on their way to the U S Many remained there Guamanians and U S military personnel welcomed them Funded by a 405 million Congressional appropriation Operation New Life was among the most intensive humanitarian efforts ever accomplished by the U S government with the help of the people of Guam Without it many evacuees would have died somewhere in the Pacific Ocean This book chronicles a part of the first mass migration of Vietnamese boat people before and after the fall of Saigon in April 1975 a story still unfolding almost half a century later The Indochinese Experience of the French and the Americans Arthur J. Dommen, 2002-02-20 Dommen's book promises to be the definitive political history of Indochina during the Franco-American era William M Leary E Merton Coulter Professor of History University of Georgia This magisterial study by Arthur J Dommen sets the Indochina wars French and American in perspective as no book that has come before He summarizes the history of the peninsula from the Vietnamese War of Independence from China in 930-39 through the first French military actions in 1858 when the struggle of the peoples of Indochina with Western powers began Dommen details the crucial episodes in the colonization of Indochina by the French and the indigenous reaction to it The struggle for national sovereignty reached an acute state at the end of World War II when independent governments rapidly assumed power in Vietnam and Cambodia When the French returned the struggle became one of open warfare with Nationalists and

Communists gripped in a contest for ascendancy in Vietnam while the rulers of Cambodia and Laos sought to obtain independence by negotiation The withdrawal of the French after their defeat at Dien Bien Phu brought the Indochinese face to face whether as friends or as enemies with the Americans In spite of an armistice in 1954 the war between Hanoi and Saigon resumed as each enlisted the help of foreign allies which led to the renewed loss of sovereignty as a result of alliances and an increasingly heavy loss of lives Meticulous and detailed Dommen s telling of this complicated story is always judicious Nevertheless many people will find his analysis of the Diem coup a disturbing account of American plotting and murder This is an essential book for anyone who wants to understand Vietnam and the people who fought against the United States and won

Republican Vietnam, 1963-1975 Trinh M. Luu, Tuong Vu, 2023-09-30 English language scholarship all too often dismisses South Vietnam as an American creation a product of US imperialism Republican Vietnam 1963 1975 boldly upends this depiction exposing a diverse and dynamic portrait of the Second Republic In twelve essays each based on original archival research the volume brings to life the Second Republic in all its complexities displaying how politicians students educators publishers journalists musicians religious leaders businessmen and ordinary citizens built a highly intricate society with dazzling entrepreneurial zeal an outspoken press globally engaged religions a vibrant intellectual and associational culture and a level of artistic production that remains unmatched since the Vietnam War That inspired and frenzied age though short lived held a resilient spirit that Vietnamese refugees have kept alive The trove of vernacular music and print media not to mention the many associations the Vietnamese diaspora founded exemplify the republican values that once energized South Vietnamese culture But this nuanced society has appeared in popular media and American scholarship as a hopelessly dependent nation led by corrupt dictators beholden to US interests In contrast to such negative stereotypes this account situates South Vietnamese front and center as agents of their own histories Republican Vietnam is the first collection of scholarly essays on the Second Republic since the end of the Vietnam War It is also among the first to use republicanism as a lens to re examine twentieth century Vietnamese history the Vietnam War and the diaspora The twelve essays together show how war in tandem with external intervention shaped South

Experiments with Marxism-Leninism in Cold War Southeast Asia Matthew Galway, Marc H. Oppen, 2022-09-21

One of the most contentious theatres of the global conflict between capitalism and communism was Southeast Asia. From the 1920s until the end of the Cold War, the region was racked by international and internal wars that claimed the lives of millions and fundamentally altered societies in the region for generations. Most of the 11 countries that compose Southeast Asia were host to the development of sizable communist parties that actively and sometimes violently contested for political power. These parties were the object of fierce repression by European colonial powers, post-independence governments, and the United States. Southeast Asian communist parties were also the object of a great deal of analysis both during and after these conflicts. This book brings together a host of expert scholars, many of whom are either Southeast Asia based or from the countries under analysis, to present the most expansive and comprehensive study to date on ideological and practical experiments with Marxism-Leninism in Southeast Asia. The bulk of this edited volume presents the contents of these revolutionary ideologies on their own terms and their transformations in praxis by using primary source materials that are free of the preconceptions and distortions of counterinsurgent narratives. A unifying strength of this work is its focus on using primary sources in the original languages of the insurgents themselves.
