**Research Perspectives** Linda K. Thompson, Mark Robin Campbell, 2009-04-01 Editorial Board William Bauer Case Western Reserve University Cleveland OH Susan Wharton Conkling Eastman School of Music University of Rochester Rochester NY Colleen Conway University of Michigan Ann Arbor MI Regina Murphy St Patrick s College Dublin City University Dublin Ireland Kathy Scherler University of Texas at Arlington Arlington TX Research Perspectives Thought and Practice in Music Education calls attention to various theoretical and methodological aspects within the expanding field of research in music education Perspectives presented in this volume offer readers a host of ideas and practices that range from international and historical to empirical and philosophical Of special interest is a set of invited essays Collectively these essays illuminate our understanding of the peer review process the importance of artistic vision in research and education and the notion of complementarity a recognition of the validity of diversity of thought and practice in music education research The studies in Part 1 of Research Perspectives include early childhood musical development an international comparison of early childhood preservice teacher knowledge and skills and a psychohistoric examination of developmentally appropriate practice Part II is comprised of studies focused on psychometrics of motivation and professional development of practicing music educators This volume is a significant addition to the libraries of Colleges of Education and Schools of Music as well as an important reference for music scholars and educators researchers and graduate students who are concerned with advancing both the scope and quality of research in the study of music teaching and learning *Being Scioto Hopewell: Ritual Drama and Personhood in Cross-Cultural Perspective* Christopher Carr, 2022-01-05 This book in two volumes breathes fresh air empirically methodologically and theoretically into understanding the rich ceremonial lives the philosophical religious knowledge and the impressive material feats and labor organization that distinguish Hopewell Indians of central Ohio and neighboring regions during the first centuries CE The first volume defines cross culturally for the first time the ritual drama as a genre of social performance It reconstructs and compares parts of 14 such dramas that Hopewellian and other Woodland period peoples performed in their ceremonial centers to help the soul like essences of their deceased make the journey to an afterlife The second volume builds and critiques ten formal cross cultural models of personhood and the self and infers the nature of Scioto Hopewell people s ontology Two facets of their ontology are found to have been instrumental in their creating the intercommunity alliances and cooperation and gathering the labor required to construct their huge multicomunity ceremonial centers a relational collective concept of the self defined by the ethical quality of the relationships one has with other beings and a concept of multiple soul like essences that compose a human being and can be harnessed strategically to create familial like ethical bonds of cooperation among individuals and communities The archaeological reconstructions of Hopewellian ritual dramas and concepts of personhood and the self and of Hopewell people s strategic uses of these are informed by three large surveys of historic Woodland and Plains Indians

narratives ideas and rites about journeys to afterlives the creatures who inhabit the cosmos and the nature and functions of soul like essences coupled with rich contextual archaeological and bioarchaeological taphonomic analyses The bioarchaeological taphonomic method of l anthropologie de terrain new to North American archaeology is introduced and applied In all the research in this book vitalizes a vision of an anthropology committed to native logic and motivation and skeptical of the imposition of Western world views and categories onto native peoples      **Hopewell Ceremonial**

**Landscapes of Ohio** Mark Lynott,2015-02-05 Nearly 2000 years ago people living in the river valleys of southern Ohio built earthen monuments on a scale that is unmatched in the archaeological record for small scale societies The period from c 200 BC to c AD 500 Early to Middle Woodland witnessed the construction of mounds earthen walls ditches borrow pits and other earthen and stone features covering dozen of hectares at many sites and hundreds of hectares at some The development of the vast Hopewell Culture geometric earthwork complexes such as those at Mound City Chilicothe Hopewell and the Newark earthworks was accompanied by the establishment of wide ranging cultural contacts reflected in the movement of exotic and strikingly beautiful artefacts such as elaborate tobacco pipes obsidian and chert arrowheads copper axes and regalia animal figurines and delicately carved sheets of mica These phenomena coupled with complex burial rituals indicate the emergence of a political economy based on a powerful ideology of individual power and prestige and the creation of a vast cultural landscape within which the monument complexes were central to a ritual cycle encompassing a substantial geographical area The labour needed to build these vast cultural landscapes exceeds population estimates for the region and suggests that people from near and possibly far travelled to the Scioto and other river valleys to help with construction of these monumental earthen complexes Here Mark Lynott draws on more than a decade of research and extensive new datasets to re examine the spectacular and massive scale Ohio Hopewell landscapes and to explore the society that created them

