

Moral RELATIVISM

A SHORT INTRODUCTION

Neil Levy

Moral Relativism A Short Introduction

Catherine Osborne

Moral Relativism A Short Introduction:

Moral Relativism Neil Levy, 2014-10-01 On September 11 2001 thousands of people died in the attacks on the United States How could the terrorists justify these acts A young man kills his sister to protect his family's honour How could this be right These are just some of the questions tackled by Neil Levy in an incisive and elegant guide to the philosophy of moral relativism the idea that concepts of rightness and wrongness vary from culture to culture and that there is no such thing as an absolute moral code Opening with a comprehensive definition of this controversial theory the book examines all the arguments for and against moral relativism from its implications for ethics to the role of human biology and the difficulty of separating cultural values from innate behaviour

Moral Relativism Steven Lukes, 2011-05-26 Do we as humans have no shared standards by which we can understand each other Do we truly have divergent views about what constitutes good and evil harm and welfare dignity and humiliation or is there some underlying commonality that wins out These questions show up everywhere from the debate over female circumcision to the UN Declaration of Human Rights They become ever more pressing in an age of mass immigration religious extremism and the rise of identity politics So by what right do we judge particular practices as barbaric Who are the real barbarians This provocative book takes an enlightening look at what we believe why we believe it and whether there really is an irreparable moral discord between us and them

The Oxford Handbook of the History of Ethics Roger Crisp, 2013-01-31 Philosophical ethics consists in the human endeavour to answer rationally the fundamental question of how we should live The Oxford Handbook of the History of Ethics explores the history of philosophical ethics in the western tradition from Homer until the present day It provides a broad overview of the views of many of the main thinkers schools and periods and includes in addition essays on topics such as autonomy and impartiality The authors are international leaders in their field and use their expertise and specialist knowledge to illuminate the relevance of their work to discussions in contemporary ethics The essays are specially written for this volume and in each case introduce the reader to the main lines of interpretation and criticism that have arisen in the professional history of philosophy over the past two or three decades

Ethics: The Basics, 2nd Edition John Mizzoni, 2017-05-08 Updated and revised Ethics The Basics Second Edition introduces students to fundamental ethical concepts principles theories and traditions while providing them with the conceptual tools necessary to think critically about ethical issues Introduces students to core philosophical problems in ethics in a uniquely reader friendly manner Lays out clearly and simply a rich collection of ethical concepts principles theories and traditions that are prevalent in today's society Considers western and non western viewpoints and religious interpretations of ethical principles Offers a framework for students to think about and navigate through an array of philosophical questions about ethics

The Routledge Handbook of Philosophy of Relativism Martin Kusch, 2019-12-06 Relativism can be found in all philosophical traditions and subfields of philosophy It is also a central idea in the social sciences the humanities religion and politics This is the first volume to map relativistic motifs in all

areas of philosophy synchronically and diachronically It thereby provides essential intellectual tools for thinking about contemporary issues like cultural diversity the plurality of the sciences or the scope of moral values The Routledge Handbook of Philosophy of Relativism is an outstanding major reference source on this fundamental topic The 57 chapters by a team of international contributors are divided into nine parts Relativism in non Western philosophical traditions Relativism in Western philosophical traditions Relativism in ethics Relativism in political and legal philosophy Relativism in epistemology Relativism in metaphysics Relativism in philosophy of science Relativism in philosophy of language and mind Relativism in other areas of philosophy Essential reading for students and researchers in all branches of philosophy this handbook will also be of interest to those in related subjects such as politics religion sociology cultural studies and literature Presocratic Philosophy: A Very Short Introduction Catherine Osborne, 2004-04-22 A lively and thematic treatment of early Greek philosophy this work discusses the invention of western philosophy the first thinkers to explore ideas about the nature of reality time and the origin of the universe What It Means to Be Moral Phil Zuckerman, 2020-09-15 A thoughtful perspective on humans capacity for moral behavior Kirkus Reviews A comprehensive introduction to religious skepticism Publishers Weekly In What It Means to Be Moral Why Religion Is Not Necessary for Living an Ethical Life Phil Zuckerman argues that morality does not come from God Rather it comes from us our brains our evolutionary past our ongoing cultural development our social experiences and our ability to reason reflect and be sensitive to the suffering of others By deconstructing religious arguments for God based morality and guiding readers through the premises and promises of secular morality Zuckerman argues that the major challenges facing the world today from global warming and growing inequality to religious support for unethical political policies to gun violence and terrorism are best approached from a nonreligious ethical framework In short we need to look to our fellow humans and within ourselves for moral progress and ethical action In this brilliant provocative and timely book Phil Zuckerman breaks down the myth that our morality comes from religion compellingly making the case that when it comes to the biggest challenges we face today a secular approach is the only truly moral one Ali A Rizvi author of The Atheist Muslim **Moral Relativism** Neil Levy, 2002 On September 11 2001 thousands of people died in the attacks on the United States How could this act of terror be justified A young man kills his sister to protect his family's honour How could this be right These are just two of the questions tackled by Neil Levy in this guide to the philosophy of moral relativism the idea that concepts of rightness and wrongness vary from culture to culture and that there is no such thing as an absolute moral code Opening with a comprehensive definition to this controversial theory the book examines all the arguments for and against moral relativism from its implications for ethics to the role of humanology and the difficulty of separating cultural values from innate behaviour The author draws on case studies from sources as diverse as the Aztecs and the Australian aboriginals to illustrate debates such as can we ever have a shared morality can concepts of rightness and wrongness ever be absolute does moral relativism pose a threat to human rights concluding with a proposal for a

