Reflections Of A Neoconservative Looking Back Looking Ahead:

Neoconservatism and American Foreign Policy Danny Cooper, 2010-11-10 The purpose of this book is to critically engage with a set of ideas and beliefs that define the neoconservative approach to American foreign policy and illuminate many of the core foreign policy debates that have taken place within the United States over the past several years during the administrations of both George W Bush and Barack Obama

America Right Or Wrong Anatol Lieven, 2012-09-27 This examination of the American national character provides a sobering look at the course foreign policy has taken since 9 11 revealing how the combination of two contradictory brands of nationalism have undermined American security and the war against terrorism Publisher s description

Reflections of a Neoconservative Irving Kristol, 1986

The War for Muslim Minds Gilles Kepel, 2006-04-30 The events of September 11 2001 forever changed the world as we knew it In their wake the quest for international order has prompted a reshuffling of global aims and priorities In a fresh approach Gilles Kepel focuses on the Middle East as a nexus of international disorder and decodes the complex language of war propaganda and terrorism that holds the region in its thrall The breakdown of the Israeli Palestinian peace process in 2000 was the first turn in a downward spiral of violence and retribution Meanwhile a neo conservative revolution in Washington unsettled U S Mideast policy which traditionally rested on the twin pillars of Israeli security and access to Gulf oil In Saudi Arabia and Afghanistan a transformation of the radical Islamist doctrine of Bin Laden and Zawahiri relocated the arena of terrorist action from Muslim lands to the West Islamist radicals proclaimed jihad against their enemies worldwide Kepel examines the impact of global terrorism and the ensuing military operations to stem its tide He questions the United States ability to address the Middle East challenge with Cold War rhetoric while revealing the fault lines in terrorist ideology and tactics Finally he proposes the way out of the Middle East quagmire that triangulates the interests of Islamists the West and the Arab and Muslim ruling elites Kepel delineates the conditions for the acceptance of Israel for the democratization of Islamist and Arab societies and for winning the minds and hearts of Muslims in the West

The Rise of Common-Sense Conservatism Antti Lepistö, 2021-04-20 In the years following the election of Donald Trump a victory that hinged on the votes of white Midwesterners who were both geographically and culturally distant from the media s coastal concentrations there has been a flurry of investigation into the politics of the so called common man The notion that the salt of the earth purity implied by this appellation is best understood by conservative politicians is no recent development though As Antti Lepistö shows in his timely and erudite book the intellectual wellsprings of conservative common sense discourse are both older and more transnational than has been thought In considering the luminaries of American neoconservative thought among them Irving Kristol Gertrude Himmelfarb James Q Wilson and Francis Fukuyama Lepistö argues that the centrality of their conception of the common man accounts for the enduring power and influence of their thought Intriguingly Lepistö locates the roots of this conception in the eighteenth century Scottish Enlightenment revealing how leading neoconservatives weaponized the ideas

of Adam Smith Thomas Reid and David Hume to denounce postwar liberal elites educational authorities and social reformers Their reconfiguration of Scottish Enlightenment ideas ultimately gave rise to a defining force in modern conservative politics the common sense of the common man Whether twenty first century politicians who invoke the grievances of the people are conscious of this unusual lineage or not Lepist explains both the persistence of the trope and the complicity of some conservative thinkers with the Trump regime

