Learning Neuroimaging Francisco de Asís Bravo-Rodríguez, Rocío Díaz-Aguilera, Luiz Celso Hygino da Cruz Jr., 2011-10-26 This book is intended as an introduction to neuroradiology and aims to provide the reader with a comprehensive overview of this highly specialized radiological subspecialty. One hundred illustrated cases from clinical practice are presented in a standard way. Each case is supported by representative images and is divided into three parts: a brief summary of the patient's medical history, a discussion of the disease, and a description of the most characteristic imaging features of the disorder. The focus is not only on common neuroradiological entities such as stroke and acute head trauma but also on less frequent disorders that the practitioner should recognize.

Learning Neuroimaging 100 Essential Cases is an ideal resource for neuroradiology and radiology residents, neurology residents, neurosurgery residents, nurses, radiology technicians, and medical students.

Practical Medical and Surgical Management of Chronic Rhinosinusitis Pete S. Batra, Joseph K. Han, 2015-07-15 This book is a comprehensive compendium on the medical and surgical treatment of chronic rhinosinusitis (CRS) with or without polyposis. Detailed coverage is provided of a wide range of topics including medical and surgical management of CRS and its subsets, medical therapy in the pre and postoperative period, and specific medical therapeutic classes currently employed in CRS patients. Each chapter highlights key aspects of specific therapies including mechanism of action, indications, dosages, side effects, and available clinical efficacy data, and emphasizes practical management pearls and pitfalls. Operative techniques for endoscopic sinonasal procedures for CRS are also outlined. The book will be a valuable resource for practicing general otolaryngologists, rhinologists, and allergists, as well as residents and fellows in training. It will also serve as a reference guide for physician assistants, nurse practitioners, and nurses involved in the care of CRS patients.
