The Inner World of Trauma Donald Kalsched,2014-02-25 Donald Kalsched explores the interior world of dream and fantasy images encountered in therapy with people who have suffered unbearable life experiences He shows how in an ironical twist of psychical life the very images which are generated to defend the self can become malevolent and destructive resulting in further trauma for the person Why and how this happens are the questions the book sets out to answer Drawing on detailed clinical material the author gives special attention to the problems of addiction and psychosomatic disorder as well as the broad topic of dissociation and its treatment By focusing on the archaic and primitive defenses of the self he connects Jungian theory and practice with

contemporary object relations theory and dissociation theory At the same time he shows how a Jungian understanding of the universal images of myth and folklore can illuminate treatment of the traumatised patient Trauma is about the rupture of those developmental transitions that make life worth living Donald Kalsched sees this as a spiritual problem as well as a psychological one and in *The Inner World of Trauma* he provides a compelling insight into how an inner self care system tries to save the personal spirit

Post-Jungian Criticism James S. Baumlin, Tita French Baumlin, George H. Jensen, 2004-02-01 This groundbreaking collection brings the range and diversity of post Jungian

thought into the realm of contemporary literary and cultural criticism These essays explore expand critique and apply post Jungian critical theory as they revisit and reread Jung s own writings from numerous perspectives No longer treated as a source of clear unequivocal authoritative pronouncement Jung s writings are themselves subjected to critical deconstructive readings and several of the essays confront head on Jung s evident racism antifeminism anti Semitism and political conservatism While not downplaying such charges the contributors outline an alternative post Jungian theory responsive to contemporary feminist postcolonial and poststructural concerns The result is not just a critical reinterpretation but more important a regeneration of Jungian thought Transformation of the Psyche Joseph L. Henderson,Dyane N.

Sherwood,2004-06-02 Written by Joseph L Henderson one of the first generation of Jungian analysts and Dyane N Sherwood a practising analyst this book is a striking and unique contribution to the resurgence of interest in alchemy for its way of representing the phenomenology of creative experience Transformation of the Psyche is organized around 22 illuminated paintings from the early Renaissance alchemical manuscript the Splendor Solis and is further illustrated by over 50 colour figures The images of the Splendor Solis are possibly the most beautiful and evocative alchemical paintings to be found anywhere and they are widely known to students of alchemy Jung reproduced several Splendor Solis images in his works yet prior to this book no one has explored the symbolism of the paintings as a series in relation to the process of depth psychological transformation This book is the first scholarly study of the paintings in their entirety and of the mythological and historical allusions contained within the images Transformation of the Psyche does not simply explain or analyze the pictures but invites the reader to participate in the creative and transforming process evoked by these images Transformation of the Psyche is a truly unique book that will be of immense value and interest to analysts and psychotherapists as well as scholars of mediaeval and renaissance intellectual history and students of spiritual disciplines

Soul Loss and the Shamanic Story Michael Berman,2009-03-26 Stories from various cultures and periods of time can be identified which deal with a concept of soul loss that is essentially shamanic In shamanism soul loss is the term used to describe the way parts of the psyche become detached when we are faced with traumatic situations In shamanic terms these split off parts can be found in non ordinary reality and are only accessible to those familiar with its topography Case studies are presented to show how the way soul loss is dealt with by indigenous shamans differs from the way it is treated by neo shamanic practitioners Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables and fables However the definitions of the terms have a tendency to overlap making it difficult to classify and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that contains a number of the elements typical of such a journey Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with soul loss and examples are presented and analysed to support this hypothesis **Jungian**

Psychology in Perspective Mary Ann Mattoon, 1985 **Digesting Jung** Daryl Sharp, 2001 This book grew out of the author's desire to pinpoint key passages in Jung's writings that have nourished him for years. It provides readers with the main ingredients of Jung's work and suggests how they might flavor a life in search of meaning. Each chapter is headed by an appetizer which is then fleshed out by the author's commentary, an elucidation or experiential interpretation, sometimes both meant to stimulate the reader to ruminate on the unconscious factors that influence us all. Those seeking a more robust meal will be amply rewarded by following up the references.

Natural Spirituality Joyce Rockwood Hudson, 2016-12-06 In this revised edition of *Natural Spirituality: A Handbook for Jungian Inner Work in Spiritual Community*, Joyce Rockwood Hudson moves Jungian dream work from the professional world of the analyst's office into the everyday world of spiritual seekers in local community, both inside and outside the institutions of traditional religion. For those willing to meet the divine in the natural flow of life, this book offers an opportunity to embark upon the spiritual path of individuation, whether traveling alone or with the support of a group. With clarity and simplicity, Joyce Hudson puts into her reader's hands the tools for inner work that Carl Jung offered to spiritual seekers everywhere.
