Raffles Of The Eastern Isles:

Raffles of the Eastern Isles Charles Edward Wurtzburg,1984 Whether he was a schemer or a reformer is for a new generation of post colonial historians to decide but as this biography demonstrates there is no denying the considerable record of achievement of the British imperialist Sir Stamford Raffles

Raffles of the Eastern Isles : edited for publication by Clifford Witting Charles Edward Wurtzburg, **Correspondence with Charles Edward Wurtzburg and Draft of Raffles of the Eastern Isles** ,1948 Correspondence between Charles Edward Wurtzburg and John Bastin and draft of Raffles by the Eastern Isles Chapters 1 4 by Wurtzburg Race and British Colonialism in Southeast Asia, 1770-1870 Gareth Knapman,2016-10-14 The idea of race played an increasing role in nineteenth century British colonial thought For most of the nineteenth century John Crawford towered over British colonial policy in South East Asia being not only a colonial administrator journalist and professional lobbyist but also one of the key racial theorists in the British Empire He approached colonialism as a radical liberal proposing universal voting for all races in British colonies and believing all races should have equal legal rights Yet at the same time he also believed that races represented distinct species of people who were unrelated This book charts the development of Crawford s ideas from the brief but dramatic period of British rule in Java to his political campaigns against James Brooke and British rule in Borneo Central to Crawford s political battles were the debates he had with his contemporaries such as Stamford Raffles and William Marsden over the importance of race and his broader challenge to universal ideas of history which questioned the racial unity of humanity The book taps into little explored manuscripts newspapers and writings to uncover the complexity of a leading nineteenth century political and racial thinker whose actions and ideas provide a new view of British liberal colonial and racial thought *The Napoleonic War in the Dutch East Indies* ,1999 Negotiating Abolition Shawna Herzog,2020-12-10 Negotiating Abolition The Antislavery Project in the British Straits Settlements 1786 1843 explores how sex and gender complicated the enforcement of colonial anti slavery policies in the region the challenges local officials faced in identifying slave populations and how European reclassification of slave labor to systems of indenture or free labor created a new illicit trade for women and girls to the Straits Settlements of Southeast Asia Through a history of early 19th century slavery and abolition in this often overlooked region in British imperial history Herzog bridges a historiographical gap between colonial and modern slave systems She discusses the dynamic intersectionality between perceptions of race class gender and civilization within the Straits and how this informed behavior and policy regarding slavery abolition and prostitution within the settlement This book provides an important new perspective for scholars of slavery interested in

Southeast Asia British imperialism in the Indian Ocean world and Asia the East India Company in the Straits and gender and sexuality in the context of empire The Imperial Agenda Devinder Raj,2025-03-11 The Imperial Agenda The British in Malaysia from 1786 to 1957 is a look at Malaysia s imperial past through the lens of Britain in its pursuit to exert control over the Malay Peninsula Devinder Raj delves into the implications of imperialism on the Straits Settlements the Federated Malay States and the Unfederated Malay states which eventually came to be known collectively as the Federation of Malaya and then as the nation is called today Malaysia The British presence introduced systems of administrative policy and growth in terms of industries plantations and infrastructure which brought about economic advantagous Nevertheless the unsavoury aspects of this agenda which last till this day begs recognition as well such as the employment of gunboat diplomacy the use of naval strength and military intimidation to secure strategic locations along the Straits of Melaka on the islands of Penang Singapore and Pangkor Devinder discusses intertwined subjects in this section of Malaysian history such as immigration education opium trading and the practice of bringing convicts to the Straits Settlements offering a comprehensive understanding of the complex historical context in which the Imperial Agenda unfolded and impacted the country of Malaysia as she stands today **Singapore River** Stephen Dobbs,2013-11-11 For most of its modern history to speak of Singapore was to speak of the Singapore River physical centre of the city and site of the greater part of the colony s entrepot trade The river has been transformed over the last 25 years from a polluted industrial sewer choked with traffic to a clean placid waterway that forms the centrepiece of Singapore s financial civic and entertainment districts This transformation symbolizes the city state s efforts to remake itself for the 21st century Stephen Dobbs sets out the history of this waterway and of the people who made it their home and workplace He describes the tidal swamp in the early days of the British settlement where merchants ignored Raffles much vaunted city plan and built their businesses on the limited high ground along the marshy riverbanks Later even as the long distance shipping moved to new port facilities elsewhere on the island the river remained the base for a large regional trade and boatmen and businessmen struggled to cope with silting over crowding and bridges that were too low to be passed at high tide Looking at the post war years Dobbs zeros in on the boatmen who carried goods between the e godownse or warehouses along the river and the freighters lying at anchor in the roads Despite its pollution the river remained home to a vital community of coolies and tally clerks and the tumultuous urban life that swirled around them Today the waterfront community has been relocated The shophouses and warehouses along the river are now chic cafes and upmarket restaurants fish have returned to the Singapore River and urban dwellers stroll on walks along the river s edge Blending social history geography economic history and urban studies this book will be of interest to anyone wishing to understand Singapore s many transformations during the past two centuries *The First Contest for Singapore 1819-1824* Harry J. Marks,2014-10-22 The first contest for Singapore, 1819-1824 Joe Marks,2014-11-14 *Islands Magazine* ,1990-11 *Waves Across the South* Sujit Sivasundaram,2021-05-07 This is a story

