sector securities principally federal and state securities drew in the most long term foreign investment whereas from 1875 to 1914 the private sector was the main attraction The construction of the American railroad system called on vast portfolio investments from abroad there was also sizable direct investment in mining cattle ranching the oil industry the chemical industry flour production and breweries as well as the production of rayon thread and even submarines In addition there were foreign stakes in making automobile and electrical and nonelectrical machinery America became the leading industrial country of the world at the very time when it was a debtor nation in world accounts
