Primary Sources Of Liturgical Theology A Reader:

Primary Sources of Liturgical Theology Dwight Vogel, 2000 Here in a single volume is selection of representative writings from seminal thinkers in the Euro North American context who shape our understanding of liturgy Included are excerpts from books journal articles and previously unpublished translations and essays Each selection is introduced by a liturgical theologian

Liturgy as Revelation Philip Caldwell, 2014-12-01 A critical issue in modern Catholic theology has been the relationship between the doctrine of revelation and the church's liturgical and sacramental practice This volume argues that although in the twentieth century Catholic theology increasingly recognized the centrality of Christology particularly the person of Christ as the locus of revelation and drew out the crucial implications of Christ as the revelation of God it was slow to connect this revelatory dynamic with the encounter that occurs within the sacramental space of the liturgy most notably the Eucharist Taking the decline of the neoscholastic enterprise in Catholic theology and the challenges posed by modernism as his point of departure Philip Caldwell traces the evolution of the Catholic theology of revelation in the twentieth century and the vital role played by the liturgical and sacramental renewal movements in reimagining this pivotal theological category Examining the specific contributions of Ren Latourelle Avery Dulles Salvatore Marsilli and Gustave Martelet against a background of pre conciliar ressourcement theology this volume provides a comprehensive account of why a Trinitarian and Christological construal of liturgy and sacraments as revelation is key to the vision that informed Vatican II and offers constructive theological and ecclesial possibilities for the future

We Give Our Thanks Unto Thee Porter C. Taylor, 2019-04-17 Fr Alexander Schmemmann continues to influence liturgical and sacramental theologies some thirty five years after his death Despite the wide acceptance within Protestant circles of his timeless classic *For the Life of the World* there has been relatively little written about him from an ecumenical context This volume of collected essays seeks to explore his theological legacy and further his work With essays from leading scholars such as David Fagerberg Bruce Morrill Joyce Zimmerman and more this volume is meant for both teachers and students of liturgical and sacramental theology In an effort to introduce Schmemmann to a wider audience and to celebrate his work through meaningful engagement and dialogue contributors come from a wide variety of ecclesiastical backgrounds Anglican Roman Catholic Orthodox Lutheran Presbyterian Methodist Free Church and more The Eucharist is therefore the manifestation of the Church as the new aeon it is participation in the Kingdom as the parousia as the presence of the Resurrected and Resurrecting Lord It is not the repetition of His advent or coming into the world but the lifting up of the Church into His parousia the Church's participation in His heavenly glory Fr Alexander Schmemmann Introduction to Liturgical Theology p 72

Sacramental Presence Ruthanna B. Hooke, 2023-05-22 Drawing on performance studies and sacramental and liturgical theology Ruthanna B Hooke develops a theology of proclamation grounded in the body's experience of preaching The author explores the claim that preaching is a sacramental event of communion with the triune God by comparing the steps involved in voice production with the fourfold

