M. Mackintosh,2015-10-16 In 2007 2008 the global financial and economic system was in turmoil This volume focuses on how the global financial architecture was redesigned following the financial crash of 2008 Its central claim is that the reforms constituted a paradigm shift a move from the dominance of market authority to the re assertion of state authority over financial markets and actors The book underscores that the cycle of boom and bust of crisis response reform and eventual relapse are not only economic but also conceptual and ideological Ideas matter in the political and economic calculus of policy making Economies are underpinned by and linked to ideological narrative a prevailing policy consensus that places

limits on policy actions and options and constitutes a dominant worldview or paradigm To become real to be lasting to impact actual policy choices and market actor decisions a re regulatory paradigm shift cannot just be conceptual or ideological It must also be present in the institutional constructs and policy decisions that flow from the ideological regulatory shift To gauge the fluctuating strength of the paradigm shift the book addresses the G20 summit process the creation of the FSB the policy output of the new forums for signs of permanency strength and possible effectiveness This work presents important new material on the financial crisis and the regulatory response to it which will be valuable for researchers teachers and students alike

**The 2014 Redesign of the Survey of Income and Program Participation** National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Panel on the Review and Evaluation of the 2014 Survey of Income and Program Participation: Content and Design, 2018-01-19 The Survey of Income and Program Participation SIPP is a national longitudinal household survey conducted by the Census Bureau SIPP serves as a tool to evaluate the effectiveness of government sponsored social programs and to analyze the impacts of actual or proposed modifications to those programs SIPP was designed to fill a need for data that would give policy makers and researchers a much better grasp of how effectively government programs were reaching their target populations how participation in different programs overlapped and to what extent and under what circumstances people transitioned into and out of these programs SIPP was also designed to answer questions about the short term dynamics of employment living arrangements and economic well being The Census Bureau has reengineered SIPP fielding the initial redesigned survey in 2014 This report evaluates the new design compared with the old design It compares key estimates across the two designs evaluates the content of the redesigned SIPP and the impact of the new design on respondent burden and considers content changes for future improvement of SIPP