*Arbitration in China* Kun Fan,2013-02-11 In the context of harmonisation of arbitration law and practice worldwide to what extent do local legal traditions still influence local arbitration practices especially at a time when non Western countries are playing an increasingly important role in international commercial and financial markets How are the new economic powers reacting to the trend towards harmonisation China provides a good case study with its historic tradition of non confrontational means of dispute resolution now confronting current trends in transnational arbitration Is China showing signs of adapting to the current trend of transnational arbitration On the other hand will Chinese legal culture influence the practice of arbitration in the rest of the world To address these challenging questions it is necessary to examine the development of arbitration in the context of China s changing cultural and legal structures Written for international business people lawyers academics and students this book gives the reader a unique insight into arbitration practice in China based on a combination of theoretical analysis and practical insights It explains contemporary arbitration in China from an

interdisciplinary perspective and with a comparative approach setting Chinese arbitration in its wider social context to aid understanding of its history contemporary practice the legal obstacles to modern arbitration and possible future trends In 2011 the thesis on which this book was based was named Best Thesis in International Studies by the Swiss Network for International Studies What distinguishes this work from other books on international arbitration is its interdisciplinary perspective and comparative approach this book makes a remarkable contribution to the understanding of arbitration in China and transnational arbitration in general Academics scholars and students of international arbitration comparative studies and globalisation may all find this book stimulating It also provides useful guidance for practitioners involved or interested in arbitration in China From the Foreword by Gabrielle Kaufmann Kohler This title is included in Bloomsbury Professional's International Arbitration online service

**Conflict, Peace, Security and Development** Helen Hintjens, Dubravka Zarkov, 2014-08-13 Whilst classical approaches linked development with peace security has become central to understandings of both war and peacetime This book uniquely reflects on how to deal with the convergence of war and peace in the context of global economic and geo political development It addresses methodological challenges in contemporary approaches to conflict violence security peace and development Two dominant contemporary approaches are selected for debate on methodologies and ethical choices rational choice and identity based theorizing The chapters are arranged as dialogues around contending approaches to better understand how the interlocking fields of violent conflict peace development and security can be researched and understood The book considers how theoretical and methodological approaches relate to different ethical and political choices including around engagement and intervention in the four interwoven fields Theoretical methodological and ethical issues emerge from the critical reviews of academic discourses and case study based chapters from across the world including Sri Lanka Ghana Colombia and Rwanda This book is an invaluable resource for postgraduate students and researchers in Development Studies Conflict Studies Peace Studies and Security Studies

*GIScience Teaching and Learning Perspectives* Shivanand Balram, James Boxall, 2019-01-31 This volume uniquely links educational theories and the practice of GIScience in higher education contexts to guide classroom practice present effective practical implementations from peers and provide resources and strategies for effective teaching methods The book offers a comprehensive exploration of GIScience education including current trends and future educational needs in GIScience and will act as a resource to prepare learners for a world that demands more intensive investment in present day education and technological literacy Additionally the indirect benefit of merging the fragmented literature on GIScience literacy will provide a basis to examine common techniques and enable a new wave of research more rooted in learning theories In ten chapters the book is designed to attract an audience from geographic information systems science geomatics spatial information science cartography information technology and educational technology as focus disciplines

**Global Logistics** C. Donald J. Waters, 2007 Taking a truly international perspective this book outlines the current situation and

provides a wealth of useful ideas and practical information on all the current and future trends in logistics and distribution This new edition contains new sections including logistics in China central and eastern Europe      *Theoretical Perspectives of Strategic Followership* David Zoogah,2018-10-25 The concept of followership like leadership is not new to the extent that it has been around since the beginning of creation It is so pervasive in human interactions that attempts to study it are often met with ridicule In the organization literature followership a complementary role to leadership was often ignored until recently when scholars observed that followers have as much a role to play in the leader follower relationship *Theoretical Perspectives of Strategic Followership* focuses on one type of followership strategic which is an emergent phenomenon Similar to leadership followership has been defined as a role process and capacity Indeed others consider it as socially constructed In addition to the definitions the relatively sparse literature has identified antecedents outcomes and moderators of followership The book combines both the macro strategic management and micro psychological foundations of strategic followership to encourage research not only among strategic management scholars but also those in the micro fields of organizational behaviour human resources management and industrial psychology      **Twenty-First Century Perspectives on Victorian Literature** Laurence W. Mazzeno,2014-03-06 Victorian literature s fascination with the past its examination of social injustice and its struggle to deal with the dichotomy between scientific discoveries and religious faith continue to fascinate scholars and contemporary readers During the past hundred years traditional formalist and humanist criticism has been augmented by new critical approaches including feminism and gender studies psychological criticism cultural studies and others In *Twenty First Century Perspectives on Victorian Literature* twelve scholars offer new assessments of Victorian poetry novels and nonfiction Their essays examine several major authors and works and introduce discussions of many others that have received less scholarly attention in the past General reviews of the current status of Victorian literature in the academic world are followed by essays on such writers as Charles Dickens Alfred Tennyson Thomas Hardy and the Bront sisters These are balanced by essays that focus on writing by women the development of the social problem novel and the continuity of Victorian writers with their Romantic forebears Most importantly the contributors to this volume approach Victorian literature from a decidedly contemporary scholarly angle and write for a wide audience of specialists and non specialists alike Their essays offer readers an idea of how critical commentary in recent years has influenced and in some cases changed radically our understanding of and approach to literary study in general and the Victorian period in particular Hence scholars teachers and students will find the volume a useful survey of contemporary commentary not just on Victorian literature but also on the period as a whole      **Malaysian Media Studies: Integrating Perspectives (UM Press)** Azizah Hamzah,Amira Firdaus,2016 This edited volume revisits developments in the field of media education and media studies at a time when society is experiencing a ubiquitous networked digital media environment Rapid advances in media and communication technologies and the accompanying developments in social cultural political and economic realms pose