more modest form of relativism and **Philosophy: A Very Short Introduction** Edward Craig, 2002-02-21 How ought we to live What really exists How do we know This book introduces important themes in ethics knowledge and the self via readings from Plato Hume Descartes Hegel Darwin and Buddhist writers It emphasizes throughout the point of doing philosophy explains how different areas of philosophy are related and explores the contexts in which philosophy was and is done ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Defensive Relativism** Frederick Cowell, 2022-10-25 Defensive Relativism describes how governments around the world use cultural relativism in legal argument to oppose international human rights law Defensive relativist arguments appear in international courts at the committees established by human rights treaties and at the United Nations Human Rights Council The aim of defensive relativist arguments is to exempt a state from having to apply international human rights law or to stop international human rights law evolving because it would interfere with cultural traditions the state deems important It is an everyday occurrence in international human rights law and defensive relativist arguments can be used by various types of states The end goal of defensive relativism is to allow a state to appear human rights compliant while at the same time not implementing international human rights law Drawing on a range of materials such as state reports on the Convention on the Elimination of All Forms of Discrimination Against Women CEDAW and cases from the European Court of Human Rights involving freedom of religion this book provides a definitive survey of defensive relativism Crucially Frederick Cowell argues defensive relativism is not about alternative practices of human rights law or debates about the origins or legitimacy of human rights as a concept Defensive relativism is instead a variety of tactical argument used by states to justify ignoring international human rights law Yet as Cowell concludes defensive relativism can't be removed from the law as it is a reflection of unresolved tensions about the nature of what it means for rights to be universal *A Short Introduction to Ethics* Gerald J. Williams, 1999 A Short Introduction to Ethics provides a short straightforward volume that prepares the reader for in depth study of the questions issues and puzzles that must be dealt with in the study of standard ethics or moral philosophy The author introduces the terminology used by professional moralists as well as basic ideas of ethics such as how to judge the moral character of an action how moral responsibility is determined what moral knowledge might consist of theoretical approaches to making moral judgments from cultural moral relativism through utilitarianism natural law Kantian moral rationalism and virtue theory including the ideas of Aristotle He presents natural law in great detail focusing largely on Thomas Aquinas approach to making moral judgments This focus allows for a better understanding of the philosophical thinking underlying controversial issues including abortion euthanasia in vitro fertilization homosexuality artificial contraception cloning and surrogate motherhood Principles of Health Care Ethics Richard Edmund Ashcroft, Angus

Dawson, Heather Draper, John McMillan, 2015-08-12 Edited by four leading members of the new generation of medical and healthcare ethicists working in the UK respected worldwide for their work in medical ethics *Principles of Health Care Ethics* Second Edition is a standard resource for students professionals and academics wishing to understand current and future issues in healthcare ethics With a distinguished international panel of contributors working at the leading edge of academia this volume presents a comprehensive guide to the field with state of the art introductions to the wide range of topics in modern healthcare ethics from consent to human rights from utilitarianism to feminism from the doctor patient relationship to xenotransplantation This volume is the Second Edition of the highly successful work edited by Professor Raanan Gillon Emeritus Professor of Medical Ethics at Imperial College London and former editor of the *Journal of Medical Ethics* the leading journal in this field Developments from the First Edition include The focus on Four Principles Method is relaxed to cover more different methods in health care ethics More material on new medical technologies is included the coverage of issues on the doctor patient relationship is expanded and material on ethics and public health is brought together into a new section