The Transformation of American Politics David M. Ricci, Professor
David M Ricci, 1993-01-01 Washington think tanks such as the Brookings Institution the American Enterprise Institute and the Heritage Foundation have become so large and influential in recent years that they now constitute virtually a new branch of the political system In this engrossing and lively book David M Ricci brilliantly explores the parallel and convergent social economic and political trends within America that have transformed government in Washington and led to the development and prestige of these public policy research centers Ricci argues that since the late 1960s Americans have lost sight of the familiar guidelines that used to help them assess issues and have become more hospitable to think tank research and advice He examines the flood of policy relevant information that has resulted from the growth of expertise and the advent of big government the confusion over national goals that comes from the decline of the Protestant ethic and the empowerment of minorities the growing influence of television and its focus on instant testimony from experts political changes such as the decline of parties the move to an open Congress and the growth of an independent presidency the pervasive power of modern marketing and much more According to Ricci policy ideas generated by think tank research and commentary are helpful in providing greater objectivity and political insight not only because of their general reliability but also because in their ideological variety think tanks generate a substantial range of policy proposals giving voice to a healthy factional pluralism and facilitating a constant testing of ideas In today s dissonant politics Ricci concludes think tanks contribute some order and occasionally wisdom in the ongoing battle in Washington over political ideas

A Piece of the Action Eithne Quinn, 2019-12-31 Hollywood is often thought of and certainly by Hollywood itself as a progressive haven However in the decade after the passage of the Civil Rights Act the film industry grew deeply conservative when it came to conflicts over racial justice Amid black self assertion and white backlash many of the most heated struggles in film were fought over employment In A Piece of the Action Eithne Quinn reveals how Hollywood catalyzed wider racial politics through representation on screen as well as in battles over jobs and resources behind the scenes Based on extensive archival research and detailed discussions of films like In the Heat of the Night Sweet Sweetback s Baadasssss Song Super Fly Claudine and Blue Collar this volume considers how issues of race and labor played out on the screen during the tumultuous early years of affirmative action Quinn charts how black actors leveraged their performance capital to force meaningful changes to employment and film content She examines the emergence of Sidney Poitier and other African Americans as A list stars the careers of black filmmakers such as Melvin Van Peebles and Ossie Davis and attempts by the federal government

and black advocacy groups to integrate cinema Quinn also highlights the limits of Hollywood's liberalism showing how predominantly white filmmakers executives and unions hid the persistence of racism behind feel good stories and public relations avowals of tolerance A rigorous analysis of the deeply rooted patterns of racial exclusion in American cinema A Piece of the Action sheds light on why conservative and corporate responses to antiracist and labor activism remain pervasive in today's Hollywood

Citizens and Citoyens Mark Hulliung, 2002-11-04 In a tour de force of comparative intellectual history Mark Hulliung sharply challenges conventional wisdom about the political nature of the sister republics America and France Hulliung argues that the standard American account of a continuous Jacobin republican tradition illiberal to the core is fatally misleading In reality it was the nineteenth century French liberals who undermined the cause of liberalism and it was French republicans who eventually saved liberal ideals And comparison with France provides compelling evidence that the American republic was from the beginning both liberal and republican Americans have been engaged in the right debate wrong country Antiliberal intellectuals New Leftists neoconservatives and communitarians alike have disfigured much of the republican scholarship by falsely conjuring up a history of the United States wherein rooted and moral republicans once held sway where today we encounter uprooted and amoral liberals Lively stimulating and sure to be controversial *Citizens and Citoyens* is a valuable contribution to the political culture debate

NeoConservatism C. Bradley Thompson, 2015-11-17 An obituary so soon Surely the reports of neoconservatism's death are greatly exaggerated C Bradley Thompson has written with Yaron Brook the most comprehensive and original analysis of neoconservatism yet published and in the process has dealt it a mortal blow *Neoconservatism An Obituary for an Idea* reveals publicly for the first time what the neocons call their philosophy of governance their plan for governing America This book explicates the deepest philosophic principles of neoconservatism traces the intellectual relationship between the political philosopher Leo Strauss and contemporary neoconservative political actors and provides a trenchant critique of neoconservatism from the perspective of America's founding principles The theme of this timely book neoconservatism as a species of anti Americanism will shake up the intellectual salons of both the Left and Right What makes this book so compelling is that Thompson actually lived for many years in the Straussian neoconservative intellectual world Neoconservatism therefore fits into the breaking ranks tradition of scholarly criticism and breaks the mold when it comes to informed incisive nonpartisan critique of neoconservative thought and action

