Reemergence Of Fascism:

Fascism's Return Richard Joseph Golsan, 1998-01-01 The past fifteen years have witnessed the renewed presence of fascism in European political and cultural life In addition there have been scandals surrounding the fascist pasts of numerous renowned intellectuals including Martin Heidegger Paul de Man and Maurice Blanchot In *Fascism's Return* eleven leading American and European scholars examine the resurgence of fascism from many angles providing an essential and timely view of this troubling moment in European political cultural and intellectual history Intellectual and public scandals surrounding the fascist past including the highly publicized Barbie and Touvier trials in France are addressed Other writers focus on controversial efforts to revise the historical representation of fascism in Germany and France The reemergence of the new fascist movements and ideologies in various European nations is also examined A final essay considers the controversial U S support during the 1980s of Central American dictatorships As editor Richard J Golsan notes the essays in this volume illustrate a multitude of ways in which fascism continues to make its presence felt in western democratic societies erupting with disturbing frequency as a return of the repressed in judicial and artistic scandals as well as in historical critical and political debates

Carl Schmitt's Critique of Liberalism John P. McCormick, 1997 This is the first in depth critical appraisal in English of the political legal and cultural writings of Carl Schmitt perhaps this century's most brilliant critic of liberalism It offers an assessment of this most sophisticated of fascist theorists without attempting either to apologise for or demonise him Schmitt's Weimar writings confront the role of technology as it finds expression through the principles and practices of liberalism Contemporary political conditions such as disaffection with liberalism and the rise of extremist political organizations have rendered Schmitt's work both relevant and insightful John McCormick examines why technology becomes a rallying cry for both right and left wing intellectuals at times when liberalism appears anachronistic and shows the continuities between Weimar's ideological debates and those of our own age

How to Read Like an Anti-Fascist Annette Wannamaker, 2025-06-03 On the urgent need to promote critical reading skills amidst rising authoritarianism Children's author Philip Pullman famously said that There are some themes some subjects too large for adult fiction they can only be dealt with adequately in a children's book While the recent rise of fascist ideology in the United States might seem a subject too large and adult to be dealt with in literature for children or teens Annette Wannamaker proposes in *How to Read Like an Anti Fascist* that there are books aimed at future generations which critique and counter fascist propaganda and mythmaking Works of literature can reflect fascist ideology and promote it as well but Wannamaker proposes that some books also offer tools for understanding it Books written for beginners can introduce readers to complex concepts break big ideas into manageable parts and teach readers how to read the world outside of the book Antifascist books are ones that analyze fascistic rhetoric and storytelling educate about America's long history of authoritarianism and highlight various facets of fascism such as scapegoating others and reasserting patriarchal power From *The Emperor's New Clothes* and the

tales of Superman to Mildred Taylor's *Roll of Thunder Hear My Cry* the 1619 Project and contemporary works such as *All Boys Aren't Blue* and *Donald Builds the Wall* Wannamaker shows how the ethos of authoritarianism is characterized by a strict hierarchy that places children at its very bottom In doing so she argues convincingly that books written for young people can provide a particular view from the bottom a perspective well suited to interrogating systems of power

Enough Already! A Socialist Feminist Response to the Re-emergence of Right Wing Populism and Fascism in Media Faith Agostinone-Wilson, 2020-01-20 This text explores the reassertion of right wing populist and fascist ideologies as presented and distributed in the media In particular attacks on immigrants women minorities and LGBTQI people are increasing inspired by the election of politicians who openly support authoritarian discourse and scapegoating More troubling is how this discourse is inscribed into laws and policies Despite the urgency of the situation the Left has been unable to effectively respond to these events from liberals insisting on hands off free speech policies including covering both sides of the issue to socialists who utilize a tunnel vision focus on economic issues at the expense of women and minorities In order to effectively resist right wing movements of this magnitude a socialist Marxist feminist analysis is necessary for understanding how racism sexism and homophobia are conduits for capitalism not just identity issues Topics addressed in this text include an overview of dialectical materialist feminism and its relevance and a review of characteristics of authoritarian populism and fascism Additionally the insistence on a colorblind conceptualization of the working class is critiqued with its detrimental effects on moving resistance and activism forward This was a key weakness with the Bernie Sanders campaign which is discussed Online environments and their alt right discourse function are used as an example of the ineffectiveness of e libertarianism which has prioritized hands off administration allowing right wing discourse to overcome many online spaces Other topics include the emergence of the fetal personhood construct in response to abortion rights and the rejection of science and expertise

