Chinese characters in public places the import of Chinese language publications and all public forms and expressions of Chinese culture In the past century and particularly in the past decade much attention has been given to China and its rising status as a world economic power Scholarship on overseas Chinese has also shed light on their relationship with their mythic homeland China In their work scholars discovered that the Chinese of Southeast Asia have created a prominent economic political and cultural presence in countries such as Indonesia Malaysia and Singapore In the 1960s scholars such as George Kahin Ruth McVey and Benedict Anderson were drawn to the political upheavals in Indonesia and the various roles that the Chinese of Indonesia have played in the economic political and cultural arenas of their country In later years Charles Coppel and Leo Suryadinata have published extensively on various aspects of the Chinese in Indonesia such as their religious affiliations and education Despite the considerable attention given to the Chinese of Indonesia scholars have not specifically studied through the lens of the media how a certain group of Chinese Indonesians grew up in a restrictive media and cultural environment during the 33 years when Indonesia was ruled by Suharto This book takes the first step in examining this generation s collective memory of growing up in a state controlled environment that has had a significant impact on their identity formation maintenance and the re negotiation of Chineseness in their everyday lives This book will appeal especially to media cultural studies and Southeast Asian studies scholars researchers and students

**The Ultimatum** H. E. Rasske,2010-12      Hidden in Plain Sight Ellis Amdur,2018-08-09 Ellis Amdur s writing on martial arts has been groundbreaking In *Dueling with O sensei* he challenged practitioners that the moral dimension of martial arts is expressed in acts of integrity not spiritual platitudes and the deification of fantasized warrior sages In *Old School* he applied both academic rigor and keen observation towards some of the classical martial arts of Japan leavening his writing with vivid descriptions of many of the actual practitioners of these wonderful traditions His first edition of *Hidden in Plain Sight* was a discussion of esoteric training methods once common but now all but lost within Japanese martial arts These methodologies encompassed mental imagery breath work and a variety of physical techniques offering the potential to develop skills and power sometimes viewed as nearly superhuman Usually believed to be the provenance of Chinese martial arts Amdur asserted that elements of such training still remain within a few martial traditions literally hidden in plain sight Two thirds larger this second edition is so much more Amdur digs deep into the past showing the complexity of human strength its adaptation to varying lifestyles and the nature of physical culture pursued for martial ends Amdur goes into detail concerning varieties of esoteric power training within martial arts culminating in a specific methodology known as six connections or internal strength With this discussion as a baseline he then discusses the transfer of esoteric power training from China to various Japanese jAAjutsu systems as well as Japanese swordsmanship emanating from the Kurama traditions Finally he delves into the innovative martial tradition of DaitAAryAA and its most important offshoot aikidAA showing how the mercurial complicated figures of Takeda Sokaku and Morihei Ueshiba were less the embodiment of something new than a reimagining of their past