unexpected challenges to the curricula of long established media and communication schools As opposed to rigidly structured nation based mass media systems of the past century the new global media sphere celebrates the breaking down of borders whether spatial cultural or social Today in the second half of the second decade of the 21st century this problem translates into what and how to teach students of media who in all likelihood are more adept media consumers and producers than their teachers In a region where educational institutions and educators don t transform as fast as media technologies do there is a need to problematize and to reflect upon the situation This edited volume examines critical issues related to media studies at local institutions of higher learning and includes a sampling of research charting new directions in local media scholarship Contributions to this edited volume reflect the shared concerns of media educators and researchers in Malaysia and two neighboring countries Indonesia and Thailand Three main themes underscore this volume reflecting their importance to the evolution of media education and to a certain extent research as well Historical development of media education and training Current developments and future trajectories of media education in a globalized digital media environment Analysis of media and society      Capital Punishment: New Perspectives Peter Hodgkinson,2016-04-08 This collection asks questions about the received wisdom of the debate about capital punishment Woven through the book questions are asked of and remedies proposed for a raft of issues identified as having been overlooked in the traditional discourse It provides a long overdue review of the disparate groups and strategies that lay claim to abolitionism The authors argue that capital litigators should use their skills challenging the abuses not just of process but of the conditions in which the condemned await their fate namely prison conditions education leisure visits medical services etc In the aftermath of successful constitutional challenges it is the beneficiaries arguably those who are considered successes having been saved from the death penalty and now serving living death penalties of one sort or another who are suffering the cruel and inhumane alternative Part I of the book offers a selection of diverse nuanced examinations of death penalty phenomena scrutinizing complexities frequently omitted from the narrative of academics and activists It offers a challenging and comprehensive analysis of issues critical to the abolition debate Part II offers examinations of countries usually absent from academic analysis to provide an understanding of the status of the debate locally with opportunities for wider application

Kisker,Richard L. Wagoner,2013-02-25 In recent

years a convergence of several forces increased legislative involvement in higher education governmental and philanthropic pressure to increase postsecondary degree and certificate production and fiscal belt tightening at colleges and universities across America has resulted in efforts to significantly reform community college to university transfer and articulation processes One increasingly popular method of reform is the implementation of transfer associate degrees statewide pathways or degree programs that allow students to both earn an associate degree from a community college and transfer seamlessly into a state university with junior status This volume of New Directions for Community Colleges outlines the elements of effective transfer associate degrees and explores their implementation in six states This is the 160th volume of this Jossey Bass quarterly report series Essential to the professional libraries of presidents vice presidents deans and other leaders in today's open door institutions New Directions for Community Colleges provides expert guidance in meeting the challenges of their distinctive and expanding educational mission

New Perspectives on State Government Fiscal Challenges John Merrifield, Barry W. Poulson, 2023-07-03 In this book on new fiscal approaches nineteen experts examine topics ranging from constitutional reform and debt fatigue to fiscal rules and zero based budgeting Together these contributions inform a multifaceted nuanced argument for the need to formalize spending restraint and redefine state debt to include unfunded liabilities Scholars will find the book useful as a reference tool explaining how rules based fiscal policy is used to address debt fatigue and unsustainable spending growth Legislators and practitioners will find the book useful as a reference source in designing and simulating second generation fiscal rules and educators will find the book helpful for its close analysis of policies in representative states such as Illinois New York New Jersey Nebraska and California