Empire for Liberty Richard H. Immerman, 2010-04-05 An historian examines six public figures from Benjamin Franklin to Paul Wolfowitz who used the language of liberty to further American imperialism How could the United States a nation founded on the principles of liberty and equality have produced Abu Ghraib torture memos and warrantless wiretaps In *Empire for Liberty* historian Richard Immerman reveals that the quest for empire has guided the nation's architects from the very beginning and continues to do so today Immerman paints nuanced portraits of six men who influenced the course of American empire Benjamin Franklin John Quincy Adams William Henry Seward Henry

Cabot Lodge John Foster Dulles and Paul Wolfowitz Each played a pivotal role as empire builder and with the exception of Adams did so without occupying the presidency Taking readers from the nation's founding to the War on Terror Immerman shows how the trajectory of American empire was relentless if not straight and how these shrewd and powerful individuals shaped their rhetoric about liberty to suit the times and their needs But Immerman also demonstrates liberty and empire were on a collision course And in the Global War on Terror and the occupation of Iraq they violently collided Imperial Designs Gary Dorrien, 2013-01-11 This work argues that the influence of neoconservatives has been none too small and all too important in the shaping of this monumental doctrine and historic moment in American foreign policy Through a fascinating account of the central figures in the neoconservative movement and their push for war with Iraq he reveals the imperial designs that have guided them in their quest for the establishment of a global Pax Americana Neoconservatism Justin Vaïsse, 2011-03-18 Presents neo conservatism in three ages covering the history and illuminating core developments including the split of liberalism and the shifting relationship of party affiliation and foreign policy position US Foreign Policy and the Gulf Wars Ahmed Ijaz Malik, 2014-12-09 The US led coalition which launched an invasion of Iraq on 20 March 2003 led to a decade long military presence in the country In the run up to that invasion many comparisons were made with the 1991 Gulf War Ahmed Ijaz Malik takes these two instances of military intervention by Republican US governments to highlight how the official discourse of leaders and decision makers has an impact on foreign policy and its results By taking these two examples he examines how discourse affects real events and the extent to which the legacy of the Cold War has influenced the decisions which are made at the upper echelons of the US government US Foreign Policy and the Gulf Wars critically analyses the post Cold War liberal cosmopolitan and realist discourses related to these two instances of US military intervention Using an approach which Malik labels critical realism this book examines the ways in which discourses often act as ideological covers for material interests whilst still not holding a deterministic view whereby these interests alone shape policies From this perspective this book assesses the themes of Just War humanitarianism and cosmopolitanism It furthermore uses the approach of critical realism to engage with a variety of arguments on the emerging role of the US as they were displayed in academic discourses and other intellectual contributions around each of the 1991 and 2003 wars Malik relates these discussions to an analysis of the official discourses documents and policies displayed prior to the 1991 and 2003 wars as well as to an examination of the resulting actual conduct Since the implications of the US military presence in the Middle East are so central to the study of International Relations and Security Studies this book will be invaluable for specialists in these disciplines as well as for those interested in policy formation and the wider Middle East **Lionel Trilling and the Critics** John Rodden, 1999-01-01 Lionel Trilling and the Critics provides a comprehensive portrait of Lionel Trilling perhaps the most influential American cultural critic of the twentieth century The contributors are a who's who of Anglo American intellectuals from the 1930s through the 1970s They include Edmund Wilson Robert Penn Warren F R Leavis

Leslie Fiedler R W B Lewis R P Blackmur Irving Howe Irving Kristol Raymond Williams Norman Podhoretz Gertrude Himmelfarb William Barrett Bruno Bettelheim Gerald Graff and Cornel West

