

An aerial photograph of a city skyline, likely Los Angeles, taken from a high vantage point. The sun is setting or rising, creating a warm, golden glow over the city. The sky is a mix of blue and orange, with scattered white clouds. The city's skyscrapers and buildings are silhouetted against the bright light of the sun.

Primer Of Politics:

The Political Primer Mark E. Glogowski Ph. D.,2011-12 The kind of society you want to live in depends upon what you politically believe Each political party has embraced a Worldview of how society should be structured and how people should interact Each party is striving to create a world structured by their Worldview The goal of politics is to place individuals in positions of control over society who will create or preserve that structure That is the same goal as war to place people in charge of society who will create a structure for society that will result in the establishment of the kind of society the victors want to live in For some people how they live is worth fighting for For many how they live is worth dying for Politics is war You are the foot soldier So what do you believe The Political Primer will help you to determine what it is you politically believe and which Worldview you already embrace You will soon realize politics is not about what other people think or what other people believe Politics is about what you think and what you believe Here are three of the facts that politicians and elected officials do not want you to know 1 Politics is not complicated 2 Only four basic political philosophies exist 3 Politics is entirely about you Fundamental political concepts introduced in Part One are used to develop four political philosophies There are only four Part Two uses both trivial and controversial issues to illustrate the application of the political concepts of Part One Part Three will illustrate the power of the political concepts presented and will further clarify how politics is utilized to change the structure of society The Epilog is both a commentary and a test The test is not to determine whether you agree or disagree with the Author s commentary The test is to determine for yourself whether you now understand why you agree or disagree The Political Primer will have accomplished its goal if you know why You will have become politically astute There are four possible future worlds Which one do you want to build **UNDERSTANDING U S POLITICS** Jack

Vast-Binder,2016-04-06 If you are one of the many who are repelled by the polarized stalemate that has set in on our politics this book was written for you It begins with the common sense of politics and the very different common sense beliefs that conservative and liberal partisans carry around with them especially those outdated beliefs about economics and morality that they disagree about so much It s all written without taking sides in their endless arguing and name calling The book goes on to explain the workings of the contemporary political scene emphasizing 1 The industry of professional political consulting that has taken over 2 The critical problems that the reliance upon video media have brought to our politics 3 The emphasis on personalities and the relegation of all issues into the deep ruts of unreasoning right and left ideology In the course of the discussion readers can even determine where they might want to weigh in themselves and help change things