The Rise of Ecofascism Sam Moore, Alex Roberts, 2022-01-26 The world faces a climate crisis and an ascendant far right Are these trends related How does the far right think about the environment and what openings does the coming crisis present for them This incisive new book traces the long history of far right environmentalism and explores how it is adapting to the contemporary world It argues that the extreme right after years of denying the reality of climate change are now showing serious signs of reversing their strategy A new generation of far right activists has realized that impending environmental catastrophe represents their best chance yet for a return to relevance In reality however their noxious blend of conspiracy hatred and violence is no solution at all it is the eco socialism of fools Only a real commitment to climate justice can save us and stop the far right in its tracks No one interested in the struggle against right wing extremism and the crusade for climate justice can afford to miss this trenchant critique of burgeoning ecofascism

Assault on Democracy Kurt Weyland, 2021-02-04 Why did democratization suffer reversal during the interwar years while fascism and authoritarianism spread across many European countries *Hitler's Rival*

Russel Lemmons,2013-01-01 Describes the life of German politician and activist Ernst Th almann who once led the German Communist Party but lost the 1932 presidential election to Adolf Hitler and examines how his legacy became one of the most important propaganda tools in central Europe Fascism and Neofascism E. Weitz,A. Fenner,2016-09-27 The dramatic transformations of the the 1990s the end of the Cold War the establishment of political liberties and market economies in Eastern Europe German unification quickly led commentators to proclaim the end of all ideologies and the complete triumph of liberal capitalism Just as quickly however right wing extremism began a surge in Europe that has not significantly abated to this day Fascism and Neofascism is a collection of essays that is distinctive in two important ways First unlike most volumes which cover either historical fascism or the recent radical right Fascism and Neofascism spans both periods Secondly this volume also aims to bring newer modes of inquiry rooted in cultural studies into dialogue with more traditional ways of viewing fascism The editors approach is deliberately interdisciplinary even eclectic The Revival of Right Wing Extremism in the Nineties Peter H. Merkl,Leonard Weinberg,2014-01-14 Most studies of the radical right concentrate on movements in a single country neglecting to some extent the international dimensions of right wing extremism Here Merkl and Weinberg adopt a comparative perspective concentrating on the revival of the right across a variety of countries

Anti-Europeanism, Populism and European Integration in a Historical Perspective Andrea Guiso,Daniele Pasquinucci,2024-06-14 This book explores the long term origins of populist Euroscepticism Taking a historical perspective to move beyond explaining present day expressions of opposition to the European Union in isolation this book reveals the historical sedimentation of the several ways and forms taken over decades by opposition towards European integration As such this approach with contributions from across disciplines explains not just the past of Euroscepticism but also its current nature and future prospects This book will be of key interest to scholars and students of European History European Politics and Studies and more broadly to Political Science International Relations the Humanities and Social Sciences

Breakdown and rebirth Thomas Garden Barnes,Gerald D. Feldman,1982 *Threats to Democracy* Franco Ferraresi,2012-09-17 This book represents the first systematic research by a social scientist on the radical right wing movements in Italy since 1945 During the heyday of right wing violence between 1969 and 1980 street aggressions attacks and murders were commonplace These bloody episodes were assumed to be the work of fanatical bands of political soldiers and urban warriors loosely controlled by secret services and other covert groups which used them as part of a strategy of tension pursued in domestic and international circles Franco Ferraresi here acknowledges that these rightist groups were in fact permitted a certain amount of freedom and even in some cases actually aided in the hope that revulsion at terrorist tactics would have the effect of mobilizing public opinion in favor of existing political arrangements However he also studies the extent to which they operated as autonomous units while he carefully considers the political heritage the doctrines and the ideology that motivated them With the decline of violent activity on both extremes of the political spectrum in the early

