Ben Jonson in Context Julie Sanders,2010-06-03 This collection highlights exciting new areas of research related to Ben Jonson including book history social history and cultural geography Localizing Caroline Drama A. Zucker,A.

Farmer, 2006-10-30 This book redefines the plays and theatrical culture of the years 1625 to 1642 as something more than simply post-Shakespearean in character. Scholars reveal the drama's mixture of political engagement, urbane cosmopolitanism, and commercial ingenuity. They urge us to recalibrate our histories to account for the innovations of the Caroline period. **Neo-historicism** Robin Headlam Wells, Glenn Burgess, Rowland Wymer, 2000 Essays on English Renaissance culture make a major contribution to the debate on historical method. Goddesses and Queens Annaliese Connolly, Lisa Hopkins, 2021-06-15 The visual images of Queen Elizabeth I displayed in contemporary portraits and perpetuated and developed in more recent media such as film and television make her one of the most familiar and popular of all British monarchs. This collection of essays examines the diversity of the queen's extensive iconographical repertoire, focusing on both visual and textual representations of Elizabeth not only in portraiture and literature but also in contemporary sermons, speeches, and alchemical treatises. The collection broadens current critical thinking about Elizabeth as each of the essays contributes to the debate about the ways in which the queen's developing iconicity was not simply a celebratory mode but also encoded criticism of her. Each of these essays explains the ways in which the varied representations of Elizabeth reflect the political and cultural anxieties of her subjects. **Staging Favorites** Francisco Gómez Martos, 2020-09-20 Staging Favorites explores theatrical representations of royal favorites in Spanish, French, and English dramatic production during the late sixteenth and seventeenth centuries. During this time, the courts of Spain, France, and England were dominated by all-powerful ministers who enjoyed royal favor. The politics of royal favoritism gave rise to a significant group of plays which constitutes the subject of this book. While scholars have studied this group partially and separately in national context, Staging Favorites approaches these dramas about favorites from a wider European point of view and performs comparative analyses of a number of plays, including *La paciencia en la fortuna*, *Le Favori*, *ou la Coquette*, and *Sejanus His Fall*, and adds new detail and differentiation to the early modern perception and representation of the royal favorite. This book will appeal to scholars and students interested in early modern literature, history of theater, and cultural history. **A Defence of Pretence** Indira Ghose, 2025-12-02 How the drama of Shakespeare's time demonstrates the tensions within civility. Is civility merely a matter of reinforcing status and excluding others? Or is it a lubricant in a polarised world enabling us to overcome tribal loyalties and cooperate for the common good? In *A Defence of Pretence*, Indira Ghose argues that it is both. Ghose turns to the drama of Shakespeare's time to explore the notion of civility. The theatre, she suggests, was a laboratory where many of the era's conflicts played out. The plays test the precepts found in treatises on civility and show that in the complexity and confusion of human life, moral purity is an illusion. We are always playing roles. In these plays, as in social life, pretence is inescapable. Could it be a virtue? Civility, Ghose finds, is radically ambiguous. The plays of Shakespeare, Jonson, and Middleton, grappling with dissimulation, lies, and social performance, question the idea of a clear-cut boundary between sincerity and dissembling, between truth and lies. What is decisive is the use to which our play-acting is

put A pretence of mutual respect might serve an ethical end to foster a sense of common purpose In life as in drama the concept of the common good might be a fiction but one that is crucial for human society

Sovereigns and Subjects in Early Modern Neo-Senecan Drama Daniel Cadman, 2016-03-09 Sovereigns and Subjects in Early Modern Neo Senecan Drama examines the development of neo Senecan drama also known as closet drama during the years 1590 1613 It is the first book length study since 1924 to consider these plays the dramatic works of Mary Sidney Samuel Daniel Samuel Brandon Fulke Greville Sir William Alexander and Elizabeth Cary along with the Roman tragedies of Ben Jonson and Thomas Kyd as a coherent group Daniel Cadman suggests these works interrogate the relations between sovereigns and subjects during the early modern period by engaging with the humanist discourses of republicanism and stoicism Cadman argues that the texts under study probe various aspects of this dynamic and illuminate the ways in which stoicism and republicanism provide essential frameworks for negotiating this relationship between the marginalized courtier and the absolute sovereign He demonstrates how aristocrats and courtiers such as Sidney Greville Alexander and Cary were able to use the neo Senecan form to consider aspects of their limited political agency under an absolute monarch while others such as Brandon and Daniel respond to similarly marginalized positions within both political and patronage networks In analyzing how these plays illuminate various aspects of early modern political culture this book addresses several gaps in the scholarship of early modern drama and explores new contexts in relation to more familiar writers as well as extending the critical debate to include hitherto neglected authors

At the Borders of the Human Susan Wiseman, Erica Fudge, Ruth Gilbert, 2016-07-27 What is what was the human This book argues that the making of the human as it is now understood implies a renegotiation of the relationship between the self and the world The development of Renaissance technologies of difference such as mapping colonialism and anatomy paradoxically also illuminated the similarities between human and non human This collection considers the borders between humans and their imagined others animals women native subjects machines It examines border creatures hermaphrodites wildmen and cyborgs and border practices science surveying and pornography