of tides and coastlines winds and waves islands and beaches It is also a retelling of indigenous creativity agency and resistance in the face of unprecedented globalization and violence Waves Across the South shifts the narrative of the Age of Revolutions and the origins of the British Empire it foregrounds a vast southern zone that ranges from the Arabian Sea and southwest Indian Ocean across to the Bay of Bengal and onward to the South Pacific and the Tasman Sea As the empires of the Dutch French and especially the British reached across these regions they faced a surge of revolutionary sentiment Long standing venerable Eurasian empires established patterns of trade and commerce and indigenous practice also served as a context for this transformative era In addition to bringing long ignored people and events to the fore Sujit Sivasundaram opens the door to new and necessary conversations about environmental history the consequences of historical violence the legacies of empire the extraction of resources and the indigenous futures that Western imperialism cut short The result is nothing less than a bold new way of understanding our global past one that also helps us think afresh about our shared future Geschichte. Dictionary Of British And Irish Botanists And Horticulturalists Including plant collectors, flower painters and garden designers Ray Desmond, 2020-12-23 Over the past four centuries botanists and gardeners in the British Isles have gathered maintained and propagated many varying species of plants Their work has been documented in innumerable books and articles which are often difficult to trace The Dictionary of British and Irish Botanists and Horticulturalists represents a time saving reference source for those who wish to discover more about the lives and achievements of the horticulturalists listed The dictionary's utility comes not only from indicating the major publications of the named authors but also the location of their herbaria and manuscripts The previous 1977 edition of the Dictionary has for many years been a much used source of information for botanists botanic artists and archivists In this revised edition the scope has been expanded to include among its 13 000 entries flower painters in addition to botanical artists over 1400 entries and for the first time garden designers Finally the Dictionary should have international appeal since so many botanists and gardeners worked on collective plants overseas in particular in North America and the British Commonwealth Each entry gives wherever possible details of dates and places of birth and death educational qualifications professional posts honours and awards publications location of plant collections manuscripts drawings and portraits Its main function however is to provide further biographical references to books and periodicals Comprehensive classified indices facilitate access by professions and activities countries and plant interests **Travels, Explorations and Empires, 1770-1835, Part I Vol 2** Tim Fulford, Peter J Kitson, Tim

Youngs, 2021-12-16 A collection of work that attempts to reflect the diversity of travel literature from the late 18th and early 19th centuries This literature often reveals something of the cultural and gender difference of the travellers as well as ideas on colonialism anthropology and slavery **Asianism and the Politics of Regional Consciousness in Singapore** Leong Yew, 2013-11-20 Over the last two decades Singapore has undergone a substantial degree of Asianization Apart from

participating in the Asian values debate of the 1990s re-visioning itself as New Asia and a global Asian hub and establishing Asian identities for the commodities it consumes and produces Singapore has also repurposed its modernity cultures and ethos along similar regionalist precepts However even in recent times Singapore continues to vacillate ambivalently between identifying with and differentiating itself from Asia Responding to the challenges Singapore faces in coming to terms with its Asian identity this book examines the complex cultural social and political underpinnings that have shaped Singapore's mainstream discourse on Asia Indeed it argues that its legacy as a colonial port city the exigencies of managing the post-independence nation state and the larger forces of imperialism and capitalism all contribute to its politics of Asianism Taking a thoroughly interdisciplinary approach that spans history cultural studies postcolonialism and cultural geography Leong Yew reveals how Asia has been used to narrate Singapore's beginnings revalidate Singaporean ethnic culture and to consolidate its practices of consumption and commodification This book will be welcomed by students and scholars working across a range of fields including Asian culture and society Asian politics cultural theory and postcolonial studies