1980s the theory and practice so comprehensively discussed by Ferraresi seemed to have entered a dormant stage Ferraresi however places in context the recent resurgence of neo fascist forces in Italy and of the so called New Right throughout Europe together with the rise of fundamentalism in many parts of the world *Understanding and Countering Fascist Movements* Joan Braune,2023-12-22 This book is based on the premise that understanding fascism is crucial for defeating it Understanding and Countering Fascist Movements suggests fascism must be understood according to two dimensions First fascism is a social movement seeking power always already connected to sources of power Hence fascism cannot be defeated by policing it as a crime problem nor therapeutically treating it as a pathology of mental health Second fascists have cognitive and emotional needs they are seeking to fulfill through their participation in the movement but the presence of these motivations must be held in tension with the fact that fascists are responsible for their choices and that these individual motivations also exist in a wider social context of capitalism and systems of supremacy The book opens by examining some psychological elements of recruitment and disengagement from fascist movements before addressing broader social narratives concluding with the limitations of an approach that is grounded in the national security state that relies on individualized perpetrator centered interventions Rejecting centrist paradigms that see fascism as extremism or accelerationism Braune argues that fascism must be addressed in its specificity and uniqueness as an ideology and movement Ultimately she argues fascism can only be defeated by countervailing social movements that not only demand radical social change but offer alternative spaces of belonging community care and the search for meaning Understanding and Countering Fascist Movements is a philosophical contribution to antifascist theory and practice that will be appreciated by academics students and activists concerned about fascism today *Donatello Among the Blackshirts* Claudia Lazzaro,Roger J. Crum,2005 Focuses on the appropriation of visual elements of the classical medieval and Renaissance past in Mussolini's Italy *Researching the Far Right* Stephen D. Ashe,Joel Busher,Graham Macklin,Aaron Winter,2020-11-09 Researching the Far Right brings together researchers from across the humanities and social sciences to provide much needed discussion about the methodological ethical political personal practical and professional issues and challenges that arise when researching far right parties their electoral support and far right protest movements Drawing on original research focussing mainly on Europe and North America over the last 30 years this volume explores in detail the opportunities and challenges associated with using ethnographic interview based quantitative and online research methods to study the far right These reflections are set within a wider discussion of the evolution of far right studies from a variety of disciplinary viewpoints within the humanities or the social sciences tracing the key developments and debates that shape the field today This volume will be essential reading for students and scholars with an interest in understanding the many manifestations of the far right and cognate movements today It also offers insight and reflection that is likely to be valuable for a wider range of students and scholars across the humanities and social sciences who are carrying out work of an

ethically politically personally practically and professionally challenging nature Politics in Western Europe Gordon Smith,1980 Morality Wars Charles Derber,Yale R. Magrass,2015-11-17 Is patriotism a good thing in an empire Did General Petraeus betray us or did Moveon Does morality often serve immoral purposes Morality Wars shows us how to understand the subtext of these questions and of all the debates about moral values and liberal versus conservative ideology Derber and Magrass show that the moral problem today is not just lying but immoral morality doing evil in the name of good e g Bush preemptively invading Iraq to spread liberty The authors explore three ancient codes of immoral morality frighteningly resurrected in America today those of empire the politically correct and the born again Although the right today has recrafted historic arguments that empires bring peace and fundamentalists battle moral decay the authors show the Democratic Party and the left have their own IM with Democrats supporting empire and the left its own political correctness America s political divide today is a backlash to the progressive revolution of the 1960s and 1970s secular antiwar and feminist that created a radical break from traditional values and set the stage for current morality wars In the spirit of de Tocqueville this powerful book offers a rich and vivid portrait of America s political landscape exploring ideas that can help move the nation to a new morality and politics Atkinson's Evening Post, and Philadelphia Saturday News ,1928 **The Saturday Evening Post** ,1928 The Era of Authoritarian Neoliberalism Ernesto Gallo,2025-07-28 We live in an era of crises How should we address them Many turn to experts particularly economists or technologists Others look to strong authoritarian leaders as seen in China or Russia Some advocate a return to the nation state rejecting globalization and targeting immigrants But what about democracy Are we prepared to abandon it This book argues that since the 1970s neoliberalism has increasingly favored authoritarian solutions It s time to break this cycle and strive for a more just fair green and equitable planet

The book delves into Reemergence Of Fascism. Reemergence Of Fascism is a vital topic that must be grasped by everyone, from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Reemergence Of Fascism, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:

- Chapter 1: Introduction to Reemergence Of Fascism
- Chapter 2: Essential Elements of Reemergence Of Fascism
- Chapter 3: Reemergence Of Fascism in Everyday Life
- Chapter 4: Reemergence Of Fascism in Specific Contexts
- Chapter 5: Conclusion

2. In chapter 1, this book will provide an overview of Reemergence Of Fascism. The first chapter will explore what Reemergence Of Fascism is, why Reemergence Of Fascism is vital, and how to effectively learn about Reemergence Of Fascism.
3. In chapter 2, the author will delve into the foundational concepts of Reemergence Of Fascism. The second chapter will elucidate the essential principles that need to be understood to grasp Reemergence Of Fascism in its entirety.
4. In chapter 3, this book will examine the practical applications of Reemergence Of Fascism in daily life. This chapter will showcase real-world examples of how Reemergence Of Fascism can be effectively utilized in everyday scenarios.
5. In chapter 4, this book will scrutinize the relevance of Reemergence Of Fascism in specific contexts. This chapter will explore how Reemergence Of Fascism is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, this book will draw a conclusion about Reemergence Of Fascism. The final chapter will summarize the key points that have been discussed throughout the book.

The book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Reemergence Of Fascism.
