Katz, 1978 *The Changing Role in Children's Work in Public Libraries*, 1977 *Library Work*, 1912 Encyclopedia of Library History Wayne A. Wiegand, Donald G. Jr. Davis, 2015-01-28 First Published in 1994 This book focuses on the historical development of the library as an institution Its contents assume no single theoretical foundation or philosophical perspective but instead reflect the richly diverse opinions of its many contributors This text is intended to serve as a reference tool for undergraduate and graduate students interested in library history for library school educators whose teaching requires knowledge of the historical development of library institutions services and user groups and for practicing library professionals **Ontario Library Review and Book Selection Guide**, 1918 New Frontiers in Public Library Research Carl Gustav Johannsen, Leif Kajberg, 2005-03-21 Pulls together research results from Scandinavian public library researchers on current public library issues including how public libraries are facing and dealing with the various professional challenges of modern society Contributors tackle topics as wide ranging as the challenges of serving a multi cultural society new library media and services internet services and new trends in library management This collection of articles also includes library history works focusing on the relationship between public library ideas and practices in the USA and the Scandinavian countries **Annual Report** District of Columbia. catalog or a web search engine and providing the patron with the results of the search Calling for a re intellectualization of reference librarianship this book suggests another approach to providing quality reference service reading The authors surveyed both academic reference librarians and public library reference personnel in the United States and Canada about their reading habits From the 950 responses the authors present findings about the extent to which librarians read newspapers periodicals fiction and nonfiction and recount and analyze stories about how reading has made them better librarians The authors also report that North American professors in the humanities and social sciences believe that the best reference librarians are those who have wide ranging subject based knowledge as opposed to the type of process based functional knowledge that is increasingly dominating the curricula of many Library and Information Science programs
