More Gems Of Grace:

More Gems of Grace Bob Stokes,1975 **The Comfort of Things** Daniel Miller,2013-04-24 What do we know about ordinary people in our towns and cities about what really matters to them and how they organize their lives today This book visits an ordinary street and looks into thirty households It reveals the aspirations and frustrations the tragedies and accomplishments that are played out behind the doors It focuses on the things that matter to these people which quite often turn out to be material things their house the dog their music the Christmas decorations These are the means by which they express who they have become and relationships to objects turn out to be central to their relationships with other people children lovers brothers and friends If this is a typical street in a modern city like London then what kind of society is this It is not a community nor a neighbourhood nor is it a collection of isolated individuals It isn't dominated by the family We assume that social life is corrupted by materialism made superficial and individualistic by a surfeit of consumer goods but this is misleading If the street isn't any of these things then what is it This brilliant and revealing portrayal of a street in modern London written by one of the most prominent anthropologists shows how much is to be gained when we stop lamenting what we think we used to be and focus instead on what we are now becoming It reveals the forms by which ordinary people make sense of their lives and the ways in which objects become our companions in the daily struggle to make life meaningful