Neoconservative Images of Europe

Philipp Scherzer, 2022-10-24 While in the last twenty years perceptions of Europe have been subjected to detailed historical scrutiny American images of the Old World have been almost wantonly neglected As a response to this scholarly desideratum this pioneering study analyzes neoconservative images of Europe since the 1970s on the basis of an extensive collection of sources With fresh insight into the evolution of American images of Europe as well as into the history of U S neoconservatism the book appeals to readers familiar and new to the subject matters alike The study explores how beginning in the early 1970s ideas of the United States as an anti Europe have permeated neoconservative writing and shaped their self images and political agitation The choice of periodization and investigated personnel enables the author to refute popular claims that widespread Euro critical sentiment in the United States during the early 21st century considerably ignited by neoconservatives was a distinct post Cold War phenomenon Instead the analysis reveals that the fiery rhetoric in the context of the Iraq War debates was merely the climax of a decade old development

Encyclopedia of Populism in America

Alexandra Kindell, Elizabeth S. Demers Ph.D., 2014-02-27 This comprehensive two volume encyclopedia documents how Populism which grew out of post Civil War agrarian discontent was the apex of populist impulses in American culture from colonial times to the present The Populist Movement was founded in the late 1800s when farmers and other agrarian workers formed cooperative societies to fight exploitation by big banks and corporations Today Populism encompasses both right wing and left wing movements organizations and icons This valuable encyclopedia examines how ordinary people have voiced their opposition to the prevailing political economic and social constructs of the past as well how the elite or leaders at the time have reacted to that opposition The entries spotlight the people events organizations and ideas that created this first major challenge to the two party system in the United States Additionally attention is paid to important historical actors who are not traditionally considered Populist but were instrumental in paving the way for the movement or vigorously resisted Populism s influence on American culture This encyclopedia also shows that Populism as a specific movement and populism as an idea have served alternately to further equal rights in America and to limit them

Anti-Communism in

Twentieth-Century America Larry Ceplair, 2011-10-05 This compelling critical analysis of anti communism illustrates the variety of anti Communist styles and agendas thereby making a persuasive case that the threat of domestic communism in Cold War America was vastly overblown In the United States today communism is an ideology or political movement that barely registers in the consciousness of our nation Yet merely half a century ago communist was a buzzword that every citizen in our nation was aware of a term that connoted traitor and almost certainly a characterization that most Americans were afraid of Anti Communism in Twentieth Century America A Critical History provides a panoramic perspective of the types of anti communists in the United States between 1919 and the collapse of the Soviet Union It explains the causes and

exceptional nature of anti communism in the United States and divides it into eight discrete categories This title then thoroughly examines the words and deeds of the various anti Communists in each of these categories during the three Red Scares in the past century The work concludes with an unapologetic assessment of domestic anti communism This book allows readers to more fully comprehend what the anti communists meant with their rhetoric and grasp their impact on the United States during the 20th century and beyond for example how anti communism has reappeared as anti terrorism

Planning Reagan's War Francis H. Marlo, 2012 Ronald Reagan as a man of ideas **To Sanctify the World** George Weigel, 2022-10-04 A leading Catholic intellectual explains why the teachings of the Second Vatican Council are essential to the Church's future and the world's The Second Vatican Council 1962-1965 was the most important Catholic event in the past five hundred years Yet sixty years after its opening on October 11 1962 its meaning remains sharply contested and its promise unfulfilled In *To Sanctify the World* George Weigel explains the necessity of Vatican II and explores the continuing relevance of its teaching in a world seeking a deeper experience of freedom than personal willfulness The Council's texts are also a critical resource for the Catholic Church as it lives out its original Christ-centered evangelical purpose Written with insight and verve *To Sanctify the World* recovers the true meaning of Vatican II as the template for a Catholicism that can propose a path toward genuine human dignity and social solidarity Ideologies and Political Theory Michael Freeden, 1996-10-24 Ideologies play a crucial role in the way the political world is shaped Using the political experience of Britain France Germany and the USA this work examines political ideologies such as liberalism conservatism feminism and green politics

Yeah, reviewing a book **Reflections Of A Neoconservative Looking Back Looking Ahead** could mount up your near contacts listings. This is just one of the solutions for you to be successful. As understood, success does not recommend that you have fabulous points.