shape of the Eucharist This comparison yields a description of preaching as an event of self offering that allows space for the humanity of the preacher and as an encounter with the Holy Spirit that is communal and prophetic Preaching draws participants into Christ s dying and rising and hence into a mode of power known in vulnerability Calling hearers into the eschatological event of the resurrection preaching inherently moves toward proclamation on political and ethical issues Hooke uses this theological framework to offer ways of preaching on environmental crisis and on racism The author calls preachers to embodied engagement with preaching and describes a way for preachers to bear witness to Jesus Christ not only in the content of their proclamation but in their way of being in the preaching event Centripetal Worship Timothy J. Wengert, 2014-04-15 Centripetal Worship examines how worship is and should be at the center of the assembly Contributors look at the historical and contemporary factors that influence how and why we worship the way we do The Worship Matters Studies Series examines key worship issues through studies by pastors musicians and laypeople from throughout the Evangelical Lutheran Church in America Features include the following 1 Informal and insightful writing for all readers 2 Study questions at the end of every chapter 3 Examination of vital issues in weekly worship and 4 Increased ability of leaders and congregants to understand and experience worship more richly **Richard Baxter's Reformed Liturgy** Glen J. Segger, 2016-04-08 The English Civil War and its aftermath was a time of human devastation political uncertainty and religious instability Amid the turmoil of those times however the Church of England also saw intense liturgical inventiveness The Directory for Public Worship Jeremy Taylor s Communion Office and Richard Baxter s Reformed Liturgy are all examples of resourceful liturgies born out of the ashes of the English Civil War The Church of England had not witnessed such liturgical innovation since Thomas Cranmer and would not see such creativity again until the end of the twentieth century at least in terms of liturgical texts In Richard Baxter s Reformation of the Liturgy Glen J Segger examines the theology and ecclesiology of Baxter s liturgical opus While never approved for public use the Reformed Liturgy remains an important and creative liturgy representative of those who fought for their Puritan convictions but lost Conversations about Divine Mystery Stephen Burns, HyeRan Kim-Cragg, 2023 Here in a fitting recognition of a life of scholarship is an esteemed collection of writing by liturgical and homiletical scholars honoring and engaging with Gail Ramshaw s work and extending it to new questions contexts and concerns The volume is organized around themes of her work lectionary patterns prayer forms and theological horizons **The Promise of Anglicanism** Robert S. Heaney, William L. Sachs, 2019 Anglicanism is one of the largest and most widely dispersed of all religious traditions How it reached this status is replete with irony and with conflict The origins of Anglicanism lie in the Church of England still its largest branch and arguably its defining center But the majority of Anglicans now reside in sub Saharan Africa and do not speak English as their primary language Given Anglicanism s roots and its integration into British colonialism the expansion of this branch of Christianity seems puzzling Moreover intramural Anglican conflict from the end of colonialism onward seemingly has torn the fabric of Anglican life It

seems problematic that this tradition and the church bodies that represent it will remain intact By looking at the Church through the lens of the biblical theme of promise this book seeks to offer neither lament for a tattered tradition nor facile hope for an expanding one It considers the key phases of Anglican history each defined by clear intentions from securing English national life to mission to finding contextual roots in various locales Whilst not denying that the ongoing contestation about the proper shape of Anglican faith and practice has become central the book highlights the emergence of fresh consensus among Anglicans centered on grassroots initiative and innovation creating informal patterns of collaboration that can transcend context and overlook divergence

Ecclesiology in the Trenches Sune Fahlgren, Jonas Idestrom, 2015-09-01

The field of ecclesiology is rapidly expanding as new material theories methods and approaches are being explored This raises important and challenging questions concerning ecclesiology as an academic discipline This book takes the reader into the trenches of ecclesiological research where the actual work of reading writing interpreting and analyzing is being done The authors reflect on fundamental questions concerning theory and method in ecclesiology in relation to concrete and actual research projects Ecclesiology is dealt with as a systematic empirical historical and liturgical discipline Essays explore theology in South Africa as shaped by apartheid liturgical theology the diaconate in an ecumenical context Free Church preachership suburban ecclesial identity medieval church practices liturgical texts church floor plans and ecclesiology as a gendered discipline Ecclesiology in the Trenches is a book for anyone who is interested and involved in ecclesiological research It is also an example of a reflective approach to academic work The book can be read as an overall argument for ecclesiology as a theological discipline with great potential for studying the church as a theologically defined empirical phenomenon

Christian Theology in the Age of Migration Peter C. Phan, 2020-01-13

We are living in the Age of Migration and migration has a profound impact on all aspects of society and on religious institutions While there is significant research on migration in the social sciences little study has been done to understand the impact of migration on Christianity This book investigates this important topic and the ramifications for Christian theology and ethics It begins with anthropological and sociological perspectives on the mutual impact between migration and Christianity followed by a re reading of certain events in the Hebrew Scripture the New Testament and Church history to highlight the central role of migration in the formation of Israel and Christianity Then follow attempts to reinterpret in the light of migration the basic Christian beliefs regarding God Christ and church The next part studies how migration raises new issues for Christian ethics such as human dignity and human rights state rights social justice and solidarity and ecological justice The last part explores what is known as Practical Theology by examining the implications of migration for issues such as liturgy and worship spirituality architecture and education
