Interiors Katarzyna Nowak, Sonia Front, 2010-06-09 The essays gathered in the present collection provide textual explorations of the theoretical borderland between interiors and exteriors undertaken from a variety of perspectives and representing varying approaches and understandings of these terms In the realm of theory the distinction between what we choose to include and what we exclude remains a political choice often fraught with dilemmas that cannot be resolved How to discern between interiors and exteriors Where do we draw dividing lines Do we want to draw them anymore Or alternately can we afford not to divide and discern between the inside and outside between here and there between us and them If the binary divisions so much discredited no longer hold if we must include multiplicity and plurality of readings is any distinction between these dimensions possible Essays collected in the present volume attempt to present a wide plethora of answers to these questions

The Artist and Political Vision Benjamin R. Barber, Michael J. Gargas McGrath, Art and politics are often regarded as denizens of different realms but few artists have been comfortable with the notion of a purely aesthetic definition of art The artist has a public and thus political vision of the world interpreted by his art no less than the statesman and the legislator have a creative vision of the world they wish to make The sixteen original essays in this volume bear eloquent witness to this interpenetration of art and politics Each confronts the intersection of the aesthetic and the social each is concerned with the interface of poetic vision and political vision of reflection and action They take art in the broadest sense ranging over poets dramatists novelists essayists and filmmakers Their focus is on art and its political dilemmas not simply on the artist They consider the issues raised for politics and culture by alienation violence modernization technology democracy progress and revolution And they debate the capacity of art to stimulate social change and incite revolution the temptations of social control of culture and of political censorship the uncertain relationship between art and history the impact of economic structure on artistic creation and of economic class on artistic product the common ground between art and legislation and between creativity and control

Shakespeare's Festive Comedy C. L. Barber,2011-10-03 In this classic work acclaimed Shakespeare critic C L Barber argues that Elizabethan seasonal festivals such as May Day and Twelfth Night are the key to understanding Shakespeare s comedies Brilliantly interweaving anthropology social history and literary criticism Barber traces the inward journey psychological bodily spiritual of the comedies from confusion raucous laughter aching desire and aggression to harmony Revealing the interplay between social custom and dramatic form the book shows how the Elizabethan antithesis between everyday and holiday comes to life in the comedies combination of seriousness and levity I have been led into an exploration of the way the social form of Elizabethan holidays contributed to the dramatic form of festive comedy To relate this drama to holiday has proved to be the most effective way to describe its character And this historical interplay between social and artistic form has an interest of its own we can see here with more clarity of outline and detail than is usually possible how art develops underlying configurations in the social life of a culture C L Barber in the Introduction This new edition includes a foreword by Stephen Greenblatt who discusses Barber s influence on later scholars and the recent critical disagreements that Barber has inspired showing that Shakespeare s Festive Comedy is as vital today as when it was originally published
