Rediscovery Of Man The:

The Rediscovery of Man Cordwainer Smith, 2010 Welcome to the strangest most distinctive future ever imagined by a science fiction writer An insterstellar empire ruled by the mysterious Lords of the Instrumentality whose access to the drug stroon from the planet Norstrilia confers on them virtual immortality A world in which wealthy and leisured humanity is served by the underpeople genetically engineered animals turned into the semblance of people A world in which the great ships which sail between the stars are eventually supplanted by the mysterious instantaneous technique of planofforming A world of wonder and myth and extraordinary imagination *The Rediscovery of Man* Henry C. Link, 1938 *The Science Fiction of Cordwainer Smith* Karen L. Hellekson, 2017-07-06 This critical work concentrates on the science fiction writings of Paul Linebarger who wrote under the pseudonym Cordwainer Smith as well as other pseudonyms he created to reflect his different writing styles His writings give voice to concerns about humanity and personal struggle his ideas about love loss alienation and psychic pain continue to resonate today This work begins with a brief biographical sketch of Cordwainer Smith linking elements of his past to his writing and focusing on his contributions to science fiction as well as his concern with humanity Also discussed are Smith s published and unpublished novel length non science fiction his revision process the true man underpeople dichotomy in his published and unpublished short fiction and his only published novel length science fiction work Norstrilia The Multiformity of Man Eugen Rosenstock-Huessy, 2013-04-08 Endorsements The historical nature of man is the aspect of reality about which we have been basically and emphatically instructed in the epoch of thought beginning with Hegel Rosenstock Huessy has concretized this teaching in so living a way as no other teacher before him has done Martin Buber Rosenstock Huessy continually astonishes one by his dazzling and unique insights WH Auden He was a thinker of startling power and originality in my view an authentic genius of whom no age produces more than a handful Page Smith Rosenstock Huessy s is a powerful and original mind What is most important in his work is the understand ing of the relevance of traditional value to a civilization still undergoing revolutionary transformations and this contribution will gain rather than lose significance in the future Lewis Mumford About the Contributor s Eugen Rosenstock Huessy 1888 1973 was a sociologist and social philosopher who along with his close friend Franz Rosenzweig and Ferdinand Ebner and Martin Buber was a major exponent of speech thinking or dialogicism The central insight of speech thinking is that speech or language is not merely or even primarily a descriptive act but a responsive and creative act which is the basis of our social existence The greater part of Rosenstock Huessy s work was devoted to demonstrating how speech language through its unpredictable fecundity expands our powers and through its inescapably historical forming character also binds them Born in Berlin Germany into a non observant Jewish family he converted to Christianity in his late teens He met and married Margrit H ssy in 1914 Rosenstock Huessy served as an officer in the German army during World War I He then pursued an academic career in Germany as a specialist in medieval law which was disrupted by the rise of Nazism In 1933 after Adolf Hitler

became Chancellor of Germany he immigrated to the United States where he began a new academic career initially at Harvard University and then at Dartmouth College where he taught from 1935 to 1957