**China: Confucius in the Shadows**, 2015-03-15 Earlier this decade a statue of Confucius appears suddenly in Tiananmen Square in Beijing It is facing Chairman Mao's statue in front of the Forbidden City Mysteriously it disappears a few days later Why was it removed overnight Where is it now No clear answers seem to have emerged Most communist regimes have tried to make a break with the traditions of the past believing them to be the cause of all ills in society But has the historical experience of Communist regimes shown that to be true Today Buddhist Daoist and Confucian temples across cities and villages in China are crowded with people offering prayers People swarm to pay their respects to their traditional sages Like the warp and weft of a fabric China has the mark of traditions and ancient ethos present in its society and this has come handed down over the centuries and across generations Confucianism has been among the most well absorbed best known and documented value systems in China It was and still is a living tradition a way of life and a philosophy Propounded by Confucius 551-479 BC this value system has had a lasting and deep seated influence on the Chinese A philosopher and a thinker of the Spring and Autumn period Confucius has been considered a wise and fair teacher and a shrewd strategist in war In spite of the fact that Confucian values have been present beneath the surface in China along with Buddhist and Daoist beliefs for generations it is interesting to study why Confucius is being talked about so much of late Over the years in Communist China Confucian

thought had been swept under the carpet but resurrected in part depending on whether it suited the then current leadership While Mao rejected Confucius's ideas he did not hesitate to use them whenever it suited him A study of Confucius and his value systems at this moment in time makes sense and is important for a number of reasons In the evolving socio political milieu of China interpreting Confucian philosophy as being non confrontationist benevolent and with values such as filial piety and harmony could help the current political regime deal with such problems as corruption and rising inequalities Not only is Confucius being used to present to the world a completely Chinese cultural icon but it may also provide the Party with a useful tool to temper the simmering discontent in its society      *The Shiloh Campaign* Steven E. Woodworth, 2009-04-21

Some 100 000 soldiers fought in the April 1862 battle of Shiloh and nearly 20 000 men were killed or wounded more Americans died on that Tennessee battlefield than had died in all the nation's previous wars combined In the first book in his new series Steven E Woodworth has brought together a group of superb historians to reassess this significant battle and provide in depth analyses of key aspects of the campaign and its aftermath The eight talented contributors dissect the campaign's fundamental events many of which have not received adequate attention before now John R Lundberg examines the role of Albert Sidney Johnston the prized Confederate commander who recovered impressively after a less than stellar performance at forts Henry and Donelson only to die at Shiloh Alexander Mendoza analyzes the crucial and perhaps decisive struggle to defend the Union's left Timothy B Smith investigates the persistent legend that the Hornet's Nest was the spot of the hottest fighting at Shiloh Steven E Woodworth follows Lew Wallace's controversial march to the battlefield and shows why Ulysses S Grant never forgave him Gary D Joiner provides the deepest analysis available of action by the Union gunboats Grady McWhiney describes P G T Beauregard's decision to stop the first day's attack and takes issue with his claim of victory and Charles D Grear shows the battle's impact on Confederate soldiers many of whom did not consider the battle a defeat for their side In the final chapter Brooks D Simpson analyzes how command relationships specifically the interactions among Grant Henry Halleck William T Sherman and Abraham Lincoln affected the campaign and debunks commonly held beliefs about Grant's reactions to Shiloh's aftermath The *Shiloh Campaign* will enhance readers' understanding of a pivotal battle that helped unlock the western theater to Union conquest It is sure to inspire further study of and debate about one of the American Civil War's momentous campaigns      *Perspectives and Proposals on the*

*Community Reinvestment Act* United States. Congress. House. Committee on Financial Services. Subcommittee on Financial Institutions and Consumer Credit, 2010      **On Discourse Analysis in Classrooms** David Bloome, Stephanie Power Carter, Beth Morton Christian, Samara Madrid, Sheila Otto, Nora Shuart-Faris, Mandy Smith, 2008 This book in the NCRL Collection provides an introductory discussion of discourse analysis of language and literacy events in classrooms The authors introduce approaches to discourse analysis in a way that redefines traditional topics and provokes the imagination of researchers For those who have limited knowledge of discourse analysis this book will help generate new questions about

literacy events in classrooms For those familiar with this research perspective it will map diverse new approaches Offers examples of classroom discourse with analyses that researchers and practitioners can use as the basis for pursuing their own analyses Rob Tierney Dean Faculty of Education University of British Columbia On Discourse Analysis provokes us to rethink discourse analytic approaches as generative tools that can open up new ways of seeing language and literacy events in classrooms The authors richly illustrate the complexity and potential of discourse analysis studies with cases that orient us to foreground the local with broader cultural historical and social relations in ways that make evident what it means to be human On Discourse Analysis provides a fresh approach to discourse analysis studies Kris Gutierrez University of California at Los Angeles