Political and Legal Approaches to Human Rights Tom Campbell, Kylie Bourne, 2017-11-22 This collection explores and illustrates issues arising from political approaches to human rights in contrast to the more traditional moral approaches Moral approaches conceptualize and justify human rights in terms of priority rights which are both universal and moral In contrast political approaches focus on those human rights practices involved in the development and operation of human rights institutions laws and political process all in relative independence from their alleged moral foundations The book contributes to the understanding and analysis of political approaches including consideration of their diversity and discussion of their strengths and weaknesses The choice of contributors presents a balance between those theorists who favour some version of the political approach and those who are dubious about the perceived advantages The chapters are grouped together in parts which constitute the distinctive issues addressed in the book At a time when there is considerable uncertainty concerning their conceptual clarity operation feasibility and their normative justifications this volume will be of interest to those involved with the theory and practice of human rights within law schools and in politics and philosophy departments It will also provide a useful resource for human rights practitioners and policy makers

Ethics in an Age of Surveillance Adam Henschke, 2017-07-03 We live in an age of surveillance In this book the moral importance of this is explained through an examination of virtual identities

Modern French Philosophy Robert Wicks, 2013-10-01 This is a thorough and balanced guide to modern French philosophical thought providing lucid authoritative accounts of famous philosophers whilst also highlighting lesser known figures Author Robert Wicks introduces the major works of each philosopher explaining their impact on their peers and on the wider world Covering such major movements as Existentialism Surrealism Structuralism and Postmodernism this handbook is a useful resource for Francophiles students of philosophy and all those interested in the intellectual landscape of 20th and 21st century France The book includes detailed coverage of such

philosophers as Henri Bergson Beauvoir Sarte Camus Barthes Derrida Foucault Deleuze and Levi Strauss among others

Freedom of Religion and the Secular State Russell Blackford,2012-01-17 Exploring the relationship between religion and the state Focusing on the intersection of religion law and politics in contemporary liberal democracies Blackford considers the concept of the secular state revising and updating enlightenment views for the present day Freedom of Religion and the Secular State offers a comprehensive analysis with a global focus of the subject of religious freedom from a legal as well as historical and philosophical viewpoint It makes an original contribution to current debates about freedom of religion and addresses a whole range of hot button issues that involve the relationship between religion and the state including the teaching of evolution in schools what to do about the burqa and so on

Mental Health Ethics Phil Barker,2010-11-09 All human behaviour is ultimately a moral undertaking in which each situation must be considered on its own merits As a result ethical conduct is complex Despite the proliferation of Codes of Conduct and other forms of professional guidance there are no easy answers to most human problems Mental Health Ethics encourages readers to heighten their awareness of the key ethical dilemmas found in mainstream contemporary mental health practice This text provides an overview of traditional and contemporary ethical perspectives and critically examines a range of ethical and moral challenges present in contemporary psychiatric mental health services Offering a comprehensive and interdisciplinary perspective it includes six parts each with their own introduction summary and set of ethical challenges covering fundamental ethical principles legal issues specific challenges for different professional groups working with different service user groups models of care and treatment recovery and human rights perspectives Providing detailed consideration of issues and dilemmas Mental Health Ethics helps all mental health professionals keep people at the centre of the services they offer

Ian Brady Alan Keightley,2017-05-22 Since May 1966 when Ian Brady and Myra Hindley were sentenced to life imprisonment at Chester Assizes the British public has been absorbed and horrified by the Moors Murders Ian Brady has often been aptly described as the most evil man alive or the Daddy of the Devils while Myra Hindley Britain's first female serial killer became the most hated woman in Britain Here is the definitive account drawing on exclusive never before seen material It changes forever our understanding of the Moors couple and their heinous crimes Why did they do it What actually happened Unlikely as it may appear to those detectives psychiatrists authors criminologists journalists and the victims families who have all sought in their own ways for decades to discover it this book is possibly as near as we shall ever get to understanding how the victims died It proves beyond question that the parents of the victims were right all along in their claims about Hindley's part in the murders Did Brady give an account to anyone of his life Myra Hindley and their crimes before he died Yes he did here it is

The Routledge International Handbook of Education, Religion and Values James Arthur,Terence Lovat,2013-08-21 The academic fields of religion and values have become the focus of renewed interest in contemporary thinking about human activity and its motivations The Routledge International Handbook of Education Religion and Values explores and expands upon a range

of international research related to this revival The book provides an authoritative overview of global issues in religion and values surveying the state of the academic area in contributions covering a wide range of topics It includes emerging controversial and cutting edge contributions as well as investigations into more established areas International authorities Arthur and Lovat have brought together experts from across the world to examine the complexity of the field of study The handbook is organised around four key topics which focus on both the importance of religion and values as broad fields of human enquiry as well as in their application to education inter agency work and cross cultural endeavours The Conceptual World of Religion and Values Religion and Values in Education Religion and Values in Inter agency Work Religion and Values in Cross cultural Work This comprehensive reference work combines theoretical and empirical research of international significance and will be valuable reading for students researchers and academics in the field of education
