Beyond Jerusalem: Music in the Women's Institute, 1919-1969 Lorna Gibson, 2017-07-05 Music in the Women's Institute has become stereotyped by the ritualistic singing of Jerusalem at monthly meetings Indeed Jerusalem has had an important role within the organization and provides a valuable means within which to assess the organization's relationship with women's suffrage and the importance of rurality in the Women's Institute's identity However this book looks beyond Jerusalem by examining the full range of music making within the organization and locates its significance within a wider historical cultural context The Institute's promotion of conducting a regular part of its musical activity since the 1930s is discussed within the context of embodying overtly feminist sentiments Lorna Gibson concludes that a redefinition of the term feminism is needed and the concept of gendered spheres of conducting provides a useful means of understanding the Institute's policy The organization's promotion of folk song is also examined and reveals the Institute's contribution to the Folk Revival as well as providing a valuable context within which to understand the National Federation's first music commission Ralph Vaughan Williams's Folk Songs of the Four Seasons 1950 This work and the Institute's second commission Malcolm Williamson's The Brilliant and the Dark 1969 are examined with the context of the organization's music policy In addition to discussing the background to the works issues of critical reception are addressed The book concludes with an Epilogue about the National Society Choir later known as the Avalon Singers which tested the organization's commitment to amateur music making The book is the result of meticulous work undertaken in the archives of the National Federation the BBC Written Archives Centre the V A archives the Britten Pears Library the Ralph Vaughan Williams Library the Women's Library and the Newspaper Library

The Matter of Song in Early Modern England Katherine R. Larson,2019-08-29 Given the variety and richness of the sixteenth and seventeenth century English songscape it might seem unsurprising to suggest that early modern song needs to be considered as sung When a reader encounters a song in a sonnet sequence a romance and even a masque or a play however the tendency is to engage with it as poem rather than as musical performance Opening up the notion of song from a performance based perspective The Matter of Song in Early Modern England considers the implications of reading song not simply as lyric text but as an embodied and gendered musical practice Animating the traces of song preserved in physiological and philosophical commentaries singing handbooks poetic treatises and literary texts ranging from Mary Sidney Herbert s Psalmes to John Milton s Comus the book confronts song s ephemerality its lexical and sonic capriciousness and its airy substance These features can resist critical analysis but were vital to song s affective workings in the early modern period The volume foregrounds the need to attend much more closely to the embodied and musical dimensions of literary production and circulation in sixteenth and seventeenth century England It also makes an important and timely contribution to our understanding of women s engagement with song as writers and as performers A companion recording of fourteen songs featuring Larson soprano and Lucas Harris lute brings the project s innovative methodology and central case studies to life
