Feigert, 1989 This work updates and enhances Howard Scarrow's Canada Votes 1962 with complete election data from the constituency level through the province region and nation for more than a half century of Canadian political life since the benchmark election of 1935 Frank Feigert adds a description of the circumstances of all the elections since and he gives background descriptions of the electoral systems in each province and territory The result is a compendium of data and analysis that can be found nowhere else and which will be an invaluable sourcebook for students of Canadian political behavior , Welsh Sketches, Chiefly Ecclesiastical, to the Close of the Twelfth Century. Bureau of the Census, 1877 **Kingship and Masculinity in Late Medieval England** Katherine Lewis, 2013-09-05 Kingship and Masculinity in Late Medieval England explores the dynamic between kingship and masculinity in fifteenth century England with a particular focus on Henry V and Henry VI The role of gender in the rhetoric and practice of medieval kingship is still largely unexplored by medieval historians Discourses of masculinity informed much of the contemporary comment on fifteenth century kings for a variety of purposes to praise and eulogise but also to explain shortcomings and provide justification for deposition Katherine J Lewis examines discourses of masculinity in relation to contemporary understandings of the nature and acquisition of manhood in the period and considers the extent to which judgements of a king's performance were informed by his ability to embody the right balance of manly qualities This book's primary concern is with how these two kings were presented represented and perceived by those around them but it also asks how far Henry V and Henry VI can be said to have understood the importance of personifying a particular brand of masculinity in their performance of kingship and of meeting the expectations of their subjects in this respect It explores the extent to which their established reputations as inherently manly and unmanly kings were the product of their handling of political circumstances but owed something to factors beyond their immediate control as well Consideration is also given to Margaret of Anjou's manipulation of ideologies of kingship and manhood in response to her husband's incapacity and the ramifications of this for perceptions of the relational gender identities which she and Henry VI embodied together Kingship and Masculinity in Late Medieval England is an essential resource for students of gender and medieval history **Subject Heading List** National Agricultural Library (U.S.), 1963 **History of Prince Edward Island** Duncan Campbell, 1875 This work presents a comprehensive history of Prince Edward Island including its early inhabitants and the turning over of the island in 1758 to the British and continuing through the conference in Charlottetown in the mid 1800's to discuss the Confederation of Canada The work also includes several biographical sketches of notable Prince Edward Island citizens
